# THE JOURNAL OF PHYSIOLOGY

## AUTHOR AND SUBJECT INDEXES

to Volumes 286–297

(January – December 1979)

These annual indexes will be incorporated in Cumulative indexes to be published in due course

CAMBRIDGE UNIVERSITY PRESS

The Pitt Building, Trumpington Street, Cambridge CB2 1RP

American Branch: 32 East 57th Street, New York, N.Y. 10022

Price £5.00 net (U.S.A. and Canada US $12.50)

# AUTHOR INDEX

ABBOTT R.H.

*ABBOTT R.H. & CAGE P.E.* Periodicity in insect flight muscle stretch activation. **289**, 32*P*, 1979

ABBOUD Francois M.

*ABBOUD Francois M., ECKBERG Dwain L., JOHANNSEN U. James & MARK Allyn L.* Carotid and cardiopulmonary baroreceptor control of splanchnic and forearm vascular resistance during venous pooling in man. **286**, 173, 1979

ACEVES J.

*ACEVES J. & CUTHBERT A.W.* Chloride-dependent sodium transport in the skin of *Ambystoma mexicanum*. **289**, 79*P*, 1979

*ACEVES J., CUTHBERT A.W. & EDWARDSON J.M.* Estimation of the density of sodium entry sites in frog skin epithelium from the uptake of [$^3$H]benzamil. **295**, 477, 1979

*ACEVES J. & CUTHBERT A.W.* Uptake of [$^3$H]benzamil at different sodium concentrations. Inferences regarding the regulation of sodium permeability. **295**, 491, 1979

ACKER H.

*ACKER H. & O'REGAN R.G.* Autonomic nervous influences upon total flow, local flow, tissue $P_{O_2}$ and chemosensory activity of the cat carotid body. **295**, 95*P*, 1979

ACKLAND Nicola

*ACKLAND Nicola, FLINT A.P.F., GALIL A.K.A., HEAP R.B. & RICKETTS A.P.* Control of parturition in sheep; cortisol stimulation of steroid metabolizing enzymes in placental explants. **295**, 78*P*, 1979

ADAMS D.J.

*ADAMS D.J. & GAGE P.W.* Ionic currents in response to membrane depolarization in an *Aplysia* neurone. **289**, 115, 1979

*ADAMS D.J. & GAGE P.W.* Characteristics of sodium and calcium conductance changes produced by membrane depolarization in an *Aplysia* neurone. **289**, 143, 1979

*ADAMS D.J. & GAGE P.W.* Sodium and calcium gating currents in an *Aplysia* neurone. **291**, 467, 1979

ADAMS R.R.

*ADAMS R.R. & BROWN D.A.* Appendix to '$\gamma$-Aminobutyric acid efflux from sympathetic glial cells: effect of 'depolarizing' agents by N.G. BOWERY, D.A. BROWN & S. MARSH. **293**, 75, 1979

ADRIAN R.H.

*ADRIAN R.H. & PERES A.* Charge movement and membrane capacity in frog muscle. **289**, 83, 1979

AEBERSOLD H.

*AEBERSOLD H. & KUHNT U.* Spatial fibre organization in the optic chiasm of the cat. **295**, 30*P*, 1979

AHMED Zahur

*AHMED Zahur & CONNOR John A.* Measurement of calcium influx under voltage clamp in molluscan neurones using the metallochromic dye arsenazo III. **286**, 61, 1979

AICKIN C. Claire

*AICKIN C. Claire & DEISZ R.A.* Pentobarbitone affects post-synaptic inhibition by presynaptic mechanisms. **287**, 27*P*, 1979

AITMAN T.J.

*AITMAN T.J., HUDLICKA O. & TYLER K.R.* Long-term effects of tetanic stimulation on blood flow, metabolism and performance of fast skeletal muscles. **295**, 36*P*, 1979

AKSELROD S.

*AKSELROD S., LANDAU E.M. & LASS Y.* Electromechanical noise in atrial muscle cells of the carp: a possible ionic feed-back mechanism. With an Appendix by B. Gavish & Y. Lass. **290**, 387, 1979

ALABASTER V.A.

*ALABASTER V.A.* Metabolism of arachidonic acid and its endoperoxide prostaglandin $H_2$ in isolated lungs from guinea-pigs and rabbits. **293**, 28*P*, 1979

ALBANO Janet

*ALBANO Janet, BHOOLA K.D. & HARVEY R.F.* The messenger role of cyclic GMP and calcium in the exocrine pancreas. **293**, 49*P*, 1979

ALBUQUERQUE Edson X.

*ALBUQUERQUE Edson X., GAGE Peter W. & OLIVEIRA Antonio C.* Differential effect of perhydrohistrioicotoxin on 'intrinsic' and 'extrinsic' end-plate responses. **297**, 423, 1979

ALDRICH Jr. R.W.

*ALDRICH Jr. R.W., GETTING P.A. & THOMPSON S.H.* Inactivation of delayed outward current in molluscan neurone somata. **291**, 507, 1979

*ALDRICH Jr. R.W., GETTING P.A. & THOMPSON S.H.* Mechanism of frequency-dependent broadening of molluscan neurone soma spikes. **291**, 531, 1979

AL-HASSANI M.
*AL-HASSANI M. & DAVISON J.S.* The role of the non-cholinergic, non-adrenergic inhibitory nerves in the regulation of the guinea-pig gall-bladder. **292**, 48*P*, 1979
*AL-HASSANI M. & DAVISON J.S.* Adrenergic responses to transmural electrical stimulation of the guinea-pig gall-bladder. **296**, 83*P*, 1979
ALLEN A.
*ALLEN A., PEARSON J.P. & VENABLES C.W.* The glycoprotein from human gastric mucus gel and its breakdown by pepsin. **293**, 30*P*, 1979
ALLEN D.G.
*ALLEN D.G. & KURIHARA S.* Calcium transients at different muscle lengths in rat ventricular muscle. **292**, 68*P*, 1979
ALLEN J.D.
*ALLEN J.D., PANTRIDGE J.F. & PATTON J.N.* Autonomic nervous activity and myocardial necrosis after DC shocks from cardiac defibrillators. **293**, 23*P*, 1979
*ALLEN J.D. & CLARKE Lesley A.* The contraction induced by dithiothreitol in isolated rabbit vascular smooth muscle. **293**, 77*P*, 1979
*ALLEN J.D. & BROWN D.C.* Adverse effects of monopalmitoyl phosphatidylcholine on canine Purkinje fibres. **296**, 79*P*, 1979
ALLISON D.J.
*ALLISON D.J., CLAY T.P. & STANBROOK Hilary S.* Pulmonary vasoconstrictor response to hyperoxia? **289**, 73*P*, 1979
ALPERN M.
*ALPERN M.* Lack of uniformity in colour matching. **288**, 85, 1979
ALTMAN J.S.
*ALTMAN J.S., SHAW M.K. & TYRER N.M.* Visualization of synapses of physiologically identified cobalt-filled neurones in the locust. **296**, 2*P*, 1979
AL-UBAIDI Firial
*AL-UBAIDI Firial & BAKHLE Y.S.* Differences in arachidonate metabolism between guinea-pig, rat and human isolated lung. **291**, 41*P*, 1979
*AL-UBAIDI Firial & BAKHLE Y.S.* What is the fate of exogenous prostaglandin endoperoxide, $PGH_2$, in isolated lung? **293**, 20*P*, 1979
*AL-UBAIDI Firial & BAKHLE Y.S.* The fate of exogenous arachidonic acid in guinea-pig isolated lung. **295**, 445, 1979
ALUMETS J.
*ALUMETS J., EL MUNSHID H.A., HÅKANSON R., LIEDBERG G., OSCARSON J., REHFELD J.F. & SUNDLER F.* Effect of antrum exclusion on endocrine cells in rat stomach. **286**, 145, 1979
ALVARADO F.
*ALVARADO F. & L'HERMINIER M.* Unstirred water layers and the evaluation of the kinetic parameters of active transport in the small intestine *in vitro*. **289**, 45*P*, 1979
*ALVARADO F.* Reversible binding and irreversible translocation: two distinct stages in sodium and solute cotransport in the small intestine. **292**, 77*P*, 1979
*ALVARADO F. & ROBINSON J.W.L.* A kinetic study of the interactions between amino acids and monosaccharides at the intestinal brush-border membrane. **295**, 457, 1979
ALVAREZ-LEEFMANS F.J.
*ALVAREZ-LEEFMANS F.J., DE SANTIS A. & MILEDI R.* Effects of some divalent cations on synaptic transmission in frog spinal neurones. **294**, 387, 1979
*ALVAREZ-LEEFMANS F.J. & MILEDI R.* Voltage sensitive calcium channels in frog spinal motoneurones. **295**, 81*P*, 1979
AMASSIAN V.E.
*AMASSIAN V.E., EBERLE L. & RUDELL A.* Changes in forelimb trajectory during maturation of contact placing in kittens. **289**, 54*P*, 1979
AMBACHE N.
*AMBACHE N., ANADÓN A., ANADÓN Maria-Rosa, KILLICK S.W. & RUST L.V.* Active substances in Auerbach's plexus: the spasmogenic activity of partially purified, ATP-free, extracts of plexus containing longitudinal muscle. **295**, 59*P*, 1979
AMIS T.C.
*AMIS T.C., HEATHER J.D., HUGHES J.M.B., JONES Hazel A. & RHODES C.G.* Regional distribution of pulmonary ventilation and perfusion in the conscious dog. **295**, 40*P*, 1979
AMTORP Ole
*AMTORP Ole* Distribution of inulin, sucrose and mannitol in rat brain cortex slices following *in vivo* or *in vitro* equilibration. **294**, 81, 1979
AMURE B.O.
*AMURE B.O.* Caffeine and the decay of the McCollough effect. **295**, 32*P*, 1979

ANADÓN A.
*AMBACHE N., ANADÓN A., ANADÓN Maria-Rosa, KILLICK S.W. & RUST L.V.* Active substances in Auerbach's plexus: the spasmogenic activity of partially purified, ATP-free, extracts of plexus containing longitudinal muscle. **295**, 59*P*, 1979
ANADÓN Maria-Rosa
*AMBACHE N., ANADÓN A., ANADÓN Maria-Rosa, KILLICK S.W. & RUST L.V.* Active substances in Auerbach's plexus: the spasmogenic activity of partially purified, ATP-free, extracts of plexus containing longitudinal muscle. **295**, 59*P*, 1979
ANAND Ashima
*ANAND Ashima, IGGO A. & PAINTAL A.S.* Lability of granular vesicles in Merkel cells of the type I slowly-adapting cutaneous receptors. **296**, 19*P*, 1979
ANDERSON Toni
*ANDERSON Toni, BANNISTER L.H. & HAMANN W.C.* Comparative ultrastructure of touch corpuscles in the rabbit and the cat. **287**, 6*P*, 1979
ANDERSON W.P.
*ANDERSON W.P., JOHNSTON C.I. & KORNER P.I.* Acute renal haemodynamic and renin-angiotensin system responses to graded renal artery stenosis in the dog. **287**, 231, 1979
ANDRESEN M.C.
*ANDRESEN M.C. & BROWN A.M.* Photoresponses of a sensitive extraretinal photoreceptor in *Aplysia*. **287**, 267, 1979
*ANDRESEN M.C., BROWN A.M. & YASUI S.* The role of diffusion in the photoresponse of an extraretinal photoreceptor of *Aplysia*. **287**, 283, 1979
ANDREWS Bryan W.
*ANDREWS Bryan W. & POLLEN Daniel A.* Relationship between spatial frequency selectivity and receptive field profile of simple cells. **287**, 163, 1979
ANDREWS J.F.
*ANDREWS J.F., LYNCH Marina & MOORE R.E.* The early metabolic response of lambs to small doses of 3,3′,5-triiodothyronine. **293**, 49*P*, 1979
ANDREWS P.L.R.
*ANDREWS P.L.R., GRUNDY D. & SCRATCHERD T.* Vagal afferent discharge from tension receptors in the ferret stomach. **291**, 33*P*, 1979
ANGAUT-PETIT Denise
*ANGAUT-PETIT Denise & MALLART Alberto* Dual innervation of end-plate sites and its consequences for neuromuscular transmission in muscles of adult *Xenopus laevis*. **289**, 203, 1979
ANGEL A.
*ANGEL A., HALSEY M.J. & WARDLEY-SMITH Bridget* Reversal of the effect of urethane on the evoked somatosensory cortical response by high ambient pressure in the rat. **289**, 61*P*, 1979
ANIL H.
*ANIL H., FORBES J.M. & MCMAHON M.J.* Feeding responses to intraportal propionate in sheep following denervation of the liver. **290**, 19*P*, 1979
ANIS N.
*ANIS N., EVANS M. & USHERWOOD P.N.R.* Plant lectins and desensitization of locust glutamate receptors. **291**, 47*P*, 1979
ANNETTS C.
*ANNETTS C.* A television densitometer. **296**, 15*P*, 1979
ANTROBUS J.H.L.
*ANTROBUS J.H.L., KINGABY R.O. & LAB Max J.* The use of pressure-length loops in studies of intact left ventricle *in situ* in the dog and pig. **289**, 14*P*, 1979
APPELHOFF J.
*APPELHOFF J., FENTROP T., HARTUNG S., LIGHT L.H. & STELLING R.* Changes in cardiac output and other flow variables during everyday life. **289**, 26*P*, 1979
APPENTENG K.
*APPENTENG K., MORIMOTO T. & TAYLOR A.* Methods used to compare monosynaptic and multisynaptic projection of spindle afferents to jaw elevator motoneurones of different types. **293**, 13*P*, 1979
*APPENTENG K., MORIMOTO T. & TAYLOR A.* Different behaviour of fast and slow efferents to masseter muscle in reflex movements in the cat. **293**, 44*P*, 1979
ARCHER Lorna
*ARCHER Lorna, BENSON M.J., GREEN W.J., HARDY R.J., THOMPSON D.G. & WINGATE D.L.* Radiotelemetric measurement of normal human small bowel motor activity during prolonged fasting. **296**, 53*P*, 1979
ARGENZIO R.A.
*ARGENZIO R.A. & WHIPP S.C.* Inter-relationship of sodium, chloride, bicarbonate and acetate transport by the colon of the pig. **295**, 365, 1979
ARISPE N.
*ARISPE N., QUINTA-FERREIRA Emilia & ROJAS E.* Gating of the sodium conductance in the giant axon of the crab *Carcinus maenas*. **295**, 11*P*, 1979

ARMITAGE G.
*ARMITAGE G., HERVEY G.R. & TOBIN G.* An automated long-term calorimeter for rats. **290**, 15*P*, 1979
*ARMITAGE G., HERVEY G.R. & TOBIN G.* Energy expenditure of rats tube-fed at different energy levels. **290**, 17*P*, 1979

ARMSTRONG D.J.
*ARMSTRONG D.J., LACEY M. & LUCK J.C.* The role of platelets in the post-embolic responses of slowly adapting intrapulmonary stretch receptors in the rabbit. **289**, 93*P*, 1979

ARMSTRONG D.M.
*ARMSTRONG D.M. & RAWSON J.A.* Responses of neurones in nucleus interpositus of the cerebellum to cutaneous nerve volleys in the awake cat. **289**, 403, 1979
*ARMSTRONG D.M. & RAWSON J.A.* Activity patterns of cerebellar cortical neurones and climbing fibre afferents in the awake cat. **289**, 425, 1979
*ARMSTRONG D.M., COGDELL Barbara & HARVEY R.J.* Discharge patterns of Purkinje cells in cats anaesthetized with α-chloralose. **291**, 351, 1979

ARMSTRONG David L.
*ARMSTRONG David L. & LESTER Henry A.* The kinetics of tubocurarine action and restricted diffusion within the synaptic cleft. **294**, 365, 1979

ARMSTRONG R.
*ARMSTRONG R., BLESOVSKY Lynda, CORSIGLIA Rosemarie & GORDON G.* Descending projections from the cat's dorsal column nuclei. **296**, 43*P*, 1979

ARMSTRONG-JAMES M.
*ARMSTRONG-JAMES M. & FOX Kevin* One-in-three command pulse selection for off-line analysis of neuronal spike data. **292**, 7*P*, 1979

ASCHER P.
*ASCHER P., LARGE W.A. & RANG H.P.* Studies on the mechanism of action of acetylcholine antagonists on rat parasympathetic ganglion cells. **295**, 139, 1979

ASHCROFT Frances M.
*ASHCROFT Frances M., STANDEN N.B. & STANFIELD P.R.* Calcium currents in insect muscle. **291**, 51*P*, 1979

ASHFORD M.L.J.
*ASHFORD M.L.J., MACDONALD A.G. & WANN K.T.* Moderate hydrostatic pressures reduce the spontaneous release of transmitter in the frog. **292**, 44*P*, 1979
*ASHFORD M.L.J. & WANN K.T.* A comparison of the effects of butanol and benzyl alcohol on the frog end-plate conductance. **295**, 86*P*, 1979

ASHLEY C.C.
*ASHLEY C.C., LIGNON J. & LIPTON A.* Aequorin responses from single barnacle muscle fibre under voltage-clamp. **296**, 14*P*, 1979
*ASHLEY C.C., FRANCIOLINI F., LEA T.J. & LIGNON J.* Effect of carbon dioxide on calcium transient and tension responses from fibres of the barnacle *Balanus nubilus*. **296**, 71*P*, 1979

ASSAF S.Y.
*ASSAF S.Y., MASON S.T. & MILLER J.J.* Noradrenergic modulation of neuronal transmission between the entorhinal cortex and the dentate gyrus of the rat. **292**, 52*P*, 1979
*ASSAF S.Y. & KELLY J.S.* On the nature of depolarizing after-potentials in granule cells of the rat dentate gyrus maintained *in vitro*. **296**, 68*P*, 1979

ATHERTON J.C.
*ATHERTON J.C. & PIRIE Susan C.* Glomerular filtration rate and sodium and water reabsorption in the pseudo-pregnant rat. **289**, 75*P*, 1979

ATKINSON J.
*ATKINSON J., KAESERMANN H.-P., LAMBELET Josette, PETERS G. & PETERS-HAEFELI Lise* The role of circulating renin in drinking in response to isoprenaline. **291**, 61, 1979

ATTWELL David
*ATTWELL David, BERGMAN Claude & OJEDA Carlos* The action of salicylate ions on the frog node of Ranvier. **295**, 69, 1979

ATWATER Illani
*ATWATER Illani, RIBALET B. & ROJAS E.* Mouse pancreatic β-cells: tetraethylammonium blockage of the potassium permeability increase induced by depolarization. **288**, 561, 1979
*ATWATER Illani, DAWSON Christine M., RIBALET B. & ROJAS E.* Potassium permeability activated by intracellular calcium ion concentration in the pancreatic β-cell. **288**, 575, 1979
*ATWATER Illani & RIBALET B.* Theophylline inhibition and stimulation of glucose-induced electrical activity in mouse pancreatic β-cells. **291**, 55*P*, 1979
*ATWATER Illani, ROJAS E. & SCOTT Angela* Simultaneous measurements of insulin release and electrical activity from single microdissected mouse Islets of Langerhans. **291**, 57*P*, 1979
*ATWATER Illani, EDDLESTONE G.T., RIBALET B. & ROJAS E.* Calcium channel voltage noise across the β-cell membrane in Islet of Langerhans of the mouse. **291**, 69*P*, 1979

AUBBY D.S.
*AUBBY D.S. & WIDDAS W.F.* Asymmetry in the hexose transfer system of erythrocytes from new-born guinea-pigs. **293**, 73*P*, 1979
AUVERT B.
*AUVERT B. & LEVER M.J.* The effect of steady shear stress on the uptake of albumin by the rabbit thoracic aorta. **292**, 67*P*, 1979
AYLIFFE Susan J.
*AYLIFFE Susan J. & HILL R.G.* Responses of cells in the trigeminal subnucleus caudalis of the rat to noxious stimuli. **287**, 18*P*, 1979
*AYLIFFE Susan J. & HILL R.G.* The actions of opiates on the nociceptive responses of neurones in the trigeminal nucleus caudalis of the rat. **293**, 65*P*, 1979
AZAMI J.
*AZAMI J., DAVIES J.E. & ROBERTS M.H.T.* Primary afferent depolarization evoked from stimulation of brain-stem raphe nuclei in the rat. **293**, 54*P*, 1979
*AZAMI J., ROBERTS M.H.T. & WRIGHT D.M.* Effects of ionophoretic application of morphine and naloxone on responses of nucleus reticularis paragigantocellularis neurones to noxious stimulation in the rat. **293**, 63*P*, 1979
BACIGALUPO J.
*BACIGALUPO J., LUXORO M., RISSETTI Sylvia & VERGARA Cecilia* Extracellular space and diffusion barriers in muscle fibres from *Magabalanus psittacus* (Darwin). **288**, 301, 1979
BÄCKSTRÖM Ann-Christine
*BÄCKSTRÖM Ann-Christine & HEMILÄ S.O.* Dark-adaptation in frog rods: changes in the stimulus–response function. **287**, 107, 1979
BACQ Z.M.
*BACQ Z.M. & DEBY C.* Effects of an inhibitor of cytochrome $P_{450}$ on the responses of the rabbit to arachidonic acid. **295**, 38*P*, 1979
BADER C.R.
*BADER C.R., MACLEISH P.R. & SCHWARTZ E.A.* A voltage clamp study of the light response in solitary rods of the tiger salamander. **296**, 1, 1979
BAERTSCHI A.J.
*BAERTSCHI A.J. & DREIFUSS J.J.* Effects of enkephalins and of substance P on the hypothalamo-neurohypophysial system of the rat. **289**, 56*P*, 1979
BAGUST J.
*BAGUST J.* The effects of tenotomy upon the contraction characteristics of motor units in rabbit soleus muscle. **290**, 1, 1979
BAILEY D.J.
*BAILEY D.J., BRADBURY M.W.B., FRANCE Venetia M., HEDLEY Ruth, NAIK Saroj & PARRY Helen* Cation transport across the guinea-pig placenta perfused *in situ*. **287**, 45, 1979
BAILLIE P.
*BAILLIE P. & SMITH I.C.H.* Real-time computing in the teaching laboratory – an analysis of heart rate transients. **291**, 4*P*, 1979
*BAILLIE P.* Estimation of meal patterns from rates of food-directed activity. **291**, 22*P*, 1979
*BAILLIE P.* A digital counter for feeding activity. **291**, 23*P*, 1979
BAINTON Cedric R.
*BAINTON Cedric R. & KIRKWOOD P.A.* The effect of carbon dioxide on the tonic and the rhythmic discharges of expiratory bulbospinal neurones. **296**, 291, 1979
BAKER G.F.
*BAKER G.F., LLEWELLYN H. & SEGAL M.B.* The electrical potential across the ovine nasal mucosa. **293**, 34*P*, 1979
BAKER Jeffrey T.
*BAKER Jeffrey T.* Dependence of *p*-aminohippurate transport on calcium in canine renal cortical slices. **288**, 425, 1979
BAKER P.F.
*BAKER P.F. & HONERJÄGER P.* Apparatus for the simultaneous measurement of calcium efflux and ionized calcium in squid giant axons. **287**, 5*P*, 1979
*BAKER P.F., HONERJÄGER P. & REITER M.* Reversible inhibition of the sodium pump in squid axons by the cardioactive drug AR-L 57. **287**, 22*P*, 1979
*BAKER P.F. & KNIGHT D.E.* Calcium-dependent exocytosis in 'leaky' bovine adrenal medullary cells has a specific requirement for magnesium adenosine triphosphate. **295**, 89*P*, 1979
*BAKER P.F. & KNIGHT D.E.* Influence of anions on exocytosis in 'leaky' bovine adrenal medullary cells. **296**, 106*P*, 1979
BAKER R.
*BAKER R., JAFFE B.M., REED J.D., SHAW B & VENABLES C.W.* Endogenous prostaglandins and stimulated gastric secretion in the cat: the effect of various secretory inhibitors. **291**, 1, 1979

BAKHLE Y.S.
*BAKHLE Y.S. & BEN-HARARI R.R.* Effects of oestrous cycle and exogenous ovarian steroids on 5-hydroxytryptamine metabolism in rat lung. **291**, 11, 1979
*AL-UBAIDI Firial & BAKHLE Y.S.* Differences in arachidonate metabolism between guinea-pig, rat and human isolated lung. **291**, 41*P*, 1979
*BAKHLE Y.S. & BEN-HARARI R.R.* Metabolism of angiotensin and bradykinin in rat isolated lungs during the oestrous cycle. **292**, 38*P*, 1979
*AL-UBAIDI Firial & BAKHLE Y.S.* What is the fate of exogenous prostaglandin endoperoxide, $PGH_2$, in isolated lung? **293**, 20*P*, 1979
*BAKHLE Y.S., HARTIALA J. & TOIVONEN H.* Exposure to oxygen inhibits metabolism of vasoactive hormones in rat isolated lung. **293**, 27*P*, 1979
*AL-UBAIDI Firial & BAKHLE Y.S.* The fate of exogenous arachidonic acid in guinea-pig isolated lung. **295**, 445, 1979

BALMENT R.J.
*BALMENT R.J., BRIMBLE M.J. & FORSLING Mary L.* Effect of oxytocin on renal sodium and chloride in Long Evans and Brattleboro rats. **296**, 89*P*, 1979

BAND D.M.
*BAND D.M. & BROADWAY J.W.* Some effects of pH on plasma calcium in the human and cat. **289**, 38*P*, 1979
*BAND D.M., BEYNON L. & SKINNER P.* An electrode system for plotting ionized plasma calcium and pH. **293**, 13*P*, 1979
*BAND D.M., COWELL T.K. & TREASURE T.* A telemeter for ion selective catheter tipped electrodes. **293**, 14*P*, 1979

BANGHAM J.A.
*BANGHAM J.A.* A plausible method for impaling red cells or other small freely suspended cells. **291**, 14*P*, 1979
*BANGHAM J.A., PYNSENT P.B. & ROJAS E.* Voltage dependency of the membrane capacity in giant axons from *Loligo forbesi*. **291**, 70*P*, 1979

BANKS R.W.
*BANKS R.W., BARKER D. & STACEY M.J.* Sensory innervation of cat hind-limb muscle spindles. **293**, 40*P*, 1979
*BANKS R.W., BESSOU P., JOFFROY M. & PAGÈS B.* Reflex responses of pools of gastrocnemius lateralis $\gamma$ motoneurones elicited by ipsilateral sural nerve stimulation in the cat. **296**, 107*P*, 1979

BANNISTER L.H.
*ANDERSON Toni, BANNISTER L.H. & HAMANN W.C.* Comparative ultrastructure of touch corpuscles in the rabbit and the cat. **287**, 6*P*, 1979

BARASI S.
*BARASI S. & PAY Sharon* Projection of nociceptive substantia nigra neurones in the rat. **293**, 62*P*, 1979

BARCHAS J.D.
*BARCHAS J.D., DEMENT W.C., FAULL K., FOUTZ A.S. & HOLMAN R.B.* The concentrations of amine metabolites in cerebrospinal fluid from normal and narcoleptic dogs. **296**, 94*P*, 1979

BARCHI R.L.
*BARCHI R.L. & WEIGELE J.B.* Characteristics of saxitoxin binding to the sodium channel of sarcolemma isolated from rat skeletal muscle. **295**, 383, 1979

BARER Gwenda
*BARER Gwenda & WALSH Mary* Chronically hypoxic rat carotid bodies. **290**, 38*P*, 1979

BARKER D.

# SUBJECT INDEX

**Acetylcholine**
Changes in total and quantal release of acetylcholine in the mouse diaphragm during activation and inhibition of membrane ATPase. **286**, 1, 1979
Ion-concentration dependence of the reversal potential and the single channel conductance of ion channels at the frog neuromuscular junction. **286**, 417, 1979
The effects of acetylcholine and dopamine on carotid chemosensory activity in the rabbit. **288**, 411, 1979
Loss of extrasynaptic acetylcholine sensitivity upon reinnervation of parasympathetic ganglion cells. **289**, 263, 1979
Effect of acetylcholine stimulation on calcium and sodium uptake by the isolated rat pancreas. **290**, 413, 1979
Adenosine receptors in frog sinus venosus: slow inhibitory potentials produced by adenine compounds and acetylcholine. **293**, 23, 1979
Effects of acetylcholine on the smooth muscle cell of isolated main coronary artery of the guinea-pig. **293**, 119, 1979
Intra-axonal diffusion of [$^3$H]acetylcholine and [$^3$H]$\gamma$-aminobutyric acid in a neurone of *Aplysia*. **295**, 397, 1979
Interaction of permeant ions with channels activated by acetylcholine in *Aplysia* neurones. **297**, 9, 1979

**Acetylcholine antagonist**
Studies on the mechanism of action of acetylcholine antagonists on rat parasympathetic ganglion cells. **295**, 139, 1979

**Acetylcholine receptor**
Cross-potentiation between carbachol and nerve-released acetylcholine. **293**, 64*P*, 1979
The kinetics of tubocurarine action and restricted diffusion within the synaptic cleft. **294**, 365, 1979
Voltage clamp analysis of acetylcholine receptor desensitization in isolated mollusc neurones. **297**, 581, 1979

**Acetylcholinesterase**
Normal distribution and denervation changes of neurotransmitter related enzymes in cholinergic neurones. **286**, 233, 1979

**Action potential**
Effects of nerve impulses on threshold of frog sciatic nerve fibres. **290**, 273, 1979
Intracellular citrate or externally applied tetraethylammonium ions produce calcium-dependent action potentials in an insect motoneurone cell body. **291**, 327, 1979
Mechanism of frequency-dependent broadening of molluscan neurone soma spikes. **291**, 531, 1979
A simple 'wave form window' for nerve spikes. **291**, 15*P*, 1979
A mathematical model for conduction of action potentials along bifurcating axons. **295**, 323, 1979

**Adenine nucleotide**
Secretion and extracellular metabolism of adenine nucleotides by endothelial cells in culture. **291**, 40*P*, 1979

**Adenosine**
Adenosine and hind-limb vascular resistance in the dog. **290**, 47*P*, 1979
Adenosine receptors in frog sinus venosus: slow inhibitory potentials produced by adenine compounds and acetylcholine. **293**, 23, 1979

**Adenosine triphosphatase (ATPase)**
Changes in total and quantal release of acetylcholine in the mouse diaphragm during activation and inhibition of membrane ATPase. **286**, 1, 1979
Sodium ions, acting at high-affinity extracellular sites, inhibit sodium-ATPase activity of the sodium pump by slowing dephosphorylation. **289**, 17, 1979
The effect of high hydrostatic pressure on the membrane-bound ATP-ase of *Acholeplasma laidlawii* B. **296**, 105*P*, 1979

**Adenosine triphosphate receptor**
Activation and inhibition of calcium-dependent histamine secretion by ATP ions applied to rat mast cells. **296**, 229, 1979

**Adenosine triphosphate (ATP)**
Effect of adenosine triphosphate and some derivatives on cerebral blood flow and metabolism. **296**, 343, 1979

**Adenylate cyclase**
Regulation of adenylate cyclase by prostacyclin in a neuronal hybrid cell line. **296**, 48*P*, 1979

**Adrenal cortex**
Perfusion of the rat adrenal cortex *in situ*. **291**, 21*P*, 1979
Control of 18-hydroxydeoxycorticosterone secretion in the rat. **291**, 66*P*, 1979

**Adrenal medulla**
Selective response of rat peripheral sympathetic nervous system to various stimuli. **293**, 513, 1979

**Adrenal steroids**
Secretion and metabolism of cortisol and aldosterone during controlled hyperthermia. **292**, 1, 1979

**Adrenergic neurone**
On the kinetics and maximal capacity of the system for rapid axonal transport in mammalian neurones. **292**, 325, 1979

**Adrenocortical steroid**
Influence of corticotrophin and dibutyryl cyclic AMP on cortisol production by guinea-pig adrenocortical cells. **295**, 79*P*, 1979

**Afferent nerve fibre**
Scaling factor relating conduction velocity and dia-

**Afferent nerve fibre** (*cont.*)
meter for myelinated afferent nerve fibres in the cat hind limb. **289**, 277, 1979
The morphology of group Ib afferent fibre collaterals in the spinal cord of the cat. **296**, 215, 1979
**After-hyperpolarization**
The calcium action potential and a prolonged calcium dependent after-hyperpolarization in mouse neuroblastoma cells. **292**, 297, 1979
The calcium current and the activation of a slow potassium conductance in voltage-clamped mouse neuroblastoma cells. **292**, 307, 1979
Changes in motoneurone electrical properties following axotomy. **293**, 197, 1979
Recurrent inhibition and afterhyperpolarization following motoneural discharge in the cat. **297**, 253, 1979
**Afterimage**
Initial-image and afterimage discrimination in the human rod and cone systems. **294**, 165, 1979
**After-potential**
Calcium-dependent potentials in the mammalian sympathetic neurone. **290**, 507, 1979
On the nature of depolarizing after-potentials in granule cells of the rat dentate gyrus maintained *in vitro*. **296**, 68*P*, 197?
**Ageing**
Influence of sex and age on febrile responses to peripheral and central administration of pyrogens in the rabbit. **295**, 263, 1979
**Airway**
Upper airways reflexes evoked by sympathomimetic amines administered in aerosol form to rabbits. **292**, 60*P*, 1979
**Albumin**
Fever induced in rabbits by intravenous injection of bovine serum albumin. **290**, 69, 1979
The effect of steady shear stress on the uptake of albumin by the rabbit thoracic aorta. **292**, 67*P*, 1979
**Aldosterone**
Aldosterone induced changes in colonic sodium transport occurring naturally during development in the neonatal pig. **292**, 495, 1979
Increased sodium conductance of the apical surface of toad skin treated with aldosterone **295**, 47*P*, 1979
**Amiloride**
Post-natal development of amiloride sensitive sodium transport in pig distal colon. **292**, 481, 1979
**Amino acid**
Amino acid patterns in the blood of alloxan diabetic rabbits: response to glucagon. **287**, 16*P*, 1979
The effect of ouabain on amino acid and orthophosphate influxes in squid giant axons. **289**, 389, 1979
Evidence of a neurotransmitter role for aspartate and γ-aminobutyric acid in the rat olfactory cortex. **291**, 51, 1979
Characterization of neutral amino acid carriers at the basal side of salivary epithelium by paired-tracer single circulation. **291**, 26*P*, 1979
Studies on amino acid inhibition of monosaccharide exit from anuran small intestinal epithelium. **294**, 195, 1979
Blood alanine as a regulator of amino acid release from muscle in rats. **295**, 12*P*, 1979
**Amino acid receptor**
Inhibitory amino acid receptors in the rostral hypothalamus: a micro-iontophoretic study. **296**, 67*P*, 1979
**Amino acid transmitter**
The excitation of mammalian central neurones by amino acids. **286**, 29, 1979
Selective antagonism of amino acid-induced and synaptic excitation in the cat spinal cord. **297**, 621, 1979
**Amino acid transport**
Different mechanisms for neutral amino acid uptake by new-born pig colon. **286**, 479, 1979
Neutral amino acid transport into microvillus membrane vesicles prepared from human placentae. **291**, 29*P*, 1979
Inadequacy of the 'simple diffusion and mediated transport' model to describe amino acid influx into rabbit ileum. **291**, 58*P*, 1979
Two-carrier influx of neutral amino acids into rabbit ileal mucosa. **292**, 339, 1979
Factors affecting the movement of amino acids and small peptides across the vascularly perfused *Anuran* small intestine. **293**, 457, 1979
A kinetic study of the interactions between amino acids and monosaccharides at the intestinal brush-border membrane. **295**, 457, 1979
The effects of fasting on the Real kinetic parameters for L-valine absorption measured in jejunum and ileum *in vivo* in fowls. **295**, 20*P*, 1979
**γ-Aminobutyric acid**
Inhibitory mechanisms influencing complex cell orientation selectivity and their modification at high resting discharge levels. **289**, 33, 1979
Tetanus toxin and synaptic inhibition in the substantia nigra and striatum of the rat. **290**, 23, 1979
Potentiation of veratridine-evoked GABA release from brain slices by the absence of calcium ions. **292**, 47*P*, 1979
Chloride-dependent effect of GABA on hypothalamo-neurohypophysial axons *in vitro* in the rat. **292**, 51*P*, 1979
[$^3$H]γ-Aminobutyric acid uptake into neuroglial cells of rat superior cervical sympathetic ganglia. **293**, 51, 1979
γ-Aminobutyric acid efflux from sympathetic glial cells: effect of 'depolarizing' agents. With an Appendix by R.R. ADAMS & D.A. BROWN. **293**, 75, 1979
Glycine, GABA and synaptic inhibition of reticulospinal neurones of lamprey. With an Appendix by A.R. MARTIN. **293**, 393, 1979
Intracellular injections of GABA have a hyperpolarizing effect on motoneurones. **293**, 60*P*, 1979
Intra-axonal diffusion of [$^3$H]acetylcholine and [$^3$H]γ-aminobutyric acid in a neurone of *Aplysia*. **295**, 397, 1979
Evidence for gamma-aminobutyric acid as a transmitter in the central nervous system of *Limulus polyphemus*. **296**, 69*P*, 1979
***p*-Aminohippurate**
Dependence of *p*-aminohippurate transport on calcium in canine renal cortical slices. **288**, 425, 1979

**Amylase**
Amylase secretion in the rabbit parotid gland when stimulating the sympathetic nerves during parasympathetic activity. **296**, 443, 1979
**Anaesthesia**
A safer open-circuit anaesthetic system for administering halothane to rats. **289**, 15*P*, 1979
Chloralose anaesthesia using a continuous infusion system in dogs. **290**, 10*P*, 1979
**Anal sphincter**
Characteristics of the internal anal sphincter and the rectum of the vervet monkey. **286**, 383, 1979
Segmental and descending control of the external urethral and anal sphincters in the cat. **294**, 105, 1979
**Angiotensin**
Noradrenaline as a possible mediator of the actions of angiotensin on fluid transport by rat jejunum *in vivo*. **286**, 351, 1979
The effect of meclofenamate on the natriuretic and antinatriuretic actions of angiotensin II. **287**, 41*P*, 1979
The neuronal organization of the rat subfornical organ *in vitro* and a test of the osmo- and morphine-receptor hypotheses. **291**, 101, 1979
The effect of hypothermia (25 °C) upon the half-life of angiotensin II-amide in the rat. **291**, 64*P*, 1979
The effects of 1-sar-8-ala-angiotensin II (saralasin) on the renal responses to a high dose of angiotensin II in rats. **293**, 26*P*, 1979
Inhibition by angiotensin II of baroreceptor-evoked activity in cardiac vagal efferent nerves in the dog. **294**, 69, 1979
Drinking behaviour in rats treated with isoprenaline, angiotensin II or angiotensin antagonists. **296**, 193, 1979
**Angiotensin converting enzyme**
The effect of angiotensin converting enzyme inhibitor on baroreceptor reflexes in conscious dogs during sodium depletion. **295**, 75*P*, 1979
**Anion**
Characteristics of the anion channel in the sino-atrial node cell of the rabbit. **294**, 447, 1979
**Anomalous rectification**
Effects of internal potassium and sodium on the anomalous rectification of the starfish egg as examined by internal perfusion. **292**, 251, 1979
**Anomalous trichromacy**
Lack of uniformity in colour matching. **288**, 85, 1979
**Antidiuretic hormone**
Cardiovascular and antidiuretic effects of central prostaglandin $E_2$. **288**, 159, 1979
Renin, antidiuretic hormone and the kidney in water restriction and rehydration. **294**, 181, 1979
**Aorta**
The intimal surface of the rabbit aorta. **293**, 19*P*, 1979
**Aortic chemoreceptor**
A method of stimulation of aortic chemoreceptors in the dog. **290**, 4*P*, 1979
**Aortic nerve**
Cell bodies of aortic nerve efferent fibres in the rabbit and cat. **293**, 55*P*, 1979
***Aplysia***
Photoresponses of a sensitive extraretinal photoreceptor in *Aplysia*. **287**, 267, 1979
The role of diffusion in the photoresponse of an extraretinal photoreceptor of *Aplysia*. **287**, 283, 1979
Aplysia and its giant nerve cells (a 26 min 16 mm film). **287**, 1*P*, 1979
Ionic currents in response to membrane depolarization in an *Aplysia* neurone. **289**, 115, 1979
Characteristics of sodium and calcium conductance changes produced by membrane depolarization in an *Aplysia* neurone. **289**, 143, 1979
Sodium and calcium gating currents in an *Aplysia* neurone. **291**, 467, 1979
**Arachidonic**
Effects of an inhibitor of cytochrome $P_{450}$ on the responses of the rabbit to arachidonic acid. **295**, 38*P*, 1979
**Arachidonic acid**
Direct inhibition of gastric secretion and mucosal blood flow by arachidonic acid. **286**, 15, 1979
Differences in arachidonate metabolism between guinea-pig, rat and human isolated lung. **291**, 41*P*, 1979
Metabolism of arachidonic acid and its endoperoxide prostaglandin $H_2$ in isolated lungs from guinea-pigs and rabbits. **293**, 28*P*, 1979
The fate of exogenous arachidonic acid in guinea-pig isolated lung. **295**, 445, 1979
**Arterial muscle**
Calcium dependence of potassium efflux induced by noradrenaline in sheep carotid arteries. **287**, 30*P*, 1979
Studies of the electrical excitability of aorta smooth muscle of rabbit. **293**, 11, 1979
**Arterial pressure**
Arterial pressure and pulse interval responses to repetitive carotid baroreceptor stimuli in man. **297**, 61, 1979
**Arterial pulse**
The action of angiotensin II on the baroreflex response of the conscious ewe and the conscious fetus. **288**, 467, 1979
**Artery**
Identification of different sodium compartments from smooth muscle cells, fibroblasts and endothelial cells, in arteries and tissue culture. **287**, 213, 1979
Some properties of the excitatory junction potentials recorded from saphenous arteries of rabbits. **287**, 337, 1979
The interactions of colloidal gold with plasma macromolecules and its uptake by the arterial wall in the rabbit. **289**, 28*P*, 1979
Steady albumin transport in the rabbit common carotid artery. **289**, 92*P*, 1979
Distribution of $^{131}$albumin through the wall of the rabbit common carotid artery incubated *in vitro* or perfused *in situ*. **296**, 45*P*, 1979
***Ascaris***
Voltage-clamp analysis of the potassium current that produces a negative-going action potential in *Ascaris* muscle. **288**, 263, 1979

**Atrial receptor**
Effect of graded vagal cooling on the myelinated nerve response to atrial receptor stimulation in the dog. **290**, 12*P*, 1979
The response of renal nerve inhibition to stimulation of atrial receptors during changes in carotid sinus pressure in the dog. **290**, 32*P*, 1979
Diuresis from left atrial receptors: effect of plasma on the secretion of the Malpighian tubules of *Rhodnius prolixus*. **291**, 381, 1979
The nature of the atrial receptors responsible for a reflex increase in heart rate in the dog. **291**, 393, 1979
Does the renal humoral response to stimulation of atrial receptors include a natriuresis? **291**, 43*P*, 1979

**Atropine**
Effects of atropine on secretion and motility in isolated gastric mucosa and attached muscularis externa from ferret and cat. **292**, 351, 1979

**Auditory cortex**
Auditory cortical lesions and the precedence effect in a four-choice situation. **289**, 81*P*, 1979

**Auditory evoked potential**
Responses evoked by frequency-modulated sounds recorded from the human scalp. **296**, 21*P*, 1979

**Autonomic ganglion**
Reflex pathways in the abdominal prevertebral ganglia: evidence for a colo-colonic inhibitory reflex. **295**, 21, 1979

**Autonomic reflex**
Neural mechanisms of reflex facilitation and inhibition of gastric motility to stimulation of various skin areas in rats. **294**, 407, 1979

**Axon**
Impedance measurement as an indication of membrane thickness change in the squid giant axon. **287**, 2*P*, 1979
Some effects of *n*-pentane on the capacity and ionic currents of the squid giant axon membrane. **287**, 38*P*, 1979
Calcium channels in the high resistivity axonal membrane of photoreceptors of the giant barnacle. **294**, 433, 1979
Differential conduction block in branches of a bifurcating axon. **295**, 283, 1979
Ionic mechanisms involved in differential conduction of action potentials at high frequency in a branching axon. **295**, 307, 1979

**Axonal transport**
Comparison of the temperature dependence of rapid axonal transport and microtubules in nerves of the rabbit and bullfrog. **287**, 303, 1979
On the kinetics and maximal capacity of the system for rapid axonal transport in mammalian neurones. **292**, 325, 1979
Intra-axonal diffusion of [$^3$H]acetylcholine and [$^3$H]γ-aminobutyric acid in a neurone of *Aplysia*. **295**, 397, 1979

**Axotomy**
Axotomy of an insect motoneurone induces supersensitivity to acetylcholine. **290**, 41*P*, 1979
Changes in motoneurone electrical properties following axotomy. **293**, 197, 1979
The effects of post-ganglionic axonomy on selective synaptic connexions in the superior cervical ganglion of the guinea-pig. **297**, 95, 1979

**Barbiturate**
Pentobarbitone affects post-synaptic inhibition by presynaptic mechanisms. **287**, 27*P*, 1979

**Barnacle**
Extracellular space and diffusion barriers in muscle fibres from *Magabalanus psittacus* (Darwin). **288**, 301, 1979
On the role of extracellular calcium in triggering contraction in muscle fibres from barnacle under membrane potential control **288**, 313, 1979
Stimulation by cyclic GMP of sodium efflux in barnacle muscle fibres. **293**, 135, 1979
Calcium carrying system in the giant muscle fibre of the barnacle species, *Balanus nubilus*. **293**, 319, 1979
Light induced changes of internal pH in a barnacle photoreceptor and the effect of internal pH on the receptor potential. **297**, 73, 1979

**Baroreceptor**
Identification of aortic nerve cell bodies in the nodose ganglion of the rabbit and their central projections. **290**, 23*P*, 1979

**Baroreceptor reflex**
Carotid and cardiopulmonary baroreceptor control of splanchnic and forearm vascular resistance during venous pooling in man. **286**, 173, 1979
Inhibition of the baroreceptor reflex on stimulation in the brain stem defence centre. **288**, 549, 1979
Baroreflex sensitivity and plasma noradrenaline concentration in relation to the blood pressure during dynamic exercise in hypertension. **291**, 44*P*, 1979
The involvement of catecholamines in the central connexions of arterial baroreceptor reflexes in the rat. **292**, 42*P*, 1979
Time-course of changes in baroreflex sensitivity during the development of renovascular hypertension in rats. **296**, 27*P*, 1979
Arterial pressure and pulse interval responses to repetitive carotid baroreceptor stimuli in man. **297**, 61, 1979
Studies on the excitability of sinus nerve afferent terminals. **297**, 123, 1979

**Basement membrane**
Thickness and volume constants and ultrastructural organization of basement membrane (lens capsule) **293**, 229, 1979

**Benzamil**
Estimation of the density of sodium entry sites in frog skin epithelium from the uptake of [$^3$H]benzamil. **295**, 477, 1979

**Bicarbonate**
Electrolyte secretion by the isolated cat pancreas during replacement of extracellular bicarbonate by organic anions and chloride by inorganic anions. **286**, 563, 1979
The effects of a disulphonic stilbene on chloride and bicarbonate transport in the turtle bladder. **287**, 559, 1979
Bicarbonate exchange through the human red cell membrane determined with [$^{14}$C] bicarbonate. **294**, 521, 1979

**Bile secretion**
Effects of sodium cholate infusions on bile flow in guinea-pigs. **293**, 32*P*, 1979
**Binocular vision**
The response characteristics of an inhibitory binocular interaction in human vision. **290**, 37, 1979
**Biopsy**
A multiple biopsy gun for the study of three-dimensional metabolic geometry. **293**, 5*P*, 1979
**Bladder**
The effects of a disulphonic stilbene on chloride and bicarbonate transport in the turtle bladder. **287**, 559, 1979
**Blood flow**
The heat sensitization of polymodal nociceptors in the rabbit and its independence of the local blood flow. **287**, 493, 1979
The choice of models relating tritiated water absorption to subepithelial blood flow in rumen of sheep. **297**, 111, 1979
**Blood pressure**
The role of vasopressin in blood pressure regulation immediately following acute haemorrhage in the rat. **296**, 267, 1979
**Blood–brain barrier**
Relation of potassium transport to oxidative metabolism in isolated brain capillaries. **286**, 185, 1979
Studies of the development of brain barrier systems to lipid insoluble molecules in fetal sheep. **292**, 207, 1979
**Body fluid**
Plasma volume shifts during moderate exercise in splenectomized greyhounds. **292**, 391, 1979
**Brain**
Natural selective cooling of the human brain: evidence of its occurrence and magnitude. **286**, 255, 1979
Cerebral lysosomal enzyme levels and the immune response to infection with avirulent Semliki forest virus in *nu/nu* (athymic) and conventional mice. **293**, 29*P*, 1979
The effect of low temperature on the intracellular sodium and potassium of incubated frog brains. **293**, 72*P*, 1979
Diffusion of anions and cations in the extracellular micro-environment of the brain. **296**, 66*P*, 1979
**Brain capillary**
Relation of potassium transport to oxidative metabolism in isolated brain capillaries. **286**, 185, 1979
**Brain cortex**
Distribution of inulin, sucrose and mannitol in rat brain cortex slices following *in vivo* or *in vitro* equilibration **294**, 81, 1979
**Brain slice**
Initiation and spread of action potentials in granule cells maintained *in vitro* in slices of guinea-pig hippocampus. **289**, 375, 1979
**Brain stem**
Differential alteration by hypercapnia and hypoxia of the apneustic respiratory pattern in decerebrate cats. **287**, 467, 1979
Brain stem neurones responding to stimulation of cardiac and pulmonary branches of the vagal nerves in the cat. **290**, 9*P*, 1979
The brain stem locations of cell bodies of vagal efferent fibres in cardiac and pulmonary branches in the cat. **290**, 42*P*, 1979
Studies on the excitability of sinus nerve afferent terminals. **297**, 123, 1979
**Breathing**
Dependence of phrenic motoneurone output on the oscillatory component of arterial blood gas composition. **290**, 163, 1979
The effects of intrapulmonary carbon dioxide and airway pressure on phrenic activity in the dog. **292**, 13*P*, 1979
**Breathing pattern**
Differential alteration by hypercapnia and hypoxia of the apneustic respiratory pattern in decerebrate cats. **287**, 467, 1979
The complementary action of peripheral chemoreceptors and pulmonary stretch receptors. **292**, 82*P*, 1979
The effects of hypercapnia, hypoxia, exercise and anxiety on the pattern of breathing in man. **293**, 285, 1979
**Bronchoconstriction**
The effects of histamine, acetylcholine and 5-hydroxytryptamine on lung mechanics and irritant receptors in the dog. **287**, 393, 1979
Assessment of the pulmonary origin of bronchoconstrictor vagal tone. **291**, 305, 1979
**Bronchus**
Adrenergic stimulation of mucus secretion in the human bronchus. **296**, 44*P*, 1979
**Brush border**
Sodium transport in the hen lower intestine. Induction of sodium sites in the brush border by a low sodium diet. **288**, 449, 1979
**Bungarotoxin**
*a*-Bungarotoxin blocks excitatory post-synaptic potentials in an identified insect interneurone. **295**, 63*P*, 1979
**Cadmium**
Cadmium toxicity in rat connective tissues using ion-exchange resin beads. **290**, 35*P*, 1979
**Caerulein**
Pancreatic acinar cells: effects of microionophoretic polypeptide application on membrane potential and resistance. **290**, 305, 1979
**Caesium**
The reversible replacement of internal potassium by caesium in isolated turtle heart. **293**, 525, 1979
**Caffeine**
Caffeine and tetracaine abolish the slow inward calcium current in sheep cardiac Purkinje fibres. **293**, 76*P*, 1979
**Calcium**
The depolarizing afterpotential of crab muscle fibres. A sodium-dependent process mediated by intracellular calcium. **286**, 317, 1979
Catecholamine secretion in a rat pheochromocytoma cell line: two pathways for calcium entry. **286**, 541, 1979
On the role of extracellular calcium in triggering contraction in muscle fibres from barnacle under membrane potential control **288**, 313, 1979

**Calcium** (*cont.*)
Dependence of *p*-aminohippurate transport on calcium in canine renal cortical slices. **288**, 425, 1979
The effects of calcium on outward membrane currents in the cardiac Purkinje fibre. **289**, 347, 1979
The measurement of ionized calcium concentration in chicken plasma during eggshell formation and in paired samples of fetal and maternal ovine plasma. **290**, 1*P*, 1979
Relationship between calcium release and potassium release in rat parotid gland. **291**, 457, 1979
Sarcomere length–tension relations of frog skinned muscle fibres during calcium activation at short lengths. **292**, 177, 1979
Influence of potassium, sodium, perfusion pressure, and isoprenaline on renin release induced by acute calcium deprivation. **292**, 363, 1979
An electrode system for plotting ionized plasma calcium and pH. **293**, 13*P*, 1979
The effects of calcium deprivation upon mechanical and electrophysiological parameters in skeletal muscle fibres of the frog. **296**, 411, 1979
A method for investigating the role of calcium in the shape change, aggregation and serotonin release of rat platelets. **297**, 289, 1979
Light adaptation in toad rods: requirement for an internal messenger which is not calcium. **297**, 493, 1979
An electrophysiological analysis of the actions of prostaglandin on neuromuscular transmission in the guinea-pig vas deferens. **297**, 521, 1979

**Calcium action potential**
Calcium-dependent potentials in the mammalian sympathetic neurone. **290**, 507, 1979
The calcium action potential and a prolonged calcium dependent after-hyperpolarization in mouse neuroblastoma cells. **292**, 297, 1979
The calcium current and the activation of a slow potassium conductance in voltage-clamped mouse neuroblastoma cells. **292**, 307, 1979

**Calcium channel**
Calcium channels in the high resistivity axonal membrane of photoreceptors of the giant barnacle. **294**, 433, 1979
Voltage sensitive calcium channels in frog spinal motoneurones. **295**, 81*P*, 1979

**Calcium current**
Calcium current in molluscan neurones: measurement under conditions which maximize its visibility. **286**, 41, 1979
Mechanism of frequency-dependent broadening of molluscan neurone soma spikes. **291**, 531, 1979
Facilitation of slow inward current in frog atrium. **292**, 74*P*, 1979
Calcium carrying system in the giant muscle fibre of the barnacle species, *Balanus nubilus*. **293**, 319, 1979

**Calcium excretion**
Renal calcium and magnesium excretion during vasopressin administration into sheep with acid or alkaline urine. **294**, 223, 1979

**Calcium flux**
Sodium and calcium fluxes in a clonal nerve cell line. **286**, 525, 1979

**Calcium permeability**
The relation between net calcium, alkali cation and chloride movements in red cells exposed to salicylate. **287**, 15, 1979
Contribution of calcium and potassium permeability changes to the off response of scallop hyperpolarizing photoreceptors. **291**, 207, 1979

**Calcium transport**
The effect of hyperosmolarity and insulin on resting tension and calcium fluxes in rat soleus muscle. **292**, 505, 1979

**Calorimeter**
An automated long-term calorimeter for rats. **290**, 15*P*, 1979

**Capillary**
The effect of albumin on the labelling of endothelial cell vesicles with ferritin in the frog. **289**, 72*P*, 1979
Effects of endurance training on muscle fibre ATP-ase activity, capillary supply and mitochondrial content in man. **294**, 419, 1979

**Capillary permeability**
The importance of flow pulsatility for the rate of transvascular fluid filtration in lungs. **290**, 569, 1979
Capillary permeability–surface area products in the isolated, perfused rabbit heart. **291**, 7*P*, 1979
*In vivo* measurement of lung capillary wall reflexion coefficients to small hydrophilic molecules in the dog. **291**, 37*P*, 1979
Extreme rarity of transendothelial channels in the frog mesenteric capillary. **291**, 38*P*, 1979
The effects of Ficoll 70 and bovine serum albumin on the permeability properties of individually perfused frog mesenteric capillaries. **291**, 39*P*, 1979
The sequence of labelling of endothelial cell vesicles with ferritin in the frog. **292**, 61*P*, 1979
The labelling of vesicles in frog endothelial cells with ferritin. **296**, 97, 1979
Permeability of the fenestrated capillaries in the cat submandibular gland to lipid-insoluble molecules. **297**, 335, 1979
Transcapillary exchange in the cat salivary gland during secretion, bradykinin infusion and after chronic duct ligation. **297**, 355, 1979

**Carbachol**
Intracellular sodium and carbachol contractions in the guinea-pig taenia coli. **295**, 60*P*, 1979

**Carbon dioxide**
The effect of carbon dioxide upon myocardial contractile performance, blood flow and oxygen consumption. **287**, 149, 1979
Carbon dioxide decreases the intracellular potassium activity in frog muscle. **287**, 11*P*, 1979
The partial pressure of carbon dioxide in alveolar gas during expiration and the rate of carbon dioxide production in man. **289**, 69*P*, 1979
Assessment of a single-breath method for determining carbon dioxide tensions in mixed venous and arterial blood in the dog. **290**, 52*P*, 1979
Pancreatic acinar cells: the effect of carbon dioxide, ammonium chloride and acetylcholine on intercellular communication. **291**, 317, 1979
The effect of carbon dioxide on the tonic and the rhythmic discharges of expiratory bulbospinal neurones. **296**, 291, 1979

**Carbon dioxide** (*cont.*)
Changes in carbon dioxide and pH in pulmonary post-capillary blood in cats. **296**, 23*P*, 1979
**Carbonic anhydrase**
Carbonic anhydrase in medulla oblongata of the cat. **289**, 40*P*, 1979
Pulmonary capillary luminal surface carbonic anhydrase. **293**, 25*P*, 1979
**Cardiac action potential**
A simple device for simultaneously monitoring monophasic action potentials from epicardium and endocardium in the intact ventricle of the pig. **289**, 12*P*, 1979
Simultaneous recording of atrial and ventricular epicardial action potentials from the isolated rat heart. **291**, 2*P*, 1979
Optical probes of membrane potential in heart muscle. **292**, 267, 1979
**Cardiac arrhythmia**
A technique for quantitation of cardiac arrhythmias. **293**, 2*P*, 1979
**Cardiac atrial muscle**
Inhibition of the ACh-induced extracurrent on atrial fibres of *Rana esculenta* by atropine and tetraethylammonium chloride. **289**, 85*P*, 1979
Electromechanical noise in atrial muscle cells of the carp: a possible ionic feed-back mechanism. With an Appendix by B. Gavish & Y. Lass. **290**, 387, 1979
Inactivation and recovery from inactivation of sodium current in frog atrial fibres at different extracellular potassium concentrations. **292**, 75*P*, 1979
The voltage dependence of the slow inward current staircase in frog atrium. **296**, 78*P*, 1979
On the time course of extracellular ion concentration changes in frog atrium. **296**, 80*P*, 1979
**Cardiac function**
Effects of inosine on myocardial performance and metabolism in normoxia and hypoxia. **289**, 64*P*, 1979
How does a change in heart rate affect pump function of the left heart? **289**, 89*P*, 1979
**Cardiac muscle**
Extracellular potassium accumulation in voltage-clamped frog ventricular muscle. **286**, 83, 1979
Potassium currents in frog ventricular muscle: evidence from voltage clamp currents and extracellular potassium accumulation. **286**, 113, 1979
The measurement and dynamic implications of thin filament lengths in heart muscle. **286**, 607, 1979
The effect of carbon dioxide upon myocardial contractile performance, blood flow and oxygen consumption. **287**, 149, 1979
Perinatal modification of the surface area of myocardial cell; its implication in the relaxation of contraction in the frog and rabbit. **289**, 30*P*, 1979
Preferential uptake of lactate by normal myocardium. **289**, 89*P*, 1979
Analysis of the optimum contractile response of the intact dog heart. **289**, 90*P*, 1979
Length-dependence of the sensitivity of the contractile system to calcium in rat ventricular muscle. **290**, 30*P*, 1979
Inotropic and arrhythmogenic effects of potassium depleted solutions on mammalian cardiac muscle. **294**, 255, 1979
The role of the sodium pump in the effects of potassium-depleted solutions on mammalian cardiac muscle. **294**, 279, 1979
A cellular basis for lidocaine's anti-arrhythmic action. **295**, 25*P*, 1979
Low-potassium or ouabain inotropy in cardiac muscle. **295**, 52*P*, 1979
Does sodium pump inhibition produce the positive inotropic effects of strophanthidin in mammalian cardiac muscle? **296**, 75*P*, 1979
The interaction of ouabain and salicylate on sheep cardiac muscle. **297**, 187, 1979
**Cardiac output**
Changes in cardiac output and other flow variables during everyday life. **289**, 26*P*, 1979
Estimation of cardiac output in man by a single breath method. **290**, 7*P*, 1979
**Cardiac pacemaker**
Adenosine receptors in frog sinus venosus: slow inhibitory potentials produced by adenine compounds and acetylcholine. **293**, 23, 1979
Measurement and significance of the reversal potential for the pace-maker current ($i_{K_2}$) in sheep Purkinje fibres. With an Appendix by D. DiFrancesco & D. Noble. **297**, 135, 1979
**Cardiac Purkinje fibre**
Calcium-activated transient outward current in cardiac Purkinje fibres. **287**, 36*P*, 1979
The effects of calcium on outward membrane currents in the cardiac Purkinje fibre. **289**, 347, 1979
Arrhythmogenic effects of sodium palmitate on canine subendocardial Purkinje fibres as evidenced by recording transmembrane action potentials. **289**, 31*P*, 1979
Three-micro-electrode voltage clamp experiments in calf cardiac Purkinje fibres: is slow inward current adequately measured? **290**, 201, 1979
Electrical properties associated with wide intercellular clefts in rabbit Purkinje fibres. **290**, 227, 1979
Non-passive chloride distribution in mammalian heart muscle: micro-electrode measurement of the intracellular chloride activity. **295**, 83, 1979
Regulation of chloride in quiescent sheep-heart Purkinje fibres studied using intracellular chloride and pH-sensitive micro-electrodes. **295**, 111, 1979
Rectifier properties of the potassium efflux in voltage clamped Purkinje fibres. **295**, 82*P*, 1979
Voltage-clamp studies on the canine Purkinje fibre. **296**, 72*P*, 1979
Adverse effects of monopalmitoyl phosphatidylcholine on canine Purkinje fibres. **296**, 79*P*, 1979
Measurement and significance of the reversal potential for the pace-maker current ($i_{K_2}$) in sheep Purkinje fibres. With an Appendix by D. DiFrancesco & D. Noble. **297**, 135, 1979
Action of salicylate ions on the electrical properties of sheep cardiac Purkinje fibres. **297**, 163, 1979
**Cardiac receptor**
Receptive field of ventricular receptors with fibres in the sympathetic rami communicantes of the dog. **290**, 43*P*, 1979

**Cardiac receptor** (*cont.*)
Afferent sympathetic unmyelinated fibres with left ventricular endings in cats. **292**, 135, 1979
**Cardiac ventricle**
The haemodynamic evaluation of induced right ventricular hypertrophy in closed and open-chest anaesthetized pigs. **289**, 67*P*, 1979
Electrophysiological differences between apex and base in intact pig ventricle. **292**, 62*P*, 1979
**Cardiac ventricular muscle**
Calcium transients at different muscle lengths in rat ventricular muscle. **292**, 68*P*, 1979
Electromechanical effects of pH in guinea-pig cardiac ventricular muscle. **293**, 74*P*, 1979
**Cardiopulmonary reflex**
The initiation and maintenance of bradycardia in a diving mammal, the muskrat, *Ondatra zibethica*. **290**, 253, 1979
**Cardio-respiratory reflex**
Interactions of cardio-respiratory reflexes elicited from the carotid bodies and upper airways receptors in the conscious rabbit. **291**, 34*P*, 1979
**Cardiovascular function**
Factors affecting cardiac frequency during self paced walking: body composition, age, sex and habitual activity. **291**, 46*P*, 1979
Effect of intraventricular injection of transmitter substances and temperature on autonomic functions of conscious sheep. **294**, 239, 1979
**Cardiovascular system**
Cardiovascular and antidiuretic effects of central prostaglandin $E_2$. **288**, 159, 1979
**Carotid body chemoreceptor**
Left ventricular inotropic responses to stimulation of carotid body chemoreceptors in anaesthetized dogs. **287**, 455, 1979
The effects of acetylcholine and dopamine on carotid chemosensory activity in the rabbit. **288**, 411, 1979
An effect of oxygen upon the ultrastructure of carotid body type I cell nerve endings in the cat. **289**, 41*P*, 1979
Chronically hypoxic rat carotid bodies. **290**, 38*P*, 1979
The effects of benztropine and pargyline on the response of cat carotid chemoreceptors to sodium cyanide, acetylcholine and dopamine. **292**, 53*P*, 1979
Sinus nerve efferent activity survives suprapetrosal section. **295**, 58*P*, 1979
Autonomic nervous influences upon total flow, local flow, tissue $P_{O_2}$ and chemosensory activity of the cat carotid body. **295**, 95*P*, 1979
**Carotid rete**
Air humidity and carotid rete function in thermoregulation of the goat. **292**, 469, 1979
**Carotid sinus baroreceptor**
The measurement of arterial pressure, carotid sinus radius and baroreflex sensitivity in the conscious greyhound. **292**, 65*P*, 1979
Carotid baroreceptors and the hind-limb vascular capacitance. **293**, 21*P*, 1979
Inhibition by angiotensin II of baroreceptor-evoked activity in cardiac vagal efferent nerves in the dog. **294**, 69, 1979
Arterial pressure and pulse interval responses to repetitive carotid baroreceptor stimuli in man. **297**, 61, 1979
**Catecholamine**
Catecholamine secretion in a rat pheochromocytoma cell line: two pathways for calcium entry. **286**, 541, 1979
Relation between catecholamine-induced cyclic AMP changes and hyperpolarization in isolated rat sympathetic ganglia. **290**, 441, 1979
Catecholaminergic $\alpha$-receptors and shivering in the rat. **292**, 27, 1979
The action acetylcholine and catecholamines on an intracellular calcium store in the smooth muscle cells of the guinea-pig taenia coli. **294**, 51, 1979
Open-circuit sodium and chloride fluxes across isolated opercular epithelia from the teleost *Fundulus heteroclitus*. **294**, 483, 1979
Effects of acetylcholine and catecholamines on the smooth muscle cell on the porcine coronary artery. **294**, 595, 1979
**Cation**
Effects of permeant monovalent cations on end-plate channels. **288**, 509, 1979
**Cation transport**
Cation transport across the guinea-pig placenta perfused *in situ*. **287**, 45, 1979
**Cell culture**
Dog kidney cell monolayers can display properties similar to high-resistance epithelia. **289**, 33*P*, 1979
Electrophysiology and pharmacology of striated muscle fibres cultured from dissociated neonatal rat pineal glands. **293**, 1, 1979
**Cell to cell coupling**
Pancreatic acinar cells: the effect of carbon dioxide, ammonium chloride and acetylcholine on intercellular communication. **291**, 317, 1979
**Cell volume**
The influence of chloride ions on renal outer medullary cell volume. **293**, 485, 1979
Extracellular to intracellular sodium gradient and control of cellular volume in perfused liver. **295**, 26*P*, 1979
Anion exchange and volume regulation during metabolic blockade of renal cortical slices. **297**, 387, 1979
**Central blood flow**
An estimation of intracranial blood flow in the new-born infant. **289**, 329, 1979
**Cephalopod**
Aminergic fluorescence in the cephalopod 'cerebellum'. **287**, 7*P*, 1979
An analysis of the wave forms of photoreceptor potentials in the retina of the cephalopod *Sepiola atlantica*. **288**, 171, 1979
**Cerebellar flocculus**
The role of the flocculus of the monkey in saccadic eye movements. **294**, 317, 1979
The role of the flocculus of the monkey in fixation and smooth pursuit eye movements. **294**, 335, 1979
Processing of eye movement signals in the flocculus of the monkey. **294**, 349, 1979
**Cerebellar nuclei**
Discharges of intracerebellar nuclear cells in monkeys. **297**, 559, 1979

**Cerebellar Purkinje cell**
Activity patterns of cerebellar cortical neurones and climbing fibre afferents in the awake cat. **289**, 425, 1979
Effects of depleting cerebellar noradrenaline on Purkinje cell activity in rats. **290**, 25*P*, 1979
Discharge patterns of Purkinje cells in cats anaesthetized with *a*-chloralose. **291**, 315, 1979
The role of the flocculus of the monkey in saccadic eye movements. **294**, 317, 1979
The role of the flocculus of the monkey in fixation and smooth pursuit eye movements. **294**, 335, 1979

**Cerebellum**
Mossy and climbing fibre mediated responses evoked in the cerebellar cortex of the cat by trigeminal afferent stimulation. **287**, 1, 1979
Functional relationships between the hippocampus and the cerebellum: an electrophysiological study of the cat. **287**, 405, 1979
An acute preparation for the study of cerebellar activity during movement in dogfish. **287**, 3*P*, 1979
Reciprocal transplantations between the optic tectum and the cerebellum in adult goldfish. **288**, 211, 1979
Responses of neurones in nucleus interpositus of the cerebellum to cutaneous nerve volleys in the awake cat. **289**, 403, 1979
Activity patterns of cerebellar cortical neurones and climbing fibre afferents in the awake cat. **289**, 425, 1979
Distribution of climbing fibres on cerebellar Purkinje cells in X-irradiated rats. An electrophysiological study. **290**, 97, 1979
Discharge patterns of Purkinje cells in cats anaesthetized with *a*-chloralose. **291**, 351, 1979
Quantitative relationship between simple spike firing pattern and evoked complex spikes of cerebellar Purkinje cells after acute chemical destruction of the inferior olive. **295**, 62*P*, 1979

**Cerebral blood flow**
Cerebral blood flow and metabolism during hypoglycaemia in the calf. **289**, 46*P*, 1979
Measurement of local brain blood flow by hydrogen washout in the conscious rat. **291**, 1*P*, 1979
Cerebral blood flow and oxygen metabolism in the rat. **291**, 6*P*, 1979
Adaptive changes in cerebral metabolism and blood flow reflecting development tolerance to ethanol intoxication. **291**, 62*P*, 1979
Effect of adenosine triphosphate and some derivatives on cerebral blood flow and metabolism. **296**, 343, 1979
The effect of feeding on cerebral blood flow and oxygen consumption in the new-born calf. **296**, 54*P*, 1979

**Cerebral cortex**
Prolonged changes in excitability of pyramidal tract neurones in the cat: a post-synaptic mechanism. **286**, 457, 1979
Long-term changes in primary afferent reflex actions after partial cortical ablation in cats. **289**, 56*P*, 1979
Noradrenergic modulation of neuronal transmission between the entorhinal cortex and the dentate gyrus of the rat. **292**, 52*P*, 1979
An interneurone making synapses specifically on the axon initial segment of pyramidal cells in the cerebral cortex of the cat. **296**, 18*P*, 1979

**Cerebral ventricle**
Hormones, feeding and temperature in sheep following cerebroventricular injections of neurotransmitters and carbachol. **290**, 399, 1979

**Cerebrospinal fluid**
Studies of the development of brain barrier systems to lipid insoluble molecules in fetal sheep. **292**, 207, 1979
Route for cerebrospinal fluid flow out of the cerebral ventricles in amphibians. **293**, 8*P*, 1979
Correction of cerebrospinal fluid $HCO_3^-$ after its experimental increase: role of central carbonic anhydrase. **295**, 71*P*, 1979
The concentrations of amine metabolites in cerebrospinal fluid from normal and narcoleptic dogs. **296**, 94*P*, 1979

**Chemoreceptor**
Differential alteration by hypercapnia and hypoxia of the apneustic respiratory pattern in decerebrate cats. **287**, 467, 1979
Dependence of phrenic motoneurone output on the oscillatory component of arterial blood gas composition. **290**, 163, 1979

**Chick**
A method for recording unit activity from the brain of the freely moving chick. **295**, 8*P*, 1979

**Chloride**
Electrolyte secretion by the isolated cat pancreas during replacement of extracellular bicarbonate by organic anions and chloride by inorganic anions. **286**, 563, 1979
The influence of chloride ions on renal outer medullary cell volume. **293**, 485, 1979
Regulation of chloride in quiescent sheep-heart Purkinje fibres studied using intracellular chloride and pH-sensitive micro-electrodes. **295**, 111, 1979

**Chloride activity**
Non-passive chloride distribution in mammalian heart muscle: micro-electrode measurement of the intracellular chloride activity. **295**, 83, 1979

**Chloride conductance**
The influence of chloride on membrane parameters in developing chick skeletal muscle fibres in culture. **289**, 48*P*, 1979
Membrane potential, chloride exchange, and chloride conductance in Ehrlich mouse ascites tumour cells. **296**, 61, 1979

**Chloride flux**
The effects of a disulphonic stilbene on chloride and bicarbonate transport in the turtle bladder. **287**, 559, 1979
Open-circuit sodium and chloride fluxes across isolated opercular epithelia from the teleost *Fundulus heteroclitus*. **294**, 483, 1979
Membrane potential, chloride exchange, and chloride conductance in Ehrlich mouse ascites tumour cells. **296**, 61, 1979

**Cholecystokinin**
Excitation of CA1 pyramidal neurones of the hippocampus by the tetra- and octapeptide C-terminal fragments of cholecystokinin. **295**, 61*P*, 1979
**Cholecystokinin-pancreozymin**
Cold acclimation in the secretory responses of the isolated exocrine pancreas of the rat. **293**, 447, 1979
**Choleragen**
The effects of theophylline and choleragen on sodium and chloride ion movements within isolated rabbit ileum. **290**, 331, 1979
**Cholinesterase**
Neural control of skeletal muscle cholinesterase: a study using organ-cultured rat muscle. **289**, 501, 1979
Inhibitory effects of cholinergic agents on the release of transmitter at the frog neuromuscular junction. **294**, 91, 1979
**Choroid plexus**
The effect of phloridzin, phloretin and theophylline on the transport of sugars by the choroid plexus. **287**, 35*P*, 1979
The effect of vascular perfusion of the choroid plexus on the secretion of cerebrospinal fluid. **293**, 18*P*, 1979
**Cilium**
Ionic conductances of membranes in ciliated and deciliated *Paramecium*. **296**, 49, 1979
**Cimetidine**
Endogenous prostaglandins and stimulated gastric secretion in the cat: the effect of various secretory inhibitors. **291**, 1, 1979
Effect of cimetidine on testosterone-induced growth and ornithine decarboxylase activity in mouse kidney. **296**, 59*P*, 1979
**Circadian rhythm**
The effects of times of meals and sleep on circadian rhythms. **290**, 18*P*, 1979
**Circulation**
Investigation of circulation model design for clinical application. **293**, 6*P*, 1979
**Climbing fibre**
Activity patterns of cerebellar cortical neurones and climbing fibre afferents in the awake cat. **289**, 425, 1979
Distribution of climbing fibres on cerebellar Purkinje cells in X-irradiated rats. An electrophysiological study. **290**, 97, 1979
**Cochlea**
The nature of the negative endocochlear potentials produced by anoxia and ethacrynic acid in the rat and guinea-pig. **293**, 329, 1979
**Cochlear hair cell**
Reversal of hair cell responses by current. **295**, 66*P*, 1979
**Cold**
The effect of dopamine on shivering in the rat. **288**, 393, 1979
Cold tolerance in long-distance swimmers. **290**, 48*P*, 1979
Cold acclimation in the secretory responses of the isolated exocrine pancreas of the rat. **293**, 447, 1979
Responses of old and young men to cold exposure. **293**, 78*P*, 1979
**Cold exposure**
Catecholaminergic *a*-receptors and shivering in the rat. **292**, 27, 1979
**Collagen**
Thickness and volume constants and ultrastructural organization of basement membrane (lens capsule) **293**, 229, 1979
**Colon**
Different mechanisms for neutral amino acid uptake by new-born pig colon. **286**, 479, 1979
The central control of the lumbar sympathetic pathway to the large intestine of the cat. **289**, 449, 1979
Inhibition of external pancreatic secretion by intracolonic and intraileal infusions in the cat. **292**, 445, 1979
Post-natal development of amiloride sensitive sodium transport in pig distal colon. **292**, 481, 1979
Aldosterone induced changes in colonic sodium transport occurring naturally during development in the neonatal pig. **292**, 495, 1979
Reflex pathways in the abdominal prevertebral ganglia: evidence for a colo-colonic inhibitory reflex. **295**, 21, 1979
Inter-relationship of sodium, chloride, bicarbonate and acetate transport by the colon of the pig. **295**, 365, 1979
Epithelial transport pathways of rat colon determined *in vivo* by impulse response analysis. **296**, 471, 1979
**Colour vision**
Lack of uniformity in colour matching. **288**, 85, 1979
The violet-sensitive receptors of primate retinae. **292**, 31*P*, 1979
Temporal responses of achromatic and colour systems. **295**, 29*P*, 1979
**Computing**
Real-time computing in the teaching laboratory – an analysis of heart rate transients. **291**, 4*P*, 1979
**Concanavalin**
A method for investigating the role of calcium in the shape change, aggregation and serotonin release of rat platelets. **297**, 289, 1979
**Conduction block**
Differential conduction block in branches of a bifurcating axon. **295**, 283, 1979
Ionic mechanisms involved in differential conduction of action potentials at high frequency in a branching axon. **295**, 307, 1979
The relationship between electrical thresholds and stimuli which cause residual conduction block in A and C fibres in the cat. **296**, 108*P*, 1979
**Conduction velocity**
Scaling factor relating conduction velocity and diameter for myelinated afferent nerve fibres in the cat hind limb. **289**, 277, 1979
**Contact placing**
Changes in forelimb trajectory during maturation of contact placing in kittens. **289**, 54*P*, 1979
**Contraction time**
Contraction time and voluntary discharge properties of individual short toe extensor motor units in man. **289**, 191, 1979

**Cornea**
Numerical solution of coupled transport equations applied to corneal hydration dynamics. **292**, 107, 1979

**Coronary artery**
Effects of acetylcholine on the smooth muscle cell of isolated main coronary artery of the guinea-pig. **293**, 119, 1979
Effects of acetylcholine and catecholamines on the smooth muscle cell on the porcine coronary artery. **294**, 595, 1979

**Coronary circulation**
The effect of carbon dioxide upon myocardial contractile performance, blood flow and oxygen consumption. **287**, 149, 1979
Effect of propranolol on myocardial oxygen balance during exercise in dogs. **295**, 41*P*, 1979

**Corpus callosum**
Interhemispheric connections between primary visual areas in adult sheep and new-born lambs. **296**, 65*P*, 1979

**Cortical evoked potential**
Gating of somatosensory evoked potentials by active and passive movements in man. **295**, 96*P*, 1979

**Corticotrophin**
The influence of corticosteroids on the secretion of corticotrophin and its hypothalamic releasing hormone. **286**, 331, 1979
Vasopressin and hypothalamo-pituitary-adrenocorticotrophic activity. **296**, 87*P*, 1979

**Corticotrophin releasing hormone**
The influence of corticosteroids on the secretion of corticotrophin and its hypothalamic releasing hormone. **286**, 331, 1979
Hypothalamic receptors influencing the secretion of corticotrophin releasing hormone in the rat. **290**, 421, 1979
The influence of some neurotransmitter substances and drugs on the secretion of corticotrophin releasing hormone by the rat hypothalamus *in vitro*. **290**, 40*P*, 1979
The effect of pretreatment with intraventricular 6-hydroxydopamine on hypothalamo-pituitary-adrenocortical function in the rat. **293**, 50*P*, 1979

**Curare**
Is there a presynaptic action of curare on chemical transmission? **287**, 29*P*, 1979
Presynaptic action of curare. **290**, 499, 1979

**Cutaneous afferent nerve fibre**
Sural nerve effects on medial gastrocnemius motoneurones in the cat. **288**, 401, 1979
Responses of neurones in nucleus interpositus of the cerebellum to cutaneous nerve volleys in the awake cat. **289**, 403, 1979
The responses of afferent fibres from the glabrous skin of the hand during voluntary finger movements in man. **291**, 233, 1979
Receptive fields of fibres in the central ends of divided dorsal roots. **292**, 429, 1979

**Cutaneous mechanoreceptor**
Detection of tactile stimuli, thresholds of afferent units related to psychophysical thresholds in the human hand. **297**, 405, 1979

**Cutaneous receptor**
Tactile sensibility in the human hand: relative and absolute densities of four types of mechanoreceptive units in glabrous skin. **286**, 283, 1979
A comparison between the discharges of human nociceptive nerve fibres and the subject's ratings of his sensations. **292**, 193, 1979
Distribution and morphology of touch cell endings in leech skin. **292**, 26*P*, 1979
The weak excitation of some cutaneous receptors in cat and rabbits by synthetic substance P. **293**, 66*P*, 1979
Lability of granular vesicles in Merkel cells of the type I slowly-adapting cutaneous receptors. **296**, 19*P*, 1979
The spread of sensitization of polymodal nociceptors in the rabbit from nearby injury and by antidromic nerve stimulation. **297**, 207, 1979

**Cyclic adenosine monophosphate (cAMP)**
Relation between catecholamine-induced cyclic AMP changes and hyperpolarization in isolated rat sympathetic ganglia. **290**, 441, 1979
Urinary excretion of cyclic 3′,5′-adenosine monophosphate as an index of parathyroid activity during the egg-laying cycle of the domestic fowl. **291**, 63*P*, 1979
Mode of stimulation by injection of cyclic AMP and external acidification of the sodium reflux in barnacle muscle fibres. **296**, 277, 1979

**Cyclic guanosine monophosphate (cGMP)**
Stimulation by cyclic GMP of sodium efflux in barnacle muscle fibres. **293**, 135, 1979
The messenger role of cyclic GMP and calcium in the exocrine pancreas. **293**, 49*P*, 1979

**Cyclic nucleotide**
Exogenous uridine 5′-triphosphate enhances contractility and stimulates 3′,5′-cyclic nucleotide metabolism in the isolated frog ventricle. **291**, 52*P*, 1979
Endogenous 3′,5′-cyclic nucleotides, calcium and the regulation of myocardial contractility: a hypothesis. **292**, 70*P*, 1979
Cyclic GMP and the permeability of the disks of the frog photoreceptors. **295**, 171, 1979
Calcium and cyclic nucleotide interaction in secretion of amylase from rat pancreas *in vitro*. **296**, 159, 1979

**Cystic fibrosis**
The chronically ligated submandibular salivary duct of the rabbit as a possible model for cystic fibrosis. **289**, 25*P*, 1979

**Dark-adaptation**
Dark-adaptation of the aspartate-isolated rod receptor potential of the frog retina: threshold measurements. **287**, 93, 1979
Dark-adaptation in frog rods: changes in the stimulus–response function. **287**, 107, 1979
Effects of dark adaptation on spatial and temporal properties of receptive fields in cat lateral geniculate nucleus. **294**, 561, 1979
Recovery of cat retinal ganglion cell sensitivity following pigment bleaching. **295**, 47, 1979
Lateral interactions in human cone dark adaptation. **296**, 125, 1979

**Dark-adaptation** (*cont.*)
After-effects of small adapting fields. **296**, 141, 1979
**Data analysis**
One-in-three command pulse selection for off-line analysis of neuronal spike data. **292**, 7*P*, 1979
**Defence reaction**
Inhibition of the baroreceptor reflex on stimulation in the brain stem defence centre. **288**, 549, 1979
**Dendrite**
Initiation and spread of action potentials in granule cells maintained *in vitro* in slices of guinea-pig hippocampus. **289**, 375, 1979
**Denervation**
Normal distribution and denervation changes of neurotransmitter related enzymes in cholinergic neurones. **286**, 233, 1979
Desensitization of glutamate receptors on innervated and denervated locust muscle fibres. **290**, 551, 1979
**Development**
Distribution of climbing fibres on cerebellar Purkinje cells in X-irradiated rats. An electrophysiological study. **290**, 97, 1979
The function of the sodium pump during differentiation of amphibian embryonic neurones. **292**, 85, 1979
Synapse formation in intact innervated cutaneous-pectoris muscles of the frog following denervation of the opposite muscle. **292**, 535, 1979
Development of spinal reflexes in the rat fetus studies *in vitro*. **294**, 581, 1979
The size of motor units during post natal development of rat lumbrical muscle. **297**, 463, 1979
**Diagonal band of Broca**
Responses in the diagnonal band of Brocha evoked by stimulation of the fornix in the cat. **292**, 233, 1979
**Diaphragm**
Voltage clamping of unparalysed cut rat diaphragm for study of transmitter release. **290**, 467, 1979
Presynaptic action of curare. **290**, 499, 1979
Rabbit diaphragm: two types of fibres determined by calcium strontium activation and protein content. **295**, 345, 1979
Asynchronous activity of the diaphragm during breathing in lambs. **296**, 22*P*, 1979
**Dipalmitoyl lecithin**
A critical assessment of the Wilhelmy method in studying lung surfactants. **295**, 217, 1979
Surface tension induced by dipalmitoyl lecithin *in vitro* under physiological conditions. **297**, 217, 1979
**Diuresis**
Diuresis from left atrial receptors: effect of plasma on the secretion of the Malpighian tubules of *Rhodnius prolixus*. **291**, 381, 1979
Urine dilution in man after drinking isotonic saline. **295**, 103*P*, 1979
**Diuretic**
Diuretic receptor or acceptor? **291**, 67*P*, 1979
**Diurnal rhythm**
Maternal posture and the diurnal rhythm of fetal movement in humans. **289**, 21*P*, 1979
**Divalent cation**
Effects of some divalent cations on synaptic transmission in frog spinal neurones. **294**, 387, 1979
**Diving**
The initiation and maintenance of bradycardia in a diving mammal, the muskrat, *Ondatra zibethica*. **290**, 253, 1979
Some aspects of calcium and collagen metabolism in men subjected to simulated dives of up to 420 metres of sea water (43 bar). **293**, 79*P*, 1979
Psychophysical studies of thermoreception during prolonged hyperbaric oxyhelium exposures. **293**, 80*P*, 1979
Insensible heat losses in man during simulated dives in helium–oxygen mixtures to a depth of 420 metres of sea water (43 bar). **295**, 39*P*, 1979
**Dopamine**
On the effect of ionophoretically applied dopamine on salivary gland cells of *Nauphoeta cinerea*. **287**, 67, 1979
On the time course of the electrical response of salivary gland cells of *Nauphoeta cinerea* to ionophoretically applied dopamine. **287**, 81, 1979
The effect of dopamine on shivering in the rat. **288**, 393, 1979
Changes in renal blood flow in the rat during renal nerve stimulation: the effects of *a*-adrenergic blockers and a dopaminergic blocker. **291**, 64*P*, 1979
Effects of dopaminergic antagonist and agonist on thermoregulation in rabbits. **293**, 217, 1979
Regulation of striatal dopamine concentration by precursor availability in the rabbit. **293**, 67*P*, 1979
Dopamine and noradrenaline levels in some peripheral tissues of several mammalian species. **296**, 99*P*, 1979
The effects of dopamine on neurones in the nucleus tractus solitarii and on the central control of blood pressure in the rat. **296**, 100*P*, 1979
**Dopamine-β-hydroxylase**
On the kinetics and maximal capacity of the system for rapid axonal transport in mammalian neurones. **292**, 325, 1979
**Dorsal column**
Segmental and supraspinal input to cells of origin of non-primary fibres in the feline dorsal columns. **290**, 185, 1979
**Dorsal column nucleus**
Descending projections from the cat's dorsal column nuclei. **296**, 43*P*, 1979
**Dorsal horn**
Plurisegmental noxious inhibitory controls on rat dorsal horn convergent neurones. **292**, 41*P*, 1979
Single cutaneous afferent fibre lamina IV spinal cord cell correlations. **295**, 68*P*, 1979
**Dorsal root ganglion**
Do glia influence neuronal responses to GABA in the rat? **289**, 58*P*, 1979
**Dorsal root potential**
Dorsal root potentials and changes in extracellular potassium in the spinal cord of the frog. **290**, 113, 1979
Dorsal root potentials and presynaptic depolarization: actions of ammonia. **296**, 98*P*, 1979

**Drinking**
The role of circulating renin in drinking in response to isoprenaline. **291**, 61, 1979
The relative importance of thermal, osmotic and hypovolaemic factors in the control of drinking in the pig. **293**, 501, 1979
Short-latency, graded drinking in response to reductions in venous return in the dog. **295**, 76*P*, 1979
Drinking behaviour in rats treated with isoprenaline, angiotensin II or angiotensin antagonists. **296**, 193, 1979

**Duodenum**
The kinetics of iron uptake *in vitro* by human duodenal mucosa: studies in normal subjects. **289**, 469, 1979
A comparison of duodenal osmolality and energy content as controlling factors of gastric emptying in the calf. **297**, 379, 1979

**Dye**
Optical probes of membrane potential in heart muscle. **292**, 267, 1979

**Electrical noise**
Electromechanical noise in atrial muscle cells of the carp: a possible ionic feed-back mechanism. With an Appendix by B. Gavish & Y. Lass. **290**, 387, 1979

**Electrode**
The resting membrane potential of frog sartorius muscle. **297**, 1, 1979

**Electroencephalogram**
Display and analysis of the electroencephalogram. **295**, 1*P*, 1979

**Electromyogram**
Diaphragmatic and oesophageal activity in regurgitation in sheep: an electromyographic study. **292**, 381, 1979
Ballistic flexion movements of the human thumb. **294**, 33, 1979

**Electronic equipment**
An automatic smoothing circuit for the input to digitizing equipment. **292**, 11*P*, 1979

**Embryogenesis**
The function of the sodium pump during differentiation of amphibian embryonic neurones. **292**, 85, 1979

**Endocochlear potential**
The nature of the negative endocochlear potentials produced by anoxia and ethacrynic acid in the rat and guinea-pig. **293**, 329, 1979

**Endorphin**
Metabolic, respiratory, vasomotor and body temperature responses to beta-endorphin and morphine in rabbits. **295**, 179, 1979

**Endothelium**
The labelling of vesicles in frog endothelial cells with ferritin. **296**, 97, 1979

**Endotoxin**
Fever induced in rabbits by intravenous injection of bovine serum albumin. **290**, 69, 1979

**End-plate**
Dual innervation of end-plate sites and its consequences for neuromuscular transmission in muscles of adult *Xenopus laevis*. **289**, 203, 1979
Location of end-plates in rat diaphragm by the use of polarizing filters. **291**, 10*P*, 1979
The relationship between end-plate size and transmitter release in normal and dystrophic muscles of the mouse. **296**, 245, 1979

**End-plate current**
Ion-concentration dependence of the reversal potential and the single channel conductance of ion channels at the frog neuromuscular junction. **286**, 417, 1979
End-plate currents and acetylcholine noise at normal and myasthenic human end-plates. **287**, 247, 1979
Dual effects of ether on end-plate currents. **287**, 353, 1979
Effects of permeant monovalent cations on end-plate channels. **288**, 509, 1979
The relationship between end-plate potential and end-plate current at the frog neuromuscular junction. **296**, 82*P*, 1979
Differential effect of perhydrohistrioicotoxin on 'intrinsic' and 'extrinsic' end-plate responses. **297**, 423, 1979

**End-plate noise**
End-plate currents and acetylcholine noise at normal and myasthenic human end-plates. **287**, 247, 1979

**Energy**
Energy expenditure of rats tube-fed at different energy levels. **290**, 17*P*, 1979

**Enkephalin**
Morphological differentiation of enkephalin-containing neurones in tissue culture. **295**, 34*P*, 1979

**Environment**
A simple apparatus for exposing a mouse to different atmospheric environments. **296**, 6*P*, 1979

**Enzyme**
Non-parallel enzyme secretion from rat pancreas *in vitro* studies. **290**, 51, 1979

**Epilepsy**
A demonstration of the influence of electrocortical synchrony on the occurrence of epileptiform spiking in the anaesthetized rat. **289**, 6*P*, 1979
Differential laminar sensitivity of rat cerebral cortex to penicillin. **289**, 59*P*, 1979

**Epithelial transport**
The Feldberg Lecture 1976. Solute transport across epithelia: what can we learn from micropuncture studies on kidney tubules? **288**, 1, 1979
Lysine transport across rat jejunum: distribution between the transcellular and the paracellular routes. **291**, 291, 1979
Epithelial transport pathways of rat colon determined *in vivo* by impulse response analysis. **296**, 471, 1979

**Epithelium**
Inadequacy of the standard unstirred layer model in accounting for osmotic water flow across epithelia. **292**, 73*P*, 1979
Intercellular spaces in chemically fixed corneal endothelia are related to solute pump activity not to solvent coupling. **294**, 627, 1979

**Ethacrynic acid**
The nature of the negative endocochlear potentials produced by anoxia and ethacrynic acid in the rat and guinea-pig. **293**, 329, 1979

**Ether**
Dual effects of ether on end-plate currents. **287**, 353, 1979

**Evoked potential**
A Chequer-board stimulus generator for visual evoked potentials. **292**, 6*P*, 1979
Characteristics of averaged evoked potentials: correction of distortions introduced by recording equipment. **292**, 8*P*, 1979

**Excitation-contraction coupling**
Effects of external calcium concentration and pH on charge movement in frog skeletal muscle. **288**, 129, 1979
Membrane potential, contractile activation and relaxation rates in voltage clamped short muscle fibres of the frog. **289**, 175, 1979
Effects of high concentrations of formamide on muscle contraction. **291**, 73*P*, 1979
The action acetylcholine and catecholamines on an intracellular calcium store in the smooth muscle cells of the guinea-pig taenia coli. **294**, 51, 1979
The effects of calcium deprivation upon mechanical and electrophysiological parameters in skeletal muscle fibres of the frog. **296**, 411, 1979

**Excitation–secretion coupling**
Catecholamine secretion in a rat pheochromocytoma cell line: two pathways for calcium entry. **286**, 541, 1979

**Exercise**
Open loop increase in trunk temperature produced by face cooling in working humans. **289**, 163, 1979
Comparison of d*P*/d*t* max and ventilation in static and dynamic arm exercise. **289**, 68*P*, 1979
The respiratory stress of playing the bagpipes. **291**, 24*P*, 1979
Plasma volume shifts during moderate exercise in splenectomized greyhounds. **292**, 391, 1979
The effects of hypercapnia, hypoxia, exercise and anxiety on the pattern of breathing in man. **293**, 285, 1979
The effects of sudden airway hypercapnia on the initiation of exercise hyperpnoea in man. **296**, 203, 1979
Changes in rodent muscle fibre types during postnatal growth, undernutrition and exercise. **296**, 453, 1979
Effect of spinal cord blockade on steady state ventilatory response to electrically induced exercise in anaesthetized dogs. **296**, 46*P*, 1979
Relative efficiency as a function of pedalling rate for racing cyclists. **296**, 49*P*, 1979

**Exocytosis**
Does exocytosis influence membrane resistance in mouse parotid acini? **292**, 81*P*, 1979
Calcium-dependent exocytosis in 'leaky' bovine adrenal medullary cells has a specific requirement for magnesium adenosine triphosphate. **295**, 89*P*, 1979
Influence of anions on exocytosis in 'leaky' bovine adrenal medullary cells. **296**, 106*P*, 1979

**Extracellular distribution**
Distribution of inulin, sucrose and mannitol in rat brain cortex slices following *in vivo* or *in vitro* equilibration. **294**, 81, 1979

**Extracellular markers**
Distribution of inulin, sucrose and mannitol in rat brain cortex slices following *in vivo* or *in vitro* equilibration. **294**, 81, 1979

**Extracellular space**
The extracellular compartments of frog skeletal muscle. With Appendix by R.T. Mathias. **288**, 45, 1979
Extracellular space of frog skeletal muscle *in vivo* and *in vitro*: relation to proton magnetic resonance relaxation times. **288**, 71, 1979
Extracellular space and diffusion barriers in muscle fibres from *Magabalanus psittacus* (Darwin). **288**, 301, 1979

**Extraocular muscle**
Electrophysical identification of two types of fibres in rat extraocular muscles. **290**, 453, 1979

**Eye**
Direct measurements of image quality in the kitten's eye. **295**, 16*P*, 1979

**Eye movement**
Vestibulo-ocular function during co-ordinated head and eye movements to acquire visual targets. **287**, 127, 1979
The role of the flocculus of the monkey in saccadic eye movements. **294**, 317, 1979
The role of the flocculus of the monkey in fixation and smooth pursuit eye movements. **294**, 335, 1979
Processing of eye movement signals in the flocculus of the monkey. **294**, 349, 1979
Eye–head co-ordination in cats. **295**, 65*P*, 1979

**Eye muscle**
Unit responses to stretch of extrinsic ocular muscles in the lateral geniculate and perigeniculate nuclei of the cat. **292**, 28*P*, 1979
Ionic basis for electrical properties of tonic fibres in rat extraocular muscles. **295**, 273, 1979
Responses in cat suprasylvian cortex (Clare Bishop Area) to stretch of extraocular muscles. **296**, 60*P*, 1979

**Fast muscle**
Electrophysical identification of two types of fibres in rat extraocular muscles. **290**, 453, 1979

**Fatigue**
Transmission and contraction fatigue of rat motor units in relation to succinate dehydrogenase activity of motor unit fibres. **288**, 285, 1979

**Feeding**
Hormones, feeding and temperature in sheep following cerebroventricular injections of neurotransmitters and carbachol. **290**, 399, 1979
Estimation of meal patterns from rates of food-directed activity. **291**, 22*P*, 1979
A digital counter for feeding activity. **291**, 23*P*, 1979

**Fetal muscle**
Electron microscope observations on the cytoplasmic organelles in the superior rectus oculi muscle of human fetuses. **293**, 14*P*, 1979

**Fetus**
Studies of the development of brain barrier systems to lipid insoluble molecules in fetal sheep. **292**, 207, 1979
Development of spinal reflexes in the rat fetus studies *in vitro*. **294**, 581, 1979

**Fetus** (*cont.*)
The comparison of continuous transcutaneous and intermittent intravascular $P_{O_2}$ measurement in fetal sheep. **295**, 72*P*, 1979
Insulin secretion in the fetal foal and mare. **295**, 77*P*, 1979
**Fever**
Effects of central administration of probenecid on fevers produced by leukocytic pyrogen and $PGE_2$ in the rabbit. **287**, 519, 1979
Central effect of taurine and its analogues on fever caused by intravenous leukocytic pyrogen in the rabbit. **287**, 535, 1979
Fever induced in rabbits by intravenous injection of bovine serum albumin. **290**, 69, 1979
Intraventricular microinjection of a stable analogue of prostaglandin endoperoxide cause fever in rabbits. **291**, 29, 1979
Evidence supporting a role for endogenous vasopressin in natural suppression of fever in the sheep. **295**, 33, 1979
Influence of sex and age on febrile responses to peripheral and central administration of pyrogens in the rabbit. **295**, 263, 1979
Protein deprivation: its effects on fever and plasma iron during bacterial infection in rabbits. **295**, 419, 1979
Hypothalamic sensitivity to leucocytic pyrogen of adult and new-born guinea-pigs. **296**, 177, 1979
**Fluid transport**
The effects of theophylline and choleragen on sodium and chloride ion movements within isolated rabbit ileum. **290**, 331, 1979
**Fluorescent dye**
Actions of a carbocyanine dye on calcium-dependent potassium transport in human red cell ghosts **288**, 481, 1979
**Formaldehyde**
A dual effect of formaldehyde on the inwardly rectifying potassium conductance in skeletal muscle. **286**, 591, 1979
**Fornix**
Responses in the diagnonal band of Brocha evoked by stimulation of the fornix in the cat. **292**, 233, 1979
Intracellular recording from neurone of the rat subfornical organ *in vitro*. **294**, 23, 1979
**Fructose**
Hepatocellular extraction and retention of fructose in conscious sheep. **293**, 31*P*, 1979
**Fusimotor neurone**
Inhibition of gamma motoneurone discharge by contraction of the homonymous muscle in the decerebrated cat. **291**, 425, 1979
Inhibition of gamma motoneurones by contraction of flexor digitorum longus and triceps surae in decerebrated, spinally transected cats. **292**, 23*P*, 1979
The morphology of four gamma motoneurones of the cat examined by horseradish peroxidase histochemistry. **292**, 25*P*, 1979
The responses of primary spindle afferents to fusimotor stimulation at constant and abruptly changing rates. **294**, 461, 1979
Reflex responses of pools of gastrocnemius lateralis $\gamma$ motoneurones elicited by ipsilateral sural nerve stimulation in the cat. **296**, 107*P*, 1979
**Galactose**
Sugar transfer from the lumen of the rat small intestine to the vascular bed. **289**, 99, 1979
**Gall-bladder**
The role of the non-cholinergic, non-adrenergic inhibitory nerves in the regulation of the guinea-pig gall-bladder. **292**, 48*P*, 1979
Gall-bladder fluid and electrolyte transport in the presence of butyrate in bicarbonate-free solutions. **293**, 70*P*, 1979
Adrenergic responses to transmural electrical stimulation of the guinea-pig gall-bladder. **296**, 83*P*, 1979
**Ganglioside**
Transmitter release: ruthenium red used to demonstrate a possible role of sialic acid containing substrates. **291**, 161, 1979
**Gastric acid secretion**
The effect of atropine on pentagastrin-induced acid secretion in the totally isolated perfused canine stomach. **289**, 49*P*, 1979
The effect of stimulation by meat on gastrins in pyloric antral mucosa of anaesthetized cats. **295**, 201, 1979
Acid responses to gastric distension in the acute rat as an index of intramural plexus activity. **295**, 21*P*, 1979
Acid secretion from the completely isolated blood perfused canine stomach. **296**, 113, 1979
Effect of inhibitors on the relationship between histamine- and insulin-stimulated gastric hydrogen ion concentration and flow in the cat. **296**, 33*P*, 1979
**Gastric emptying**
The energy content of meals as a determinant of gastric emptying. **287**, 21*P*, 1979
Gastric emptying and secretion in the calf on duodenal infusion of tryptophan, tryptamine and 5-hydroxytryptamine. **291**, 413, 1979
A comparison of duodenal osmolality and energy content as controlling factors of gastric emptying in the calf. **297**, 379, 1979
**Gastric function**
A comparison of duodenal osmolality and energy content as controlling factors of gastric emptying in the calf. **297**, 379, 1979
**Gastric motility**
Effects of atropine on secretion and motility in isolated gastric mucosa and attached muscularis externa from ferret and cat. **292**, 351, 1979
Neural mechanisms of reflex facilitation and inhibition of gastric motility to stimulation of various skin areas in rats. **294**, 407, 1979
**Gastric mucosa**
Effect of antrum exclusion on endocrine cells in rat stomach. **286**, 145, 1979
Chloride, sodium, potassium and hydrogen ion transport in isolated canine gastric mucosa. **291**, 367, 1979
The effect of histamine, metiamide and cystic fibrosis factor on the electrophysiological properties of the frog's gastric mucosa. **291**, 25*P*, 1979

**Gastric mucosa** (*cont.*)
[$^3$H]ouabain binding to bullfrog gastric mucosa *in vitro*. **295**, 85*P*, 1979
**Gastric mucosal blood flow**
Direct inhibition of gastric secretion and mucosal blood flow by arachidonic acid. **286**, 15, 1979
**Gastric mucus**
The glycoprotein from human gastric mucus gel and its breakdown by pepsin. **293**, 30*P*, 1979
**Gastric secretion**
Direct inhibition of gastric secretion and mucosal blood flow by arachidonic acid. **286**, 15, 1979
Pepsin secretion in anaesthetized cats stimulated by pentagastrin and gastrin II in the presence or absence of secretin. **289**, 1, 1979
The effect of pentagastrin on peptic secretion in man. **289**, 9, 1979
Gastric emptying and secretion in the calf on duodenal infusion of tryptophan, tryptamine and 5-hydroxytryptamine. **291**, 413, 1979
Vagal stimulation of gastric mucus in the anaesthetized rat. **291**, 8*P*, 1979
Effects of atropine on secretion and motility in isolated gastric mucosa and attached muscularis externa from ferret and cat. **292**, 351, 1979
Role of gastric antrum in gastric and intestinal phases of gastric secretion in dogs. **295**, 229, 1979
**Gastrin**
Pepsin secretion in anaesthetized cats stimulated by pentagastrin and gastrin II in the presence or absence of secretin. **289**, 1, 1979
The effect of pentagastrin on peptic secretion in man. **289**, 9, 1979
The effect of stimulation by meat on gastrins in pyloric antral mucosa of anaesthetized cats. **295**, 201, 1979
Role of gastric antrum in gastric and intestinal phases of gastric secretion in dogs. **295**, 229, 1979
Immunocytochemical identification of gastrin cells in the alimentary tract of the sheep. **295**, 19*P*, 1979
Gastric juice gastrin. **296**, 35*P*, 1979
**Gating current**
Immobilization of intramembrane charge in *Myxicola* giant axons. **286**, 157, 1979
Sodium and calcium gating currents in an *Aplysia* neurone. **291**, 467, 1979
Gating of the sodium conductance in the giant axon of the crab *Carcinus maenas*. **295**, 11*P*, 1979
The effect of calcium on the sodium gating current in the squid giant axon. **295**, 54*P*, 1979
**Gill**
Non-electrolyte permeability of trout gills: effect of temperature and adrenaline. **286**, 361, 1979
**Glial cell**
Potassium activity in photoreceptors, glial cells and extracellular space in the drone retina: changes during photostimulation **290**, 525, 1979
**Globus pallidus**
The effects of cooling globus pallidus on manual tracking in trained rhesus monkeys. **293**, 69*P*, 1979
**Glomerular filtration**
The mechanism of increased glomerular filtration rate during pregnancy in the rat. **295**, 101*P*, 1979
**Glucose**
Movements of monosaccharides between blood and tissues of vascularly perfused small intestine. **287**, 371, 1979
A simple enzymic polarographic glucose sensor. **295**, 6*P*, 1979
**Glucose transport**
Free-flow reabsorption of glucose, sodium, osmoles and water in rat proximal convoluted tubule. **288**, 331, 1979
Can glucose transport across the human erythrocyte membrane be sustained against a concentration gradient? **296**, 104*P*, 1979
**Glutamate**
The excitation of mammalian central neurones by amino acids. **286**, 29, 1979
Estimates of the threshold concentration of glutamate required to excite nerve cells. **287**, 37*P*, 1979
Single glutamate channels in locust muscle membrane. **292**, 49*P*, 1979
Glutamate and synaptic excitation of reticulospinal neurones of lamprey. **293**, 417, 1979
**Glutamate receptor**
Desensitization of glutamate receptors on innervated and denervated locust muscle fibres. **290**, 551, 1979
Plant lectins and desensitization of locust glutamate receptors. **291**, 47*P*, 1979
Agonist-dependent desensitization of glutamate receptors at locust nerve–muscle junctions. **295**, 93*P*, 1979
**Glycine**
Glycine, GABA and synaptic inhibition of reticulospinal neurones of lamprey. With an Appendix by A.R. MARTIN. **293**, 393, 1979
**Glycogen**
Motor unit organization of human medial gastrocnemius. **287**, 33, 1979
Reduced liver glycogen depletion in fasted genetically obese (Zucker ) rats. **293**, 33*P*, 1979
**Growth hormone**
Hormones, feeding and temperature in sheep following cerebroventricular injections of neurotransmitters and carbachol. **290**, 399, 1979
**Haemoglobin**
The relationship between plasma inorganic phosphate and whole blood haemoglobin concentration in normal subjects. **289**, 66*P*, 1979
**Haemorrhage**
The role of vasopressin in blood pressure regulation immediately following acute haemorrhage in the rat. **296**, 267, 1979
**Hair follicle**
Relationships between hair follicle afferent fibres and spinocervical tract neurones in the cat. **296**, 38*P*, 1979
**Hand**
The responses of afferent fibres from the glabrous skin of the hand during voluntary finger movements in man. **291**, 233, 1979
Detection of tactile stimuli, thresholds of afferent units related to psychophysical thresholds in the human hand. **297**, 405, 1979

**Head**
Vestibulo-ocular function during co-ordinated head and eye movements to acquire visual targets. **287**, 127, 1979
Reflex connexions of motoneurones of muscles involved in head movement in the cat. **289**, 311, 1979
**Heart**
The use of analogue circuits for measurement and calculation in cardiac physiology. **289**, 10*P*, 1979
The use of pressure-length loops in studies of intact left ventricle *in situ* in the dog and pig. **289**, 14*P*, 1979
Langendorff and the perfused heart. **291**, 3*P*, 1979
Passive electrical properties of heart cell reaggregates. **291**, 54*P*, 1979
The reversible replacement of internal potassium by caesium in isolated turtle heart. **293**, 525, 1979
Myocardial enzyme leakage: clearance via lymphatic and coronary routes in the isolated rat heart. **293**, 4*P*, 1979
Autonomic nervous activity and myocardial necrosis after DC shocks from cardiac defibrillators. **293**, 23*P*, 1979
**Heart rate**
The nature of the atrial receptors responsible for a reflex increase in heart rate in the dog. **291**, 393, 1979
Respiratory modulation of cardiomotor vagal activity in the dog. **291**, 50*P*, 1979
A sensitive alarm system detecting a change in the heart rate of anaesthetized and paralysed preparations in neurophysiological experiments. **293**, 7*P*, 1979
Summation of the reflex increases in heart rate from stimulation of left and right atrial receptors in the dog. **296**, 24*P*, 1979
**Heat loss**
Effects of dopaminergic antagonist and agonist on thermoregulation in rabbits. **293**, 217, 1979
**Heat sensitization**
The heat sensitization of polymodal nociceptors in the rabbit and its independence of the local blood flow. **287**, 493, 1979
**High pressure**
Reversal of the effect of urethane on the evoked somatosensory cortical response by high ambient pressure in the rat. **289**, 61*P*, 1979
**Hippocampus**
Functional relationships between the hippocampus and the cerebellum: an electrophysiological study of the cat. **287**, 405, 1979
The effect of hypoxia on evoked potentials in the *in vitro* hippocampus. **287**, 427, 1979
Initiation and spread of action potentials in granule cells maintained *in vitro* in slices of guinea-pig hippocampus. **289**, 375, 1979
**Histamine**
Effect of antrum exclusion on endocrine cells in rat stomach. **286**, 145, 1979
The effects of histamine, acetylcholine and 5-hydroxytryptamine on lung mechanics and irritant receptors in the dog. **287**, 393, 1979
The effects of histamine on the working kitten heart *in vitro*: comparison with the effects of noradrenaline. **289**, 65*P*, 1979
**Histamine receptor**
The nature of the receptor mediating stimulant effects of histamine on rapidly adapting vagal afferents in the lungs. **287**, 509, 1979
**Histamine secretion**
Activation and inhibition of calcium-dependent histamine secretion by ATP ions applied to rat mast cells. **296**, 229, 1979
**Histidine carboxylase**
Effect of antrum exclusion on endocrine cells in rat stomach. **286**, 145, 1979
**Histochemistry**
Histochemical reactions of fibres in a fast twitch muscle of the cat. **287**, 439, 1979
Histochemical localization of arginine-esterases (kininogenases) in tissues. **289**, 24*P*, 1979
A quantitative histochemical method showing that human desoxyribonucleic acid is heterogeneous with respect to the time course of hydrolysis. **292**, 35*P*, 1979
Effects of endurance training on muscle fibre ATP-ase activity, capillary supply and mitochondrial content in man. **294**, 419, 1979
**Histology**
A new technique for the rapid fixation of skeletal muscle. **289**, 8*P*, 1979
**History**
An unpublished manuscript of Francis Glisson (1662) on the relation of the Harveian circulatory theory to medicine. **293**, 34*P*, 1979
Did Helmont's 'latex' play a part in the development of our understanding of body fluids? **296**, 36*P*, 1979
**Histrionicotoxin**
Differential effect of perhydrohistrioicotoxin on 'intrinsic' and 'extrinsic' end-plate responses. **297**, 423, 1979
**DL-Homocysteic acid**
The actions of excitatory amino acids on motoneurones in the feline spinal cord. **288**, 227, 1979
**H-reflex**
Changes in recurrent inhibition during voluntary soleus contractions in man studied by an H-reflex technique. **297**, 229, 1979
**Humidity**
Air humidity and carotid rete function in thermoregulation of the goat. **292**, 469, 1979
**Hyaluronidase**
The effects of antihyaluronidases on the appearance of the intercellular spaces in renal medullary collecting duct epithelium in the rat. **289**, 16*P*, 1979
**Hydrogen ion**
A catheter tip pH electrode for use in man. **289**, 3*P*, 1979
Some effects of pH on plasma calcium in the human and cat. **289**, 38*P*, 1979
Micro-electrode measurement of skin pH in humans during ischaemia, hypoxia and local hypothermia. **291**, 339, 1979

**Hydrogen ion** (*cont.*)
The effect of chloride substitutes on $pH_i$ in crab muscle fibres. **293**, 75*P*, 1979
Intracellular pH and the distribution of weak acids and bases in isolated rat superior cervical ganglia. **297**, 597, 1979
**Hydrogen ion transport**
Chloride, sodium, potassium and hydrogen ion transport in isolated canine gastric mucosa. **291**, 367, 1979
**5-Hydroxytryptamine**
The effect of 5-hydroxytryptamine on the electrical activity of intestinal mucosa. **287**, 24*P*, 1979
Effects of oestrous cycle and exogenous ovarian steroids on 5-hydroxytryptamine metabolism in rat lung. **291**, 11, 1979
Acid secretion from the completely isolated blood perfused canine stomach. **296**, 113, 1979
**Hyperalgesia**
The spread of sensitization of polymodal nociceptors in the rabbit from nearby injury and by antidromic nerve stimulation. **297**, 207, 1979
**Hyperosmolarity**
The effect of hyperosmolarity and insulin on resting tension and calcium fluxes in rat soleus muscle. **292**, 505, 1979
**Hyperoxia**
Pulmonary vasoconstrictor response to hyperoxia? **289**, 73*P*, 1979
**Hyperpnoea**
The effects of sudden airway hypercapnia on the initiation of exercise hyperpnoea in man. **296**, 203, 1979
**Hypertension**
The action of angiotensin II on the baroreflex response of the conscious ewe and the conscious fetus. **288**, 467, 1979
**Hyperthermia**
Open loop increase in trunk temperature produced by face cooling in working humans. **289**, 163, 1979
Secretion and metabolism of cortisol and aldosterone during controlled hyperthermia. **292**, 1, 1979
**Hyperventilation**
A single estimate of mixed venous carbon dioxide tension as a retrospective test for hyperventilation. **289**, 91*P*, 1979
**Hypogastric ganglion**
Some effects of hypertonic solution on the properties of spontaneous transmitter release on the hypogastric ganglia of guinea-pigs. **290**, 11, 1979
**Hypothalamic neurone**
Variable latency antidromic responses of preoptic-anterior hypothalamic neurones in the rat. **289**, 80*P*, 1979
Hypothalamic neurones as possible target cells for pineal indoles. **291**, 49*P*, 1979
**Hypothalamus**
Facilitation of the lordosis reflex of female rats from the ventromedial nucleus of the hypothalamus. **288**, 189, 1979
Deficit in the lordosis reflex of female rats caused by lesions in the ventromedial nucleus of the hypothalamus. **288**, 203, 1979
Hypothalamic receptors influencing the secretion of corticotrophin releasing hormone in the rat. **290**, 421, 1979
Neural connexions between the medial forebrain bundle, the preoptic area and the basal hypothalamus in the rat: an electrophysiological study. **291**, 443, 1979
The relative importance of thermal, osmotic and hypovolaemic factors in the control of drinking in the pig. **293**, 501, 1979
Nasal vasoconstriction induced by electrical stimulation of the cat hypothalamus. **293**, 48*P*, 1979
Hypothalamic thermo-responsive neurones in the new-born rat. **294**, 541, 1979
Hypothalamic sensitivity to leucocytic pyrogen of adult and new-born guinea-pigs. **296**, 177, 1979
**Hypoxia**
The effect of hypoxia on evoked potentials in the *in vitro* hippocampus. **287**, 427, 1979
Left ventricular inotropic responses to stimulation of carotid body chemoreceptors in anaesthetized dogs. **287**, 455, 1979
Appearance of ATP in the coronary sinus effluent from isolated working rat heart in response to hypoxia. **295**, 50*P*, 1979
**Ibotenate**
The excitation and depression of spinal neurones by ibotenic acid. **291**, 19, 1979
**Ileum**
The contribution of prostaglandins to secretion in guinea-pig ileum. **289**, 36*P*, 1979
Fluid movements across rabbit ileum coupled to passive paracellular ion movements. **290**, 351, 1979
Electrophysiological and electron-microscopical correlations with fluid and electrolyte secretion in rabbit ileum. **290**, 367, 1979
Two-carrier influx of neutral amino acids into rabbit ileal mucosa. **292**, 339, 1979
Inhibition of external pancreatic secretion by intracolonic and intraileal infusions in the cat. **292**, 445, 1979
Pancreotone, an inhibitor of pancreatic secretion in extracts of ileal and colonic mucosa. **292**, 455, 1979
**Indomethacin**
Acid secretion from the completely isolated blood perfused canine stomach. **296**, 113, 1979
**Inflammation**
Prostaglandins and the sources of their production in a mild inflammatory lesion in sheep. **288**, 379, 1979
The anti-inflammatory effect of peptide 401 as demonstrated in the hamster cheek pouch. **289**, 7*P*, 1979
Influence of blood flow on granulocyte adhesion in venules. **289**, 76*P*, 1979
**Inhibition**
An analysis of the inhibitory post-synaptic current in the voltage-clamped crayfish muscle. **286**, 265, 1979
**Innervation**
Characteristics of the internal anal sphincter and the rectum of the vervet monkey. **286**, 383, 1979

**Innervation** (*cont.*)
Dual innervation of end-plate sites and its consequences for neuromuscular transmission in muscles of adult *Xenopus laevis*. **289**, 203, 1979
On the purpose of selective innervation of guinea-pig superior cervical ganglion cells. **292**, 69, 1979
**Inotropic effect**
Inotropic and arrhythmogenic effects of potassium depleted solutions on mammalian cardiac muscle. **294**, 255, 1979
The role of the sodium pump in the effects of potassium-depleted solutions on mammalian cardiac muscle. **294**, 279, 1979
**Inotropic response**
Left ventricular inotropic responses to stimulation of carotid body chemoreceptors in anaesthetized dogs. **287**, 455, 1979
**Insect**
Intracellular citrate or externally applied tetraethylammonium ions produce calcium-dependent action potentials in an insect motoneurone cell body. **291**, 327, 1979
**Insect muscle**
Calcium currents in insect muscle. **291**, 51*P*, 1979
The effect of magnesium-ATP concentration on the mechanical response of insect fibrillar flight muscle. **295**, 24*P*, 1979
**Insulin**
Insulin-sensitive transport of alanine across the blood–retinal barrier. **291**, 41*P*, 1979
The effect of hyperosmolarity and insulin on resting tension and calcium fluxes in rat soleus muscle. **292**, 505, 1979
Factors affecting insulin release in the sheep fetus. **293**, 51*P*, 1979
**Insulin release**
Potassium permeability activated by intracellular calcium ion concentration in the pancreatic $\beta$-cell. **288**, 575, 1979
**Intercellular space**
Electrophysiological and electron-microscopical correlations with fluid and electrolyte secretion in rabbit ileum. **290**, 367, 1979
**Interpeduncular nucleus**
Neuronal responses from the rat interpeduncular nucleus *in vitro*. **292**, 9*P*, 1979
**Interpositus nucleus**
Discharge patterns of Purkinje cells in cats anaesthetized with *a*-chloralose. **291**, 351, 1979
**Intestinal absorption**
Movements of monosaccharides between blood and tissues of vascularly perfused small intestine. **287**, 371, 1979
Studies on amino acid inhibition of monosaccharide exit from anuran small intestinal epithelium. **294**, 195, 1979
**Intestinal fluid transport**
Noradrenaline as a possible mediator of the actions of angiotensin on fluid transport by rat jejunum *in vivo*. **286**, 351, 1979
**Intestinal motility**
Radiotelemetric measurement of normal human small bowel motor activity during prolonged fasting. **296**, 53*P*, 1979
**Intestinal mucosa**
The kinetics of iron uptake *in vitro* by human duodenal mucosa: studies in normal subjects. **289**, 469, 1979
**Intestinal potentials**
Propagation of electrical spiking activity along the small intestine: intrinsic versus extrinsic neural influences. **292**, 15, 1979
**Intestinal secretion**
Non-parallel enzyme secretion from rat pancreas *in vitro* studies. **290**, 51, 1979
The role of calcium in theophylline-induced intestinal secretion. **296**, 101*P*, 1979
**Intestinal transport**
The transport of the lead cation across the intestinal membrane. **286**, 343, 1979
$Cl^-$-accumulation in the plaice intestinal epithelium. **287**, 12*P*, 1979
Simple diffusion and mediated transport: their roles in influx into hamster jejunum of two amino acids and a dipeptide. **287**, 15*P*, 1979
Sodium transport in the hen lower intestine. Induction of sodium sites in the brush border by a low sodium diet. **288**, 449, 1979
Sugar transfer from the lumen of the rat small intestine to the vascular bed. **289**, 99, 1979
Unstirred water layers and the evaluation of the kinetic parameters of active transport in the small intestine *in vitro*. **289**, 45*P*, 1979
The effects of theophylline and choleragen on sodium and chloride ion movements within isolated rabbit ileum. **290**, 331, 1979
Fluid movements across rabbit ileum coupled to passive paracellular ion movements. **290**, 351, 1979
Lysine transport across rat jejunum: distribution between the transcellular and the paracellular routes. **291**, 291, 1979
Lysine transport across new-born pig intestine. **291**, 68*P*, 1979
Two-carrier influx of neutral amino acids into rabbit ileal mucosa. **292**, 339, 1979
Reversible binding and irreversible translocation: two distinct stages in sodium and solute cotransport in the small intestine. **292**, 77*P*, 1979
Inter-relationship of sodium, chloride, bicarbonate and acetate transport by the colon of the pig. **295**, 365, 1979
A kinetic study of the interactions between amino acids and monosaccharides at the intestinal brush-border membrane. **295**, 457, 1979
Epithelial transport pathways of rat colon determined *in vivo* by impulse response analysis. **296**, 471, 1979
**Intracellular calcium**
Internal effects of divalent cations on potassium permeability in molluscan neurones. **296**, 393, 1979
**Intracellular perfusion**
Effects of internal potassium and sodium on the anomalous rectification of the starfish egg as examined by internal perfusion. **292**, 251, 1979
**Intracellular pH**
Effect of propionate on intracellular and surface pH in rat soleus muscle. **295**, 22*P*, 1979

**Intracellular pH** (*cont.*)
Recovery of $pH_i$ in snail neurones exposed to high external potassium. **296**, 77*P*, 1979
Light induced changes of internal pH in a barnacle photoreceptor and the effect of internal pH on the receptor potential. **297**, 73, 1979
Intracellular pH and the distribution of weak acids and bases in isolated rat superior cervical ganglia. **297**, 597, 1979

**Ion**
Measurement of ionic exchange in organelle suspensions with ion-selective electrodes. **289**, 2*P*, 1979

**Ion channel**
Sodium and calcium fluxes in a clonal nerve cell line. **286**, 525, 1979
The actions of tubocurarine at the frog neuromuscular junction. **293**, 247, 1979
Interaction of permeant ions with channels activated by acetylcholine in *Aplysia* neurones. **297**, 9, 1979

**Ion permeability**
Fluid movements across rabbit ileum coupled to passive paracellular ion movements. **290**, 351, 1979

**Ion transport**
Ion transport in high-resistance dog-kidney cell monolayers: the effect of adenosine 5′,triphosphate. **290**, 28*P*, 1979
The mechanism of coupled transport of sodium and chloride in isolated urinary bladder of the trout. **294**, 211, 1979

**Iron**
The kinetics of iron uptake *in vitro* by human duodenal mucosa: studies in normal subjects. **289**, 469, 1979
Protein deprivation: its effects on fever and plasma iron during bacterial infection in rabbits. **295**, 419, 1979

**Ischaemia**
Micro-electrode measurement of skin pH in humans during ischaemia, hypoxia and local hypothermia. **291**, 339, 1979
An isolated, globally perfused, rat heart model of myocardial ischaemia. **293**, 3*P*, 1979

**Isoprenaline**
The role of circulating renin in drinking in response to isoprenaline. **291**, 61, 1979
Drinking behaviour in rats treated with isoprenaline, angiotensin II or angiotensin antagonists. **296**, 193, 1979

**Jejunum**
Propagation of electrical spiking activity along the small intestine: intrinsic versus extrinsic neural influences. **292**, 15, 1979

**Joint**
An investigation into the validity of subatmospheric pressure recordings from synovial fluid and their dependence on joint angle. **289**, 55, 1979
The influence of hydrostatic pressure on transsynovial fluid movement and on capsular expansion in the rabbit knee. **289**, 69, 1979
Wrist compliance. **295**, 98*P*, 1979

**Joint receptor**
Responses of muscle and joint afferents recorded from the Gasserian ganglion of rabbits. **293**, 38*P*, 1979

**Kallikrein**
Inhibition of the natriuretic and kallikrein response to angiotensin by simultaneous intra-arterial infusion of noradrenaline in dogs. **289**, 70*P*, 1979
The natriuretic actions of intraarterial acetylcholine and isoprenaline are associated with increased kallikrein excretion in the dog. **292**, 37*P*, 1979
Sustained increase in kallikrein excretion without natriuresis during volume expansion with 2·5% glucose in the dog. **295**, 102*P*, 1979
Localization of kallikrein in duct cells of submandibular gland in cat, dog, guinea-pig and man using immunocytochemical techniques. **296**, 84*P*, 1979

**Kidney**
The Feldberg Lecture 1976. Solute transport across epithelia: what can we learn from micropuncture studies on kidney tubules? **288**, 1, 1979
Dependence of *p*-aminohippurate transport on calcium in canine renal cortical slices. **288**, 425, 1979
Influence of potassium, sodium, perfusion pressure, and isoprenaline on renin release induced by acute calcium deprivation. **292**, 363, 1979
Influence of potassium, sodium, calcium, perfusion pressure, and isoprenaline on renin release induced by high concentrations of magnesium. **292**, 373, 1979
Possible mechanism of the inhibitory effect of ouabain on renin secretion from rat renal cortical slices. **294**, 123, 1979
Effect of indomethacin on renal tissue composition in conscious saline-diuretic rats. **296**, 90*P*, 1979

**Lactation**
Changes in mammary function at the onset of lactation in the goat: correlation with hormonal changes. **288**, 33, 1979
The secretion of calcium and phosphorus into milk. **290**, 59, 1979

**Lamprey**
Glutamate and synaptic excitation of reticulospinal neurones of lamprey. **293**, 417, 1979
Estimates of cable parameters in Lamprey spinal cord neurones. **297**, 299, 1979
Localization of synaptic input on dendrites of a lamprey spinal cord neurone from physiological measurements of membrane properties. **297**, 319, 1979

**Lateral geniculate nucleus**
Intracellular recordings from lateral geniculate neurones of rat and cat *in vitro*. **287**, 13*P*, 1979
Spatial and temporal properties of X and Y cells in the cat lateral geniculate nucleus. **293**, 347, 1979
The 'shrinkage' of LGN cells, amblyopia and cortical ocular dominance. **293**, 57*P*, 1979
Effects of dark adaptation on spatial and temporal properties of receptive fields in cat lateral geniculate nucleus. **294**, 561, 1979
Light adaptation of lateral geniculate nucleus cells in the cat and monkey. **295**, 31*P*, 1979

**Lateral olfactory tract**
Mono- and multi-synaptic origin of the early surface-negative wave recorded from guinea-pig olfactory cortex *in vitro*. **293**, 153, 1979

**Lead**
The transport of the lead cation across the intestinal membrane. **286**, 343, 1979

**Learning**
Seasonal variation in the learning capacity of goldfish. **289**, 62*P*, 1979
Learnt significance of stimuli in the monkey. **296**, 50*P*, 1979
**Lens**
The effect of tetraethylammonium on the impedance of the lens of the frog *Rana pipiens*. **291**, 71*P*, 1979
Thickness and volume constants and ultrastructural organization of basement membrane (lens capsule) **293**, 229, 1979
The properties of bovine lens membranes measured by a conventional double-chamber method. **295**, 241, 1979
**Light adaptation**
The effects of background illumination on the photoresponses of red and green cones. **286**, 491, 1979
Light adaptation in toad rods: requirement for an internal messenger which is not calcium. **297**, 493, 1979
**Light diffraction**
Interpretation of light diffraction by cross-striated muscle as Bragg reflexion of light by the lattice of contractile proteins. **290**, 317, 1979
**Light scattering**
Fluctuations in laser light scattered from cultured monolayers of dog kidney cells. **290**, 29*P*, 1979
***Limulus***
Isopotentiality and an optical determination of series resistance in *Limulus* ventral photoreceptors. **296**, 357, 1979
Saturation of the response to light in *Limulus* ventral photoreceptor. **296**, 373, 1979
**Lithium**
The electrogenic potential in rat C nerve fibres: some effects of lithium and thallium. **294**, 135, 1979
**Liver**
Feeding responses to intraportal propionate in sheep following denervation of the liver. **290**, 19*P*, 1979
Microvascular filling pattern in rat liver sinusoids during vagal stimulation. **295**, 191, 1979
Competition among hexoses for hepatocellular uptake in the perfused liver of rat. **295**, 18*P*, 1979
**Local anaesthesia**
Effect of thumb anaesthesia in weight perception, muscle activity and the stretch reflex in man. **294**, 303, 1979
**Locomotion**
Inhibitory interlimb interactions during locomotion in *Testudo graeca*. **292**, 21*P*, 1979
Gating of ipsi- and contralateral reflexes in unrestrained walking cats. **295**, 56*P*, 1979
**Locus coeruleus**
Serotonergic innervation of the locus coeruleus from the dorsal raphe and its action on responses to noxious stimuli. **286**, 401, 1979
Neurochemical and electrophysiological evidence for a projection from the locus coeruleus to the substantia nigra. **290**, 44*P*, 1979
**Locust**
Desensitization of glutamate receptors on innervated and denervated locust muscle fibres. **290**, 551, 1979
**Luminescence**
Luminescence in cells and vesicles isolated from the hydroid *Obelia geniculata*. **287**, 4*P*, 1979
**Lung**
Diffusional inhomogeneity: gas mixing efficiency in the new-born lung. **286**, 447, 1979
The measurement of respiratory variables in the guinea-pig using an oesophageal balloon and body plethysmograph. **287**, 9*P*, 1979
Evidence for a heat-stable blood coagulant in the alveolar lumen of the rat. **287**, 34*P*, 1979
Control of lung growth in the fetal rabbit. **289**, 66*P*, 1979
The importance of flow pulsatility for the rate of transvascular fluid filtration in lungs. **290**, 569, 1979
Effects of oestrous cycle and exogenous ovarian steroids on 5-hydroxytryptamine metabolism in rat lung. **291**, 11, 1979
Metabolism of angiotensin and bradykinin in rat isolated lungs during the oestrous cycle. **292**, 38*P*, 1979
What is the fate of exogenous prostaglandin endoperoxide, $PGH_2$, in isolated lung? **293**, 20*P*, 1979
The fate of exogenous arachidonic acid in guinea-pig isolated lung. **295**, 445, 1979
Regional distribution of pulmonary ventilation and perfusion in the conscious dog. **295**, 40*P*, 1979
**Lung afferents**
The nature of the receptor mediating stimulant effects of histamine on rapidly adapting vagal afferents in the lungs. **287**, 509, 1979
**Lung airway**
The maximum expiratory flow response to helium as an index of small airway calibre. **296**, 25*P*, 1979
**Lung mechanics**
The effects of histamine, acetylcholine and 5-hydroxytryptamine on lung mechanics and irritant receptors in the dog. **287**, 393, 1979
**Lung reflex**
The effect of bupivacaine aerosol on the activity of pulmonary stretch and 'irritant' receptors. **288**, 367, 1979
**Lung surfactant**
A critical assessment of the Wilhelmy method in studying lung surfactants. **295**, 217, 1979
**Luteolysis**
Luteolysis in the pig. **290**, 36*P*, 1979
**Lymphatic**
Noradrenaline as an excitatory neurotransmitter in bovine mesenteric lymphatics. **295**, 94*P*, 1979
**Lysine**
Lysine transport across rat jejunum: distribution between the transcellular and the paracellular routes. **291**, 291, 1979
**Magnesium**
The magnesium-dependence of sodium:potassium and sodium:sodium exchange mediated by the sodium pump in intact human red cells. **287**, 33*P*, 1979

**Magnesium** (*cont.*)
Influence of potassium, sodium, calcium, perfusion pressure, and isoprenaline on renin release induced by high concentrations of magnesium. **292**, 373, 1979
Some observations on the effects of magnesium on the isolated perfused rat mesentery. **296**, 81*P*, 1979
**Mammary gland**
Changes in mammary function at the onset of lactation in the goat: correlation with hormonal changes. **288**, 33, 1979
The secretion of calcium and phosphorus into milk. **290**, 59, 1979
**Mast cell**
Activation and inhibition of calcium-dependent histamine secretion by ATP ions applied to rat mast cells. **296**, 229, 1979
**McCollough effect**
Caffeine and the decay of the McCollough effect. **295**, 32*P*, 1979
**Mechanoreceptor**
Tactile sensibility in the human hand: relative and absolute densities of four types of mechanoreceptive units in glabrous skin. **286**, 283, 1979
Comparative ultrastructure of touch corpuscles in the rabbit and the cat. **287**, 6*P*, 1979
The sensory inflow from the carapace of the tortoise. **289**, 83*P*, 1979
**Medial forebrain bundle**
Neural connexions between the medial forebrain bundle, the preoptic area and the basal hypothalamus in the rat: an electrophysiological study. **291**, 443, 1979
**Medulla oblongata**
Graded changes in central chemoreceptor input by local temperature changes on the ventral surface of medulla. **287**, 191, 1979
**Melanocyte-stimulating hormone (MSH)**
The effect of hypothalamic lesions on immunoreactive *a*-melanocyte stimulating hormone secretion in the rat. **292**, 59, 1979
**Melatonin**
Feeding and sleeping in chickens following melatonin and triiodothyronine injections. **296**, 57*P*, 1979
**Membrane capacitance**
Charge movement and membrane capacity in frog muscle. **289**, 83, 1979
Voltage dependency of the membrane capacity in giant axons from *Loligo forbesi*. **291**, 70*P*, 1979
**Membrane charge**
Immobilization of intramembrane charge in *Myxicola* giant axons. **286**, 157, 1979
Effects of external calcium concentration and pH on charge movement in frog skeletal muscle. **288**, 129, 1979
The action of salicylate ions on the frog node of Ranvier. **295**, 69, 1979
**Membrane conductance**
Characteristics of sodium and calcium conductance changes produced by membrane depolarization in an *Aplysia* neurone. **289**, 143, 1979
Channel-forming substances and lipid bilayer membranes. **291**, 14*P*, 1979
Ionic conductances of membranes in ciliated and deciliated *Paramecium*. **296**, 49, 1979
**Membrane current**
Ionic currents in response to membrane depolarization in an *Aplysia* neurone. **289**, 115, 1979
Three-micro-electrode voltage clamp experiments in calf cardiac Purkinje fibres: is slow inward current adequately measured? **290**, 201, 1979
Electrical properties associated with wide intercellular clefts in rabbit Purkinje fibres. **290**, 227, 1979
A quantitative description of membrane currents in rabbit myelinated nerve. **292**, 149, 1979
Interaction of permeant ions with channels activated by acetylcholine in *Aplysia* neurones. **297**, 9, 1979
**Membrane excitation**
Effects of E.M.D. and hexanol on membrane excitation in squid giant axons. **295**, 84*P*, 1979
**Membrane permeability**
Inversely related behaviour of potassium and calcium permeability during activation of calcium-dependent outward currents in voltage-clamped snail neurones. **287**, 28*P*, 1979
Calcium and receptor regulation of radiosodium uptake by dispersed rat parotid acinar cells. **297**, 369, 1979
Anion exchange and volume regulation during metabolic blockade of renal cortical slices. **297**, 387, 1979
**Membrane potential**
Membrane potential, chloride exchange, and chloride conductance in Ehrlich mouse ascites tumour cells. **296**, 61, 1979
The resting membrane potential of frog sartorius muscle. **297**, 1, 1979
**Metabolism**
A preparation for the study of metabolism in the conscious, unrestrained, normal or intra-uterine growth-retarded piglet. **291**, 19*P*, 1979
Secretion and metabolism of cortisol and aldosterone during controlled hyperthermia. **292**, 1, 1979
The metabolic effects of sodium depletion in calves on salt appetite assessed by operant methods. **295**, 421, 1979
The fate of exogenous arachidonic acid in guinea-pig isolated lung. **295**, 445, 1979
**Metallochromic indicator**
Measurement of calcium influx under voltage clamp in molluscan neurones using the metallochromic dye arsenazo III. **286**, 61, 1979
**Microcirculation**
Microvascular filling pattern in rat liver sinusoids during vagal stimulation. **295**, 191, 1979
**Micro-electrode**
Pneumatically operated micro-electrode drive for use on intact unrestrained beating hearts *in situ*. **289**, 11*P*, 1979
A twin-barrelled tungsten-glass micro-electrode for extracellular recording from neurones. **290**, 8*P*, 1979
Non-passive chloride distribution in mammalian heart muscle: micro-electrode measurement of the intracellular chloride activity. **295**, 83, 1979

**Micro-electrode** (*cont.*)
Regulation of chloride in quiescent sheep-heart Purkinje fibres studied using intracellular chloride and pH-sensitive micro-electrodes. **295**, 111, 1979
A double-barrel pH micro-electrode for intracellular use. **295**, 5*P*, 1979
Miniaturized intracellular pressure injector. **296**, 4*P*, 1979

**Microtubule**
Comparison of the temperature dependence of rapid axonal transport and microtubules in nerves of the rabbit and bullfrog. **287**, 303, 1979

**Micturition**
Segmental and descending control of the external urethral and anal sphincters in the cat. **294**, 105, 1979

**Milk**
Changes in mammary function at the onset of lactation in the goat: correlation with hormonal changes. **288**, 33, 1979
The secretion of calcium and phosphorus into milk. **290**, 59, 1979

**Molluscan neurone**
Calcium current in molluscan neurones: measurement under conditions which maximize its visibility. **286**, 41, 1979
Measurement of calcium influx under voltage clamp in molluscan neurones using the metallochromic dye arsenazo III. **286**, 61, 1979
Inactivation of delayed outward current in molluscan neurone somata. **291**, 507, 1979
Internal effects of divalent cations on potassium permeability in molluscan neurones. **296**, 393, 1979
Voltage clamp analysis of acetylcholine receptor desensitization in isolated mollusc neurones. **297**, 581, 1979

**Monkey**
Discharges of intracerebellar nuclear cells in monkeys. **297**, 559, 1979

**Monoaminergic pathway**
Tetanus toxin and synaptic inhibition in the substantia nigra and striatum of the rat. **290**, 23, 1979

**Monosynaptic reflex**
Recurrent inhibition and afterhyperpolarization following motoneural discharge in the cat. **297**, 253, 1979

**Morphine**
Serotonergic innervation of the locus coeruleus from the dorsal raphe and its action on responses to noxious stimuli. **286**, 401, 1979
Evidence for depression of postsynaptic inhibition by morphine in the frog. **292**, 50*P*, 1979
Metabolic, respiratory, vasomotor and body temperature responses to beta-endorphin and morphine in rabbits. **295**, 179, 1979

**Mossy fibre**
Processing of eye movement signals in the flocculus of the monkey. **294**, 349, 1979

**Motoneurone**
Indirect estimation of e.p.s.p.s in human soleus motoneurones. **287**, 14*P*, 1979
The actions of excitatory amino acids on motoneurones in the feline spinal cord. **288**, 227, 1979
Sural nerve effects on medial gastrocnemius motoneurones in the cat. **288**, 401, 1979
Reflex connexions of motoneurones of muscles involved in head movement in the cat. **289**, 311, 1979
Dependence of motoneurone properties on the length of immobilized muscle. **291**, 179, 1979
Disuse enhances synaptic efficacy in spinal motoneurones. **291**, 191, 1979
Intracellular citrate or externally applied tetraethylammonium ions produce calcium-dependent action potentials in an insect motoneurone cell body. **291**, 327, 1979
Changes in motoneurone electrical properties following axotomy. **293**, 197, 1979
The stimulus locked interval histogram: a method that may allow investigations of Renshaw inhibition in man. **293**, 16*P*, 1979
Different behaviour of fast and slow efferents to masseter muscle in reflex movements in the cat. **293**, 44*P*, 1979
Possible evidence for synchronization amongst fusimotor neurones. **293**, 45*P*, 1979
Segmental and descending control of the external urethral and anal sphincters in the cat. **294**, 105, 1979
The use of intracellular QX222 as a tool in neurophysiological experiments on cat spinal motoneurones. **295**, 7*P*, 1979
Properties of single central Ia afferent fibres projecting to motoneurones. **296**, 315, 1979
Properties of single fibre excitatory post-synaptic potentials in triceps surae motoneurones. **296**, 329, 1979
Localization of motoneurones supplying hind limb muscles in the mouse. **296**, 37*P*, 1979
The actions and interactions of calcium antagonists and DL-homocysteate on cat spinal motoneurones. **296**, 96*P*, 1979

**Motor control**
Muscle spindle discharge in normal and obstructed movements. **287**, 57, 1979
Contraction time and voluntary discharge properties of individual short toe extensor motor units in man. **289**, 191, 1979

**Motor cortex**
The origin of the hind limb vasodilatation evoked by stimulation of the motor cortex in the cat. **287**, 545, 1979
Thalamic pathway for rapid afferent input from hand to motor cortex in the monkey. **292**, 55*P*, 1979

**Motor unit**
Motor unit organization of human medial gastrocnemius. **287**, 33, 1979
Transmission and contraction fatigue of rat motor units in relation to succinate dehydrogenase activity of motor unit fibres. **288**, 285, 1979
Contraction time and voluntary discharge properties of individual short toe extensor motor units in man. **289**, 191, 1979
Post-natal development of motor units and muscle fibres in rat lumbrical muscles. **289**, 52*P*, 1979
The effects of tenotomy upon the contraction characteristics of motor units in rabbit soleus muscle. **290**, 1, 1979

**Motor unit** (*cont.*)
The effect of digital nerve stimulation on motor unit interspike intervals recorded during voluntary contraction of first dorsal interosseous muscle in man. **292**, 16*P*, 1979
The responses of Golgi tendon organs to stimulation of different combinations of motor units. **295**, 251, 1979
Properties of motor units in mouse soleus. **295**, 90*P*, 1979
The size of motor units during post natal development of rat lumbrical muscle. **297**, 463, 1979
**Mouse**
Studies on the localization of the lesion in the Wobbler mutant mouse. **289**, 39*P*, 1979
**Movement**
Discharges of intracerebellar nuclear cells in monkey. **297**, 559, 1979
**Mucus**
The differentiation and quantitation of mucosubstances in human gastric antrum. **291**, 9*P*, 1979
**Muscimol**
The excitation and depression of spinal neurones by ibotenic acid. **291**, 19, 1979
**Muscle**
The depolarizing afterpotential of crab muscle fibres. A sodium-dependent process mediated by intracellular calcium. **286**, 317, 1979
Charge movement and membrane capacity in frog muscle. **289**, 83, 1979
A voltage-dependent gate in series with the inwardly rectifying potassium channel in frog striated muscle. **293**, 301, 1979
**Muscle afferent nerve fibre**
Field potentials and excitation of primate spinothalamic neurones in response to volleys in muscle afferents. **286**, 197, 1979
Effects of mechanical and chemical stimulation of fine muscle afferents upon primate spinothalamic tract cells. **286**, 215, 1979
Descending influences on the responses of spinocervical tract neurones to chemical stimulation of fine muscle afferents. **290**, 129, 1979
The morphology of Group II muscle afferent fibre collaterals. **296**, 39*P*, 1979
**Muscle blood flow**
The control of blood flow through human forearm muscles following brief isometric contractions. **288**, 529, 1979
**Muscle contraction**
The control of blood flow through human forearm muscles following brief isometric contractions. **288**, 529, 1979
The change in the load-sustaining ability and in the series elasticity in *Mytilus* smooth muscle during isotonic shortening. **288**, 635, 1979
Membrane potential, contractile activation and relaxation rates in voltage clamped short muscle fibres of the frog. **289**, 175, 1979
The effects of tenotomy upon the contraction characteristics of motor units in rabbit soleus muscle. **290**, 1, 1979
The staircase of fast skeletal muscle at different muscle lengths. **292**, 17*P*, 1979
The relation between maximum shortening velocity and the magnesium adenosine triphosphate concentration in frog skinned muscle fibres. **292**, 71*P*, 1979
Effects of $D_2O$ on mechanical characteristics of frog single muscle fibres. **292**, 78*P*, 1979
Activated and rigor tensions in rat papillary muscle. **292**, 79*P*, 1979
The heat produced by frog muscle in a series of contractions with shortening. **293**, 103, 1979
Hydrogen ion balance and isometric contraction tension in rat diaphragm muscle. **293**, 71*P*, 1979
**Muscle development**
Structural and functional changes in developing rat skeletal muscle induced *in vitro*. **295**, 92*P*, 1979
Changes in rodent muscle fibre types during postnatal growth, undernutrition and exercise. **296**, 453, 1979
**Muscle disuse**
The trophic influence of tetrodotoxin-inactive nerves on normal and reinnervated rat skeletal muscles. **297**, 479, 1979
**Muscle energetics**
Chemical change and energy production during contraction of frog muscle: how are their time courses related? **288**, 353, 1979
Effects of temperature on tension, tension-dependent heat, and activation heat in twitches of frog skeletal muscle. **291**, 265, 1979
Dependence of shortening heat on distance shortened in frog skeletal muscle. **292**, 76*P*, 1979
The heat produced by frog muscle in a series of contractions with shortening. **293**, 103, 1979
Chemical change, production of tension and energy following stretch of active muscle of frog. **297**, 539, 1979
**Muscle fatigue**
Change in excitation threshold as a cause of muscular fatigue. **295**, 90*P*, 1979
**Muscle fibre**
Arsenazo III signals in singly dissected frog twitch fibres. **287**, 23*P*, 1979
Extracellular space and diffusion barriers in muscle fibres from *Magabalanus psittacus* (Darwin). **288**, 301, 1979
On the role of extracellular calcium in triggering contraction in muscle fibres from barnacle under membrane potential control **288**, 313, 1979
Electrophysiology and pharmacology of striated muscle fibres cultured from dissociated neonatal rat pineal glands. **293**, 1, 1979
Rabbit diaphragm: two types of fibres determined by calcium strontium activation and protein content. **295**, 345, 1979
Mechanical properties of isolated fish red and white muscle fibres. **295**, 49*P*, 1979
Lateral filamentary spacing in frog skinned muscle fibres in the relaxed and rigor states. **295**, 80*P*, 1979
The effects of calcium deprivation upon mechanical and electrophysiological parameters in skeletal muscle fibres of the frog. **296**, 411, 1979
Changes in rodent muscle fibre types during postnatal growth, undernutrition and exercise. **296**, 453, 1979

**Muscle fibre** (*cont.*)
Effect of carbon dioxide on calcium transient and tension responses from fibres of the barnacle *Balanus nubilus*. **296**, 71*P*, 1979
**Muscle filament**
The measurement and dynamic implications of thin filament lengths in heart muscle. **286**, 607, 1979
**Muscle mechanics**
The change in the load-sustaining ability and in the series elasticity in *Mytilus* smooth muscle during isotonic shortening. **288**, 635, 1979
Periodicity in insect flight muscle stretch activation. **289**, 32*P*, 1979
The nature of the increased passive resistance in muscle following immobilization of the mouse soleus muscle. **289**, 55*P*, 1979
Apparatus for studying the mechanical properties of skinned muscle fibres. **290**, 13*P*, 1979
The velocity of unloaded shortening and its relation to sarcomere length and isometric force in vertebrate muscle fibres. **291**, 143, 1979
Sarcomere length–tension relations of frog skinned muscle fibres during calcium activation at short lengths. **292**, 177, 1979
Intersarcomere dynamics during fixed-end tetanic contractions of frog muscle fibres. **293**, 365, 1979
The effect on tension of non-uniform distribution of length changes applied to frog muscle fibres. **293**, 379, 1979
**Muscle metabolism**
Chemical change and energy production during contraction of frog muscle: how are their time courses related? **288**, 353, 1979
**Muscle receptor**
Effects of mechanical and chemical stimulation of fine muscle afferents upon primate spinothalamic tract cells. **286**, 215, 1979
**Muscle reflex**
Subject instruction and long latency reflex responses to muscle stretch. **292**, 527, 1979
**Muscle relaxation**
Membrane potential, contractile activation and relaxation rates in voltage clamped short muscle fibres of the frog. **289**, 175, 1979
**Muscle spindle**
Muscle spindle discharge in normal and obstructed movements. **287**, 57, 1979
Inhibition of gamma motoneurone discharge by contraction of the homonymous muscle in the decerebrated cat. **291**, 425, 1979
Autogenetic inhibition of motoneurones by impulses in group Ia muscle spindle afferents. **293**, 173, 1979
Sensory innervation of cat hind-limb muscle spindles. **293**, 40*P*, 1979
The responses of primary spindle afferents to fusimotor stimulation at constant and abruptly changing rates. **294**, 461, 1979
The effect of contraction in the three types of intrafusal fibre in isolated cat muscle spindles on the Ia discharge during stretch. **296**, 41*P*, 1979
Dynamic and static responses of primary and secondary spindle endings of the cat peroneus tertius muscle. **296**, 109*P*, 1979
Persistence of $p_1$ plates in cat muscle spindles after degeneration of their $\gamma$ supply. **296**, 110*P*, 1979
**Muscle spindle afferent nerve fibre**
Voluntary activation of spindle afferents in human muscles temporarily paralysed by nerve pressure. **287**, 329, 1979
The regularity of muscle spindle discharge in man. **291**, 277, 1979
Responses of human muscle spindle afferents to the sudden onset of load at the beginning of a position holding task. **293**, 43*P*, 1979
Properties of single central Ia afferent fibres projecting to motoneurones. **296**, 315, 1979
Properties of single fibre excitatory post-synaptic potentials in triceps surae motoneurones. **296**, 329, 1979
**Muscle stretch**
Subject instruction and long latency reflex responses to muscle stretch. **292**, 527, 1979
Chemical change, production of tension and energy following stretch of active muscle of frog. **297**, 539, 1979
**Muscular dystrophy**
Miniature end-plate potential frequency in mouse dystrophic muscle. **290**, 24*P*, 1979
Functional improvement of skeletal muscles of dystrophic mice following electrical stimulation. **291**, 31*P*, 1979
Amino acids in fasting dystrophic mice. **291**, 32*P*, 1979
The relationship between end-plate size and transmitter release in normal and dystrophic muscles of the mouse. **296**, 245, 1979
**Muskrat**
The initiation and maintenance of bradycardia in a diving mammal, the muskrat, *Ondatra zibethica*. **290**, 253, 1979
**Myasthenia gravis**
End-plate currents and acetylcholine noise at normal and myasthenic human end-plates. **287**, 247, 1979
**Myenteric plexus**
Active substances in Auerbach's plexus: the spasmogenic activity of partially purified, ATP-free, extracts of plexus containing longitudinal muscle. **295**, 59*P*, 1979
**Myxicola**
Immobilization of intramembrane charge in *Myxicola* giant axons. **286**, 157, 1979
**Myxoedema**
Metabolic turnover rate and transcapillary escape rate of albumin before and during treatment of myxoedema: on the pathogenesis of the oedema formation. **293**, 81*P*, 1979
**Naringenin**
Inhibition of phenylalanine influx in guinea-pig small intestine by naringenin. **289**, 44*P*, 1979
**Nasal mucosa**
The electrical potential across the ovine nasal mucosa. **293**, 34*P*, 1979
Characteristics of nasal vasoconstrictor and nictitating membrane responses induced by electrical stimulation of the cat hypothalamus. **296**, 40*P*, 1979

**Nephron**
Nephron electrolyte transport and sodium-potassium adenosine triphosphatase activity: influence of nicotine in rat and rabbit. **295**, 353, 1979
**Nerve**
Scaling factor relating conduction velocity and diameter for myelinated afferent nerve fibres in the cat hind limb. **289**, 277, 1979
**Nerve conduction**
Effects of nerve impulses on threshold of frog sciatic nerve fibres. **290**, 273, 1979
The recovery heat production in non-myelinated garfish olfactory nerve fibres. **292**, 167, 1979
Differential conduction block in branches of a bifurcating axon. **295**, 283, 1979
Ionic mechanisms involved in differential conduction of action potentials at high frequency in a branching axon. **295**, 307, 1979
A mathematical model for conduction of action potentials along bifurcating axons. **295**, 323, 1979
**Nerve fibre**
The electrogenic potential in rat C nerve fibres: some effects of lithium and thallium. **294**, 135, 1979
**Nerve fibre membrane**
The action of salicylate ions on the frog node of Ranvier. **295**, 69, 1979
**Nerve growth**
Evidence for non-selectivity of initial outgrowth of axons into the chick wing. **289**, 51*P*, 1979
**Nerve regeneration**
Selective regeneration of optic fibres from a compound eye to the ipsilateral tectum in *Xenopus*. **293**, 58*P*, 1979
**Nerve sprouting**
Evidence against an intraspinal signal for motoneurone sprouting in mice. **291**, 35*P*, 1979
Early structural changes in the motor nerve terminals of rat skeletal muscle after local injection of botulinum toxin. **296**, 12*P*, 1979
**Neuroblastoma**
The calcium action potential and a prolonged calcium dependent after-hyperpolarization in mouse neuroblastoma cells. **292**, 297, 1979
The calcium current and the activation of a slow potassium conductance in voltage-clamped mouse neuroblastoma cells. **292**, 307, 1979
**Neuroglia**
[$^3$H]$\gamma$-Aminobutyric acid uptake into neuroglial cells of rat superior cervical sympathetic ganglia. **293**, 51, 1979
$\gamma$-Aminobutyric acid efflux from sympathetic glial cells: effect of 'depolarizing' agents. With an Appendix by R.R. ADAMS & D.A. BROWN. **293**, 75, 1979
**Neurohypophysis**
Effects of enkephalins and of substance P on the hypothalamo-neurohypophysial system of the rat. **289**, 56*P*, 1979
Inhibition by GABA of hormone release from the neurohypophysis in the rat. **289**, 78*P*, 1979
Phasic firing enhances vasopressin release from the rat neurohypophysis. **290**, 433, 1979
Inactivation of neurohypophysial hormone release in the rat by substitution of saline solution for drinking water. **295**, 95*P*, 1979
**Neuromuscular junction**
Ion-concentration dependence of the reversal potential and the single channel conductance of ion channels at the frog neuromuscular junction. **286**, 417, 1979
The physiology, pharmacology, and trophic effectiveness of synapses formed by autonomic preganglionic nerves on frog skeletal muscle. **289**, 219, 1979
Competitive interaction between foreign nerve innervating frog skeletal muscle. **289**, 241, 1979
Morphological changes in murine nerve, neuromuscular junction and skeletal muscle induced by the crotoxin complex. **291**, 5*P*, 1979
The actions of tubocurarine at the frog neuromuscular junction. **293**, 247, 1979
Inhibitory effects of cholinergic agents on the release of transmitter at the frog neuromuscular junction. **294**, 91, 1979
The kinetics of tubocurarine action and restricted diffusion within the synaptic cleft. **294**, 365, 1979
Quantal transmission at an adrenergic neuromuscular junction. **295**, 83*P*, 1979
A comparison of the effects of butanol and benzyl alcohol on the frog end-plate conductance. **295**, 86*P*, 1979
The size of motor units during post natal development of rat lumbrical muscle. **297**, 463, 1979
**Neuromuscular transmission**
An analysis of the inhibitory post-synaptic current in the voltage-clamped crayfish muscle. **286**, 265, 1979
The effect of nutritional state on neuromuscular transmission in the rat. **286**, 375, 1979
Dual innervation of end-plate sites and its consequences for neuromuscular transmission in muscles of adult *Xenopus laevis*. **289**, 203, 1979
Voltage clamping of unparalysed cut rat diaphragm for study of transmitter release. **290**, 467, 1979
Change of statistical parameters of transmitter release during various kinetic tests in unparalysed voltage-clamped rat diaphragm. **290**, 481, 1979
Differential effect of perhydrohistrioicotoxin on 'intrinsic' and 'extrinsic' end-plate responses. **297**, 423, 1979
An electrophysiological analysis of the actions of prostaglandin on neuromuscular transmission in the guinea-pig vas deferens. **297**, 521, 1979
**Neurone**
Ionic currents in response to membrane depolarization in an *Aplysia* neurone. **289**, 115, 1979
Characteristics of sodium and calcium conductance changes produced by membrane depolarization in an *Aplysia* neurone. **289**, 143, 1979
Facilitation and suppression of antidromic invasion by orthodromic impulses in the cat. **289**, 57*P*, 1979
Stable distributions of interspike interval obtained from neurones of the pond snail. **290**, 26*P*, 1979
The excitation and depression of spinal neurones by ibotenic acid. **291**, 19, 1979
Synapse formation in intact innervated cutaneous-

**Neurone** (*cont.*)
pectoris muscles of the frog following denervation of the opposite muscle. **292**, 535, 1979
Visualization of synapses of physiologically identified cobalt-filled neurones in the locust. **296**, 2*P*, 1979
Estimates of cable parameters in Lamprey spinal cord neurones. **297**, 299, 1979
**Neurotransmitter**
Evidence of a neurotransmitter role for aspartate and γ-aminobutyric acid in the rat olfactory cortex. **291**, 51, 1979
**New-born**
Diffusional inhomogeneity: gas mixing efficiency in the new-born lung. **286**, 447, 1979
Different mechanisms for neutral amino acid uptake by new-born pig colon. **286**, 479, 1979
An estimation of intracranial blood flow in the new-born infant. **289**, 329, 1979
Post-natal development of amiloride sensitive sodium transport in pig distal colon. **292**, 481, 1979
Aldosterone induced changes in colonic sodium transport occurring naturally during development in the neonatal pig. **292**, 495, 1979
Review Lecture. '*La Chaleur Animale* and the infant brain'. **294**, 1, 1979
Hypothalamic thermo-responsive neurones in the new-born rat. **294**, 541, 1979
**Nicotine**
Nephron electrolyte transport and sodium-potassium adenosine triphosphatase activity: influence of nicotine in rat and rabbit: **295**, 353, 1979
**Nociception**
Effects of ionophoretic application of morphine and naloxone on responses of nucleus reticularis paragigantocellularis neurones to noxious stimulation in the rat. **293**, 63*P*, 1979
**Nociceptor**
The heat sensitization of polymodal nociceptors in the rabbit and its independence of the local blood flow. **287**, 493, 1979
A comparison between the discharges of human nociceptive nerve fibres and the subject's ratings of his sensations. **292**, 193, 1979
The spread of sensitization of polymodal nociceptors in the rabbit from nearby injury and by antidromic nerve stimulation. **297**, 207, 1979
**Node of Ranvier**
A quantitative description of membrane currents in rabbit myelinated nerve. **292**, 149, 1979
**Non-myelinated nerve**
Phosphate efflux and oxygen consumption in small non-myelinated nerve fibres at rest and during activity. **287**, 315, 1979
The recovery heat production in non-myelinated garfish olfactory nerve fibres. **292**, 167, 1979
**Non-myelinated nerve fibre**
Oxygen consumption and phosphate efflux in mammalian non-myelinated nerve fibres. **295**, 53*P*, 1979
**Noradrenaline**
Noradrenaline as a possible mediator of the actions of angiotensin on fluid transport by rat jejunum *in vivo*. **286**, 351, 1979
Studies of the electrical excitability of aorta smooth muscle of rabbit. **293**, 11, 1979
**Nucleus interpositus**
Responses of neurones in nucleus interpositus of the cerebellum to cutaneous nerve volleys in the awake cat. **289**, 403, 1979
**Nutrition**
The effect of nutritional state on neuromuscular transmission in the rat. **286**, 375, 1979
**Obesity**
Glucose replacement rate in growing genetically obese rats. **289**, 20*P*, 1979
Effects of continuous and discontinuous periods of cafeteria feeding on body weight, resting oxygen consumption and noradrenaline sensitivity in the rat. **291**, 59*P*, 1979
**Odour**
Efferent control of stimulus access to the hamster vomeronasal organ. **286**, 301, 1979
**Oesophagus**
Sympathetic control of lower oesophageal sphincter motility in the cat. **287**, 177, 1979
Diaphragmatic and oesophageal activity in regurgitation in sheep: an electromyographic study. **292**, 381, 1979
**Oestrus**
Facilitation of the lordosis reflex of female rats from the ventromedial nucleus of the hypothalamus. **288**, 189, 1979
Deficit in the lordosis reflex of female rats caused by lesions in the ventromedial nucleus of the hypothalamus. **288**, 203, 1979
**Olfactory cortex**
Evidence of a neurotransmitter role for aspartate and γ-aminobutyric acid in the rat olfactory cortex. **291**, 51, 1979
Mono- and multi-synaptic origin of the early surface-negative wave recorded from guinea-pig olfactory cortex *in vitro*. **293**, 153, 1979
**Olfactory epithelium**
Efferent control of stimulus access to the hamster vomeronasal organ. **286**, 301, 1979
**Oocyte**
Effects of internal potassium and sodium on the anomalous rectification of the starfish egg as examined by internal perfusion. **292**, 251, 1979
The effect of external ethacrynic acid and ouabain on the concentration and distribution of sodium, potassium and chloride in the amphibian oocyte measured by electron microprobe X-ray analysis. **296**, 73*P*, 1979
**Ophthalmoscope**
A reversible opthalmoscope using a corner-cube. **295**, 1*P*, 1979
**Opiate**
Central inhibitory effect of released opiate peptides on adrenal medulla, revealed by naloxone in the cat. **290**, 22*P*, 1979
Lack of barium-induced excitation in the cerebral cortex and hippocampus of morphine tolerant/dependent rats. **291**, 48*P*, 1979
Opioids and hypothalamo–pituitary–adrenocorticotrophic activity in the rat. **295**, 70*P*, 1979

**Optic chiasm**
Spatial fibre organization in the optic chiasm of the cat. **295**, 30*P*, 1979
**Optic nerve**
Action of excitatory amino acid antagonists on the retinal input to the cat lateral geniculate body. **292**, 46*P*, 1979
Arrangement and distribution of fibres in the developing optic nerve of the chicken. **292**, 54*P*, 1979
**Optic tectum**
Reciprocal transplantations between the optic tectum and the cerebellum in adult goldfish. **288**, 211, 1979
**Osmoreceptor**
Responses of supraoptic neurones to local hypertonic saline in the rat. **296**, 62*P*, 1979
**Osmosis**
Intercellular spaces in chemically fixed corneal endothelia are related to solute pump activity not to solvent coupling. **294**, 627, 1979
**Ouabain**
The effect of ouabain on amino acid and orthophosphate influxes in squid giant axons. **287**, 389, 1979
Pancreatic acinar cells: effects of microionophoretic polypeptide application on membrane potential and resistance. **290**, 305, 1979
Ouabain increases the slow inward calcium current in ventricular muscle of the ferret. **292**, 72*P*, 1979
Possible mechanism of the inhibitory effect of ouabain on renin secretion from rat renal cortical slices. **294**, 123, 1979
The interaction of ouabain and salicylate on sheep cardiac muscle. **297**, 187, 1979
**Oviposition**
Entrainment of oviposition in Japanese quail using ahemeral light–dark cycles. **293**, 52*P*, 1979
**Oxygen**
Phosphate efflux and oxygen consumption in small non-myelinated nerve fibres at rest and during activity. **287**, 315, 1979
Exposure to oxygen inhibits metabolism of vasoactive hormones in rat isolated lung. **293**, 27*P*, 1979
**Oxygen consumption**
Automatic system for continuous measurement of oxygen consumption of animals weighing down to 1 gram. **290**, 14*P*, 1979
Use of an automatic closed-circuit calorimeter for short-term measurements of resting oxygen consumption. **291**, 11*P*, 1979
**Oxytocin**
Delayed luteal regression in ewes immunized against ocytocin. **296**, 85*P*, 1979
Effect of oxytocin on renal sodium and chloride in Long Evans and Brattleboro rats. **296**, 89*P*, 1979
**Pacemaker**
Adrenaline action on rabbit sino-atrial node. **290**, 31*P*, 1979
Are acetylcholine-induced increases in potassium efflux mediated by intracellular cyclic GMP in cardiac pacemaker tissue? **292**, 69*P*, 1979
**Pacinian corpuscle**
The morphology of collaterals from axons innervating Pacinian corpuscles. **292**, 24*P*, 1979
**Pain**
A comparison between the discharges of human nociceptive nerve fibres and the subject's ratings of his sensations. **292**, 193, 1979
Descending tryptaminergic pathways and the antinociceptive effect produced by peripheral electrical stimulation in the rat. **293**, 59*P*, 1979
Neural mechanisms of reflex facilitation and inhibition of gastric motility to stimulation of various skin areas in rats. **294**, 407, 1979
**Pancreas**
The serial arrangement of endocrine and exocrine capillaries in the rabbit pancreas observed *in vivo*. **292**, 4*P*, 1979
Cold acclimation in the secretory responses of the isolated exocrine pancreas of the rat. **293**, 447, 1979
**Pancreatic acinar cell**
Pancreatic acinar cells: effects of microionophoretic polypeptide application on membrane potential and resistance. **290**, 305, 1979
Pancreatic acinar cells: the effect of carbon dioxide, ammonium chloride and acetylcholine on intercellular communication. **291**, 317, 1979
Electrophysiological effects of field stimulation on mouse pancreatic acinar cells. **295**, 45*P*, 1979
**Pancreatic islet cell**
Mouse pancreatic $\beta$-cells: tetraethylammonium blockage of the potassium permeability increase induced by depolarization. **288**, 561, 1979
Potassium permeability activated by intracellular calcium ion concentration in the pancreatic $\beta$-cell. **288**, 575, 1979
Simultaneous measurements of insulin release and electrical activity from single microdissected mouse Islets of Langerhans. **291**, 57*P*, 1979
Calcium channel voltage noise across the $\beta$-cell membrane in Islet of Langerhans of the mouse. **291**, 69*P*, 1979
The influence of extracellular calcium and sodium on calcium efflux from rat pancreatic islets. **296**, 103*P*, 1979
**Pancreatic secretion**
Electrolyte secretion by the isolated cat pancreas during replacement of extracellular bicarbonate by organic anions and chloride by inorganic anions. **286**, 563, 1979
Non-parallel enzyme secretion from rat pancreas *in vitro* studies. **290**, 51, 1979
Effect of acetylcholine stimulation on calcium and sodium uptake by the isolated rat pancreas. **290**, 413, 1979
Inhibition of external pancreatic secretion by intracolonic and intraileal infusions in the cat. **292**, 445, 1979
Pancreotone, an inhibitor of pancreatic secretion in extracts of ileal and colonic mucosa. **292**, 455, 1979
The effect of 5-fluorouracil on protein secretion by the guinea-pig pancreas. **292**, 33*P*, 1979

**Pancreatic secretion** (*cont.*)
Influence of the vagus nerve on release and action of secretin in dog. **293**, 435, 1979
Potent stimulation of the avian exocrine pancreas by porcine and chicken vasoactive intestinal peptide. **294**, 153, 1979
Localization of sodium+potassium activated ATPase in the pancreas. **295**, 13*P*, 1979
Calcium and cyclic nucleotide interaction in secretion of amylase from rat pancreas *in vitro*. **296**, 159, 1979
**Pancreotone**
Pancreotone, an inhibitor of pancreatic secretion in extracts of ileal and colonic mucosa. **292**, 455, 1979
**Paramecium**
Ionic conductances of membranes in ciliated and deciliated *Paramecium*. **296**, 49, 1979
**Parasympathetic ganglion**
Normal distribution and denervation changes of neurotransmitter related enzymes in cholinergic neurones. **286**, 233, 1979
Loss of extrasynaptic acetylcholine sensitivity upon reinnervation of parasympathetic ganglion cells. **289**, 263, 1979
Studies on the mechanism of action of acetylcholine antagonists on rat parasympathetic ganglion cells. **295**, 139, 1979
**Parasympathetic ganglion cell**
Synaptic currents of rat parasympathetic ganglion cells. **296**, 74*P*, 1979
**Parotid gland**
Parotid acinar cells: membrane potential changes induced by electrical field stimulation. **295**, 46*P*, 1979
Amylase secretion in the rabbit parotid gland when stimulating the sympathetic nerves during parasympathetic activity. **296**, 443, 1979
**Parturition**
Supplementation with linolenic acid of a diet deficient in essential fatty acids results in impaired parturition in rats. **290**, 37*P*, 1979
Control of parturition in sheep; cortisol stimulation of steroid metabolizing enzymes in placental explants. **295**, 78*P*, 1979
**Pelvic nerve**
The electrical responses of the rabbit rectococcygeus following extrinsic parasympathetic nerve stimulation. **293**, 539, 1979
**Pepsin**
Pepsin secretion in anaesthetized cats stimulated by pentagastrin and gastrin II in the presence or absence of secretin. **289**, 1, 1979
**Pepsin secretion**
Pepsin secretion in the isolated rat stomach preparation. **296**, 55*P*, 1979
**Peptide**
Evidence of a non-opioid inhibitory peptide in brain. **292**, 43*P*, 1979
Factors affecting the movement of amino acids and small peptides across the vascularly perfused *Anuran* small intestine. **293**, 457, 1979
**Pericardial fluid**
The formation of a pericardial-like fluid from the epicardial surface of the isolated perfused rat heart. **293**, 17*P*, 1979
**Permeability**
Non-electrolyte permeability of trout gills: effect of temperature and adrenaline. **286**, 361, 1979
**Phlorizin**
Free-flow reabsorption of glucose, sodium, osmoles and water in rat proximal convoluted tubule. **288**, 331, 1979
**Phosphate**
Phosphate efflux and oxygen consumption in small non-myelinated nerve fibres at rest and during activity. **287**, 315, 1979
**Phosphofructokinase**
Histochemical measurement of myocardial phosphofructokinase activity. **289**, 18*P*, 1979
**Photocurrent**
The membrane current of single rod outer segments. **288**, 589, 1979
Responses of retinal rods to single photons. **288**, 613, 1979
**Photon**
Responses of retinal rods to single photons. **288**, 613, 1979
**Photoperiodism**
Effects of photoperiod on food intake, sexual condition and hormone concentrations in stags and rams. **296**, 58*P*, 1979
**Photopigment**
Pigment transformation and electrical responses in retinula cells of drone, *Apis mellifera*. **296**, 431, 1979
**Photoreception**
The effects of background illumination on the photoresponses of red and green cones. **286**, 491, 1979
Time- and voltage-dependent ionic components of the rod response. **294**, 613, 1979
**Photoreceptor**
Dark-adaptation of the aspartate-isolated rod receptor potential of the frog retina: threshold measurements. **287**, 93, 1979
Photoresponses of a sensitive extraretinal photoreceptor in *Aplysia*. **287**, 267, 1979
The role of diffusion in the photoresponse of an extraretinal photoreceptor of *Aplysia*. **287**, 283, 1979
An analysis of the wave forms of photoreceptor potentials in the retina of the cephalopod *Sepiola atlantica*. **288**, 171, 1979
Potassium activity in photoreceptors, glial cells and extracellular space in the drone retina: changes during photostimulation **290**, 525, 1979
Contribution of calcium and potassium permeability changes to the off response of scallop hyperpolarizing photoreceptors. **291**, 207, 1979
Calcium channels in the high resistivity axonal membrane of photoreceptors of the giant barnacle. **294**, 433, 1979
Cyclic GMP and the permeability of the disks of the frog photoreceptors. **295**, 171, 1979
Spread of activation along the toad rod outer segment. **295**, 14*P*, 1979
Quantum sensitivity of sodium conductance in toad rods. **295**, 27*P*, 1979
A voltage clamp study of the light response in solitary rods of the tiger salamander. **296**, 1, 1979

**Photoreceptor** (*cont.*)
Isopotentiality and an optical determination of series resistance in *Limulus* ventral photoreceptors. **296**, 357, 1979
Saturation of the response to light in *Limulus* ventral photoreceptor. **296**, 373, 1979
Pigment transformation and electrical responses in retinula cells of drone, *Apis mellifera*. **296**, 431, 1979
Light induced changes of internal pH in a barnacle photoreceptor and the effect of internal pH on the receptor potential. **297**, 73, 1979
Light adaptation in toad rods: requirement for an internal messenger which is not calcium. **297**, 493, 1979

**Pineal body**
The pineal in goldfish: effects on learning capacity and gonadal activity. **295**, 64*P*, 1979

**Pineal organ**
Electrophysiology and pharmacology of striated muscle fibres cultured from dissociated neonatal rat pineal glands. **293**, 1, 1979

**Pituitary gland**
The effect of hypothalamic lesions on immunoreactive α-melanocyte stimulating hormone secretion in the rat. **292**, 59, 1979

**Placenta**
Cation transport across the guinea-pig placenta perfused *in situ*. **287**, 45, 1979
Studies of the transplacental calcium gradient in the sheep. **290**, 19*P*, 1979
An isolated guinea-pig placenta for the study of transport by rapid paired-tracer dilution. **291**, 17*P*, 1979
Porosity of the guinea-pig placenta and its increase by perfusion. **291**, 28*P*, 1979
Amino acid carriers at the maternal and fetal surfaces of the trophoblast in the isolated guinea-pig placenta. **291**, 30*P*, 1979

**Plasma**
Plasma volume shifts during moderate exercise in splenectomized greyhounds. **292**, 391, 1979

**Plasticity**
Disuse enhances synaptic efficacy in spinal motoneurones. **291**, 191, 1979

**Platelet**
Platelet membrane potential assessed with a fluorescent probe, dipropylthiadicarbocyanine: has this potential a role in triggering aggregation? **289**, 34*P*, 1979
A method for investigating the role of calcium in the shape change, aggregation and serotonin release of rat platelets. **297**, 289, 1979

**Plethysmograph**
An estimation of intracranial blood flow in the new-born infant. **289**, 329, 1979
A gravimetric venous occlusion plethysmograph. **293**, 10*P*, 1979

**Post-synaptic current**
An analysis of the inhibitory post-synaptic current in the voltage-clamped crayfish muscle. **286**, 265, 1979

**Posture**
Posturally related tonic activity recorded from the peripheral diaphragm in awake and sleeping lambs. **292**, 57*P*, 1979

**Potassium**
Extracellular potassium accumulation in voltage-clamped frog ventricular muscle. **286**, 83, 1979
Dorsal root potentials and changes in extracellular potassium in the spinal cord of the frog. **290**, 113, 1979
Potassium activity in photoreceptors, glial cells and extracellular space in the drone retina: changes during photostimulation **290**, 525, 1979
Relationship between calcium release and potassium release in rat parotid gland. **291**, 457, 1979
Epithelial potassium transport in the choroid plexus of the bull frog. **291**, 68*P*, 1979
Effects of internal potassium and sodium on the anomalous rectification of the starfish egg as examined by internal perfusion. **292**, 251, 1979
A voltage-dependent gate in series with the inwardly rectifying potassium channel in frog striated muscle. **293**, 301, 1979
The reversible replacement of internal potassium by caesium in isolated turtle heart. **293**, 525, 1979
The mechanism of potassium dispersal in brain tissue. **293**, 37*P*, 1979
Inotropic and arrhythmogenic effects of potassium depleted solutions on mammalian cardiac muscle. **294**, 255, 1979

**Potassium conductance**
A dual effect of formaldehyde on the inwardly rectifying potassium conductance in skeletal muscle. **286**, 591, 1979

**Potassium current**
Potassium currents in frog ventricular muscle: evidence from voltage clamp currents and extracellular potassium accumulation. **286**, 113, 1979
Voltage-clamp analysis of the potassium current that produces a negative-going action potential in *Ascaris* muscle. **288**, 263, 1979
The effects of calcium on outward membrane currents in the cardiac Purkinje fibre. **289**, 347, 1979
Inactivation of delayed outward current in molluscan neurone somata. **291**, 507, 1979
Mechanism of frequency-dependent broadening of molluscan neurone soma spikes. **291**, 531, 1979
Potassium depletion and sodium block of potassium currents under hyperpolarization in frog sartorius muscle. **294**, 497, 1979

**Potassium metabolism**
Sodium, potassium and water metabolism in the rabbit: the effect of sodium depletion and repletion. **292**, 407, 1979

**Potassium permeability**
Mouse pancreatic β-cells: tetraethylammonium blockage of the potassium permeability increase induced by depolarization. **288**, 561, 1979
Potassium permeability activated by intracellular calcium ion concentration in the pancreatic β-cell. **288**, 575, 1979
Contribution of calcium and potassium permeability changes to the off response of scallop hyperpolarizing photoreceptors. **291**, 207, 1979
Internal effects of divalent cations on potassium permeability in molluscan neurones. **296**, 393, 1979

**Potassium transport**
Relation of potassium transport to oxidative metabolism in isolated brain capillaries. **286**, 185, 1979
Actions of a carbocyanine dye on calcium-dependent potassium transport in human red cell ghosts **288**, 481, 1979
**Pregnancy**
Effects of pregnancy on glucose handling by distal segments of the rat nephron. **289**, 74*P*, 1979
Hypernatraemia in sheep pregnancy. **290**, 33*P*, 1979
Vascular resistance of the rabbit hind limb during pregnancy. **295**, 73*P*, 1979
Effects of pregnancy on glucose handling by short loops of Henle in the rat. **296**, 91*P*, 1979
**Presynaptic inhibition**
Inhibitory effects of cholinergic agents on the release of transmitter at the frog neuromuscular junction. **294**, 91, 1979
**Primary afferent depolarization**
Evidence for primary afferent depolarization of single tooth-pulp afferents in the cat. **288**, 437, 1979
Primary afferent depolarization evoked from stimulation of brain-stem raphe nuclei in the rat. **293**, 54*P*, 1979
Further evidence suggesting the absence of acidic amino acid receptors on primary afferent terminals in the frog. **293**, 68*P*, 1979
**Probenecid**
Effects of central administration of probenecid on fevers produced by leukocytic pyrogen and $PGE_2$ in the rabbit. **287**, 519, 1979
**Prolactin**
The regulation of prolactin release by the anterior pituitary. **295**, 106*P*, 1979
**Prostacyclin**
Myometrial prostacyclin synthesis – a new factor in pregnancy in the rat? **296**, 86*P*, 1979
**Prostaglandin**
Cardiovascular and antidiuretic effects of central prostaglandin $E_2$. **288**, 159, 1979
Prostaglandins and the sources of their production in a mild inflammatory lesion in sheep. **288**, 379, 1979
Endogenous prostaglandins and stimulated gastric secretion in the cat: the effect of various secretory inhibitors. **291**, 1, 1979
Intraventricular microinjection of a stable analogue of prostaglandin endoperoxide cause fever in rabbits. **291**, 29, 1979
An electrophysiological analysis of the actions of prostaglandin on neuromuscular transmission in the guinea-pig vas deferens. **297**, 521, 1979
The effects of renal denervation and meclofenamate on renal blood flow regulation in conscious rabbits. **297**, 551, 1979
**Protein**
Protein deprivation: its effects on fever and plasma iron during bacterial infection in rabbits. **295**, 419, 1979
**Protein kinase**
Mode of stimulation by injection of cyclic AMP and external acidification of the sodium reflux in barnacle muscle fibres. **296**, 277, 1979
**Protein synthesis**
The effect of stimulation by meat on gastrins in pyloric antral mucosa of anaesthetized cats. **295**, 201, 1979
**Pulmonary embolism**
The role of platelets in the post-embolic responses of slowly adapting intrapulmonary stretch receptors in the rabbit. **289**, 93*P*, 1979
**Pulmonary receptor**
The effect of bupivacaine aerosol on the activity of pulmonary stretch and 'irritant' receptors. **288**, 367, 1979
Functional characteristics of slowly adapting pulmonary stretch receptors in the turtle (*Chrysemys picta*). **291**, 37, 1979
Assessment of the pulmonary origin of bronchoconstrictor vagal tone. **291**, 305, 1979
**Pulmonary surfactant**
Surface tension induced by dipalmitoyl lecithin *in vitro* under physiological conditions. **297**, 217, 1979
**Pupil**
Dynamics of the light reflex and the influence of age on the human pupil measured by television pupillometry. **293**, 1*P*, 1979
Light-induced anisocoria in man. **293**, 58*P*, 1979
**Pyramidal tract**
Prolonged changes in excitability of pyramidal tract neurones in the cat: a post-synaptic mechanism. **286**, 457, 1979
**Pyrogen**
Effects of central administration of probenecid on fevers produced by leukocytic pyrogen and $PGE_2$ in the rabbit. **287**, 519, 1979
Central effect of taurine and its analogues on fever caused by intravenous leukocytic pyrogen in the rabbit. **287**, 535, 1979
Influence of sex and age on febrile responses to peripheral and central administration of pyrogens in the rabbit. **295**, 263, 1979
Hypothalamic sensitivity to leucocytic pyrogen of adult and new-born guinea-pigs. **296**, 177, 1979
**Radiation**
Measurement of the apparent molecular volume of membrane-bound transport systems by radiation inactivation. **295**, 10*P*, 1979
**Raphe nucleus**
Serotonergic innervation of the locus coeruleus from the dorsal raphe and its action on responses to noxious stimuli. **286**, 401, 1979
**Rat bone**
Microprobe analysis of intracellular mineral deposits in rachitic rat bone. **291**, 61*P*, 1979
**Rebreathing**
The effects of hypercapnia, hypoxia, exercise and anxiety on the pattern of breathing in man. **293**, 285, 1979
**Receptive field**
Receptive fields of fibres in the central ends of divided dorsal roots. **292**, 429, 1979
Effects of dark adaptation on spatial and temporal properties of receptive fields in cat lateral geniculate nucleus. **294**, 561, 1979
**Rectococcygeus muscle**
The electrical responses of the rabbit rectococcygeus

**Rectococcygeus muscle** (*cont.*)
following extrinsic parasympathetic nerve stimulation. **293**, 539, 1979
**Rectum**
Characteristics of the internal anal sphincter and the rectum of the vervet monkey. **286**, 383, 1979
**Recurrent collateral nerve**
Receptive fields of fibres in the central ends of divided dorsal roots. **292**, 429, 1979
**Recurrent inhibition**
Changes in recurrent inhibition during voluntary soleus contractions in man studied by an H-reflex technique. **297**, 229, 1979
Recurrent inhibition and afterhyperpolarization following motoneural discharge in the cat. **297**, 253, 1979
Input–output relations in the pathway of recurrent inhibition to motoneurones in the cat. **297**, 267, 1979
**Red cell**
The relation between net calcium, alkali cation and chloride movements in red cells exposed to salicylate. **287**, 15, 1979
Actions of a carbocyanine dye on calcium-dependent potassium transport in human red cell ghosts **288**, 481, 1979
Magnesium inhibition of hyperpolarization of the *Amphiuma* red cell membrane induced by calcium and A23187. **289**, 29*P*, 1979
A plausible method for impaling red cells or other small freely suspended cells. **291**, 14*P*, 1979
Phloretin inhibition of L-leucine transport in the human erythrocyte. **291**, 53*P*, 1979
Changes in morphology and carbonic anhydrase content of red blood cells from men subjected to simulated dives. **292**, 34*P*, 1979
Asymmetry in the hexose transfer system of erythrocytes from new-born guinea-pigs. **293**, 73*P*, 1979
Bicarbonate exchange through the human red cell membrane determined with [$^{14}$C] bicarbonate. **294**, 521, 1979
A new density gradient technique for age-separation of human erythrocytes and reticulocytes. **295**, 9*P*, 1979
The effects of hydrostatic pressure on the osmotic fragility of erythrocytes and their protection by pentanol. **295**, 42*P*, 1979
Sodium–sodium exchange through the sodium pump: the role of ATP and ADP. **297**, 637, 1979
**Reflex**
Muscle spindle discharge in normal and obstructed movements. **287**, 57, 1979
Facilitation of the lordosis reflex of female rats from the ventromedial nucleus of the hypothalamus. **288**, 189, 1979
Deficit in the lordosis reflex of female rats caused by lesions in the ventromedial nucleus of the hypothalamus. **288**, 203, 1979
Evidence for a transcortical cutaneous reflex response in man. **293**, 39*P*, 1979
**Reinnervation**
Loss of extrasynaptic acetylcholine sensitivity upon reinnervation of parasympathetic ganglion cells. **289**, 263, 1979
Diaphragmatic and oesophageal activity in regurgitation in sheep: an electromyographic study. **292**, 381, 1979
Rate of reinnervation of extensor digitorum longus muscle in dystophic mice. **293**, 47*P*, 1979
Motor units in mammalian skeletal muscle after long periods of reinnervation. **296**, 111*P*, 1979
The effects of post-ganglionic axonomy on selective synaptic connexions in the superior cervical ganglion of the guinea-pig. **297**, 95, 1979
**Renal blood flow**
Acute renal haemodynamic and renin-angiotensin system responses to graded renal artery stenosis in the dog. **287**, 231, 1979
The effects of renal denervation and meclofenamate on renal blood flow regulation in conscious rabbits. **297**, 551, 1979
**Renal excretion**
Renal adaptation to changes in dietary phosphorus intake by thyroparathyroidextomized pigs. **290**, 27*P*, 1979
**Renal function**
Glomerular filtration rate and sodium and water reabsorption in the pseudo-pregnant rat. **289**, 75*P*, 1979
Effect of intraventricular injection of transmitter substances and temperature on autonomic functions of conscious sheep. **294**, 239, 1979
Nephron electrolyte transport and sodium-potassium adenosine triphosphatase activity: influence of nicotine in rat and rabbit. **295**, 353, 1979
**Renal medulla**
The influence of chloride ions on renal outer medullary cell volume. **293**, 485, 1979
**Renal nerve**
The role of renal nerves in the diuresis and natriuresis caused by stimulation of atrial receptors. **287**, 17*P*, 1979
Atrial receptors which effect reflex inhibition in renal nerves in dogs. **290**, 11*P*, 1979
Requirement of the adrenergic nervous system for conservation of sodium by the rabbit kidney. **293**, 24*P*, 1979
The effects of renal denervation and meclofenamate on renal blood flow regulation in conscious rabbits. **297**, 551, 1979
**Renal plasma flow**
Absence of measurable changes in effective renal plasma flow and glomerular filtration rate in conscious rats after prostaglandin synthetase inhibition by indomethacin or flurbiprofen. **295**, 105*P*, 1979
**Renal tubule**
The Feldberg Lecture 1976. Solute transport across epithelia: what can we learn from micropuncture studies on kidney tubules? **288**, 1, 1979
Free-flow reabsorption of glucose, sodium, osmoles and water in rat proximal convoluted tubule. **288**, 331, 1979
Microperfusion of isolated renal tubule segments *in vitro* in the rabbit. **290**, 4*P*, 1979
Relationship between fluid reabsorption and perfusion rate in proximal convoluted tubules of rat kidney. **290**, 20*P*, 1979

**Renin**
The role of circulating renin in drinking in response to isoprenaline. **291**, 61, 1979
Influence of potassium, sodium, perfusion pressure, and isoprenaline on renin release induced by acute calcium deprivation. **292**, 363, 1979
Influence of potassium, sodium, calcium, perfusion pressure, and isoprenaline on renin release induced by high concentrations of magnesium. **292**, 373, 1979
Plasma active and inactive renin in the rabbit: effect of dietary sodium depletion and repletion. **292**, 421, 1979
Vascular renin activity and blood pressure control in the rat. **292**, 63*P*, 1979
Renin, antidiuretic hormone and the kidney in water restriction and rehydration. **294**, 181, 1979
The influence of the rapid eye movement phase of sleep on plasma renin activity in man. **295**, 69*P*, 1979
Plasma active and inactive renin in the rabbit during furosemide diuresis. **295**, 104*P*, 1979

**Renin secretion**
Possible mechanism of the inhibitory effect of ouabain on renin secretion from rat renal cortical slices. **294**, 123, 1979

**Renin-angiotensin system**
Acute renal haemodynamic and renin-angiotensin system responses to graded renal artery stenosis in the dog. **287**, 231, 1979

**Renshaw cell**
Characterization of cholinergic receptors on Renshaw cells in the cat. **289**, 77*P*, 1979
Input–output relations in the pathway of recurrent inhibition to motoneurones in the cat. **297**, 267, 1979

**Respiration**
Graded changes in central chemoreceptor input by local temperature changes on the ventral surface of medulla. **287**, 191, 1979
The initiation of inspiration. **295**, 41*P*, 1979

**Respiratory neurone**
Monosynaptic excitation of bulbospinal respiratory neurones by chemoreceptor afferents in the carotid sinus nerve. **293**, 35*P*, 1979
The effect of carbon dioxide on the tonic and the rhythmic discharges of expiratory bulbospinal neurones. **296**, 291, 1979

**Respiratory oscillation**
Respiratory oscillations of pulmonary venous and arterial pH in dogs. **296**, 26*P*, 1979

**Respiratory rhythm**
The effect of carbon dioxide on the tonic and the rhythmic discharges of expiratory bulbospinal neurones. **296**, 291, 1979

**Reticular formation**
Responses of medial reticular neurones to tooth pulp stimulation: evidence for a monosynaptic input. **292**, 40*P*, 1979
A selective action of nucleus raphe magnus on tooth pulp inputs to medial reticular neurones. **293**, 73*P*, 1979

**Retina**
An analysis of the wave forms of photoreceptor potentials in the retina of the cephalopod *Sepiola atlantica*. **288**, 171, 1979
Size, scatter and coverage of ganglion cell receptive field centres in the cat retina. **291**, 117, 1979
Feed-back effects of L-horizontal cells on *Pseudemys* turtle cones influence the transmission from cones to L-horizontal cells. **292**, 45*P*, 1979
The uptake and radioautographical localization of (±)[$^3$H]cis-aminocyclohexane carboxylic acid by the isolated frog retina. **293**, 61*P*, 1979
The entry of glucose and of 3-hydroxybutyrate into the rat retina *in vivo*. **296**, 42*P*, 1979

**Retinal cone**
The effects of background illumination on the photoresponses of red and green cones. **286**, 491, 1979
Signal transmission from red cones to horizontal cells in the turtle retina. **286**, 509, 1979
Electrical coupling between cones in turtle retina **291**, 75, 1979
Lateral interactions in human cone dark adaptation. **296**, 125, 1979
After-effects of small adapting fields. **296**, 141, 1979

**Retinal ganglion cell**
Synaptic drive and impulse generation in ganglion cells of turtle retina. **288**, 107, 1979
The mechanism of peripherally evoked responses in retinal ganglion cells. **289**, 299, 1979
Non-linear spatial summation and the contrast gain control of cat retinal ganglion cells. **290**, 141, 1979
The effects of variations in stimulus frequency on the ganglion cell discharges of frog retina. **290**, 45*P*, 1979
Size, scatter and coverage of ganglion cell receptive field centres in the cat retina. **291**, 117, 1979
Recovery of cat retinal ganglion cell sensitivity following pigment bleaching. **295**, 47, 1979

**Retinal horizontal cell**
Signal transmission from red cones to horizontal cells in the turtle retina. **286**, 509, 1979

**Retinal rod**
Dark-adaptation of the aspartate-isolated rod receptor potential of the frog retina: threshold measurements. **287**, 93, 1979
Dark-adaptation in frog rods: changes in the stimulus–response function. **287**, 107, 1979
The membrane current of single rod outer segments. **288**, 589, 1979
Responses of retinal rods to single photons. **288**, 613, 1979
Initial-image and afterimage discrimination in the human rod and cone systems. **294**, 165, 1979
Time- and voltage-dependent ionic components of the rod response. **294**, 613, 1979
A voltage clamp study of the light response in solitary rods of the tiger salamander. **296**, 1, 1979

***Rhodnius***
Diuresis from left atrial receptors: effect of plasma on the secretion of the Malpighian tubules of *Rhodnius prolixus*. **291**, 381, 1979

**Rhodopsin**
Pigment transformation and electrical responses in retinula cells of drone, *Apis mellifera*. **296**, 431, 1979

**Rubidium**
Potential-dependence of the rubidium block of inward rectification in frog skeletal muscle. **295**, 55*P*, 1979

**Rumen**
Reticulo-rumen motility in the chronically vagotomized sheep. **296**, 30*P*, 1979
The choice of models relating tritiated water absorption to subepithelial blood flow in rumen of sheep. **297**, 111, 1979

**Ruthenium red**
Transmitter release: ruthenium red used to demonstrate a possible role of sialic acid containing substrates. **291**, 161, 1979

**Salicylate**
The relation between net calcium, alkali cation and chloride movements in red cells exposed to salicylate. **287**, 15, 1979
The action of salicylate ions on the frog node of Ranvier. **295**, 69, 1979
Action of salicylate ions on the electrical properties of sheep cardiac Purkinje fibres. **297**, 163, 1979
The interaction of ouabain and salicylate on sheep cardiac muscle. **297**, 187, 1979

**Saliva**
The collection of saliva in the new-born rabbit, guinea-pig and rat. **289**, 1*P*, 1979
Electrolyte secretion in the new-born rabbit submandibular gland. **289**, 88*P*, 1979

**Salivary gland**
On the effect of ionophoretically applied dopamine on salivary gland cells of *Nauphoeta cinerea*. **287**, 67, 1979
On the time course of the electrical response of salivary gland cells of *Nauphoeta cinerea* to ionophoretically applied dopamine. **287**, 81, 1979
Submandibular glandular permeability to blood-borne horseradish peroxidase in dogs, before and after obstructing secretion. **287**, 19*P*, 1979
Restricted distribution of molecules in the cat salivary gland interstitium. **289**, 22*P*, 1979
Relationship between calcium release and potassium release in rat parotid gland. **291**, 457, 1979
Peptide-containing nerves in striated ducts of submandibular glands in cats. **296**, 95*P*, 1979
Permeability of the fenestrated capillaries in the cat submandibular gland to lipid-insoluble molecules. **297**, 335, 1979
Transcapillary exchange in the cat salivary gland during secretion, bradykinin infusion and after chronic duct ligation. **297**, 355, 1979
Calcium and receptor regulation of radiosodium uptake by dispersed rat parotid acinar cells. **297**, 369, 1979

**Salivary secretion**
Amylase secretion in the rabbit parotid gland when stimulating the sympathetic nerves during parasympathetic activity. **296**, 443, 1979
A method for studying reflex secretion from the parotid gland of the conscious rabbit. **296**, 29*P*, 1979

**Salt gland**
Adaptive hyperplasia and compensatory growth in the salt glands of ducks and geese. **294**, 145, 1979

**Sanguinarine**
Activation by sanguinarine of active sodium efflux from frog skeletal muscle in the presence of ouabain. **295**, 1, 1979

**Sarcolemma**
Characteristics of saxitoxin binding to the sodium channel of sarcolemma isolated from rat skeletal muscle. **295**, 383, 1979

**Sarcomere**
The measurement and dynamic implications of thin filament lengths in heart muscle. **286**, 607, 1979
Interpretation of light diffraction by cross-striated muscle as Bragg reflexion of light by the lattice of contractile proteins. **290**, 317, 1979
The velocity of unloaded shortening and its relation to sarcomere length and isometric force in vertebrate muscle fibres. **291**, 143, 1979
Sarcomere length–tension relations of frog skinned muscle fibres during calcium activation at short lengths. **292**, 177, 1979
A diffraction system for measuring muscle sarcomere length. **292**, 5*P*, 1979
Intersarcomere dynamics during fixed-end tetanic contractions of frog muscle fibres. **293**, 365, 1979
The effect on tension of non-uniform distribution of length changes applied to frog muscle fibres. **293**, 379, 1979

**Sarcoplasmic reticulum**
The extracellular compartments of frog skeletal muscle. With Appendix by R.T. Mathias. **288**, 45, 1979

**Saxitoxin**
Characteristics of saxitoxin binding to the sodium channel of sarcolemma isolated from rat skeletal muscle. **295**, 383, 1979

**Schizophrenia**
Dopamine and homovanillic acid concentrations in the post-mortem brain in schizophrenia. **293**, 36*P*, 1979

**Scrotal temperature**
The effect of spinal cord lesions on the temperature-responsive neurones in the ventrobasal thalamus of the rat. **292**, 21*P*, 1979

**Secretin**
Influence of the vagus nerve on release and action of secretin in dog. **293**, 435, 1979

**Septal nucleus**
Evidence supporting a role for endogenous vasopressin in natural suppression of fever in the sheep. **295**, 33, 1979

**Serotonin**
Serotonergic innervation of the locus coeruleus from the dorsal raphe and its action on responses to noxious stimuli. **286**, 401, 1979
The neuronal organization of the rat subfornical organ *in vitro* and a test of the osmo- and morphine-receptor hypotheses. **291**, 101, 1979

**Sexual differentiation**
Evidence for separate masculinization and defeminization of the brain during development of male rats. **289**, 53*P*, 1979

**Shivering**
The effect of dopamine on shivering in the rat. **288**, 393, 1979

**Shivering** (*cont.*)
Shivering intensity in humans during immersion in cold water. **290**, 48*P*, 1979
**Shock**
Bradykinin release into portal blood during haemorrhagic shock. **292**, 80*P*, 1979
**Sialic acid**
Transmitter release: ruthenium red used to demonstrate a possible role of sialic acid containing substrates. **291**, 161, 1979
**Simulation**
Modelling the distortion produced by heel strike transients in soft tissue. **296**, 10*P*, 1979
**Sino-atrial node**
Characteristics of the anion channel in the sino-atrial node cell of the rabbit. **294**, 447, 1979
**Sinus nerve**
Studies on the excitability of sinus nerve afferent terminals. **297**, 123, 1979
**Skeletal muscle**
A dual effect of formaldehyde on the inwardly rectifying potassium conductance in skeletal muscle. **286**, 591, 1979
Histochemical reactions of fibres in a fast twitch muscle of the cat. **287**, 439, 1979
The extracellular compartments of frog skeletal muscle. With Appendix by R.T. Mathias. **288**, 45, 1979
Extracellular space of frog skeletal muscle *in vivo* and *in vitro*: relation to proton magnetic resonance relaxation times. **288**, 71, 1979
Effects of external calcium concentration and pH on charge movement in frog skeletal muscle. **288**, 129, 1979
Transmission and contraction fatigue of rat motor units in relation to succinate dehydrogenase activity of motor unit fibres. **288**, 285, 1979
Chemical change and energy production during contraction of frog muscle: how are their time courses related? **288**, 353, 1979
Neural control of skeletal muscle cholinesterase: a study using organ-cultured rat muscle. **289**, 501, 1979
Combined laser diffraction and quick freezing of skeletal muscle. **289**, 4*P*, 1979
The velocity of unloaded shortening and its relation to sarcomere length and isometric force in vertebrate muscle fibres. **291**, 143, 1979
Dependence of motoneurone properties on the length of immobilized muscle. **291**, 179, 1979
Effects of temperature on tension, tension-dependent heat, and activation heat in twitches of frog skeletal muscle. **291**, 265, 1979
Effect of different patterns of long-term stimulation on muscle performance. **292**, 20*P*, 1979
Effects of endurance training on muscle fibre ATP-ase activity, capillary supply and mitochondrial content in man. **294**, 419, 1979
Potassium depletion and sodium block of potassium currents under hyperpolarization in frog sartorius muscle. **294**, 497, 1979
Long-term effects of tetanic stimulation on blood flow, metabolism and performance of fast skeletal muscles. **295**, 36*P*, 1979
The resting membrane potential of frog sartorius muscle. **297**, 1, 1979
Thyroid hormones and the energetics of active sodium potassium transport in mammalian skeletal muscles. **297**, 47, 1979
**Skeletal muscle fibre**
Intersarcomere dynamics during fixed-end tetanic contractions of frog muscle fibres. **293**, 365, 1979
The effect on tension of non-uniform distribution of length changes applied to frog muscle fibres. **293**, 379, 1979
**Skeletal muscle properties**
The trophic influence of tetrodotoxin-inactive nerves on normal and reinnervated rat skeletal muscles. **297**, 479, 1979
**Skin**
Micro-electrode measurement of skin pH in humans during ischaemia, hypoxia and local hypothermia. **291**, 339, 1979
**Skin epithelium**
Simple class apparatus for studying frog skin potentials. **292**, 10*P*, 1979
Estimation of the density of sodium entry sites in frog skin epithelium from the uptake of [$^3$H]benzamil. **295**, 477, 1979
Uptake of [$^3$H]benzamil at different sodium concentrations. Inferences regarding the regulation of sodium permeability. **295**, 491, 1979
**Sleep**
Hormones and sleep. **295**, 70*P*, 1979
**Slow muscle**
Voltage-clamp experiments in mammalian slow twitch skeletal muscle. **289**, 37*P*, 1979
Electrophysical identification of two types of fibres in rat extraocular muscles. **290**, 453, 1979
Ionic basis for electrical properties of tonic fibres in rat extraocular muscles. **295**, 273, 1979
**Small intestine**
Factors affecting the movement of amino acids and small peptides across the vascularly perfused *Anuran* small intestine. **293**, 457, 1979
**Smooth muscle**
Identification of different sodium compartments from smooth muscle cells, fibroblasts and endothelial cells, in arteries and tissue culture. **287**, 213, 1979
Studies of the electrical excitability of aorta smooth muscle of rabbit. **293**, 11, 1979
Effects of acetylcholine on the smooth muscle cell of isolated main coronary artery of the guinea-pig. **293**, 119, 1979
The electrical responses of the rabbit rectococcygeus following extrinsic parasympathetic nerve stimulation. **293**, 539, 1979
The action acetylcholine and catecholamines on an intracellular calcium store in the smooth muscle cells of the guinea-pig taenia coli. **294**, 51, 1979
Effects of acetylcholine and catecholamines on the smooth muscle cell on the porcine coronary artery. **294**, 595, 1979
Calcium, magnesium-ATPase in the microsomal fraction of intima-media smooth muscle from porcine coronary artery. **295**, 23*P*, 1979

**Smooth muscle** (*cont.*)
The effect of helium pressure on guinea-pig isolated tracheal smooth muscle. **295**, 28*P*, 1979
The packeted release of transmitter from the sympathetic nerves of the guinea-pig vas deferens: an electrophysiological study. **296**, 85, 1979
Ionic mechanisms of repolarization in the guinea-pig taenia coli as revealed by the actions of strontium. **297**, 443, 1979

**Snail**
The pond-snail brain – an answer to a neurophysiologist's prayer? **290**, 2*P*, 1979
Wide-acting synaptic inputs in the isolated brain of the pond-sn[illegible] **290**, 46*P*, 1979

**Sodium**
The depol[illegible]ential of crab muscle fibres. A sodi[illegible] process mediated by intracellular [illegible]alciu[illegible] **286**, 317, 1979
Sodium ions, acting at high-affinity extracellular sites, inhibit sodium-ATPase activity of the sodium pump by slowing dephosphorylation. **289**, 17, 1979

**Sodium appetite**
The temporary effect on sodium appetite of rapid restoration of body sodium in sodium depleted calves. **292**, 59*P*, 1979
The metabolic effects of sodium depletion in calves on salt appetite assessed by operant methods. **295**, 421, 1979
The effect of lithium intake on the sodium and lithium appetite of calves. **296**, 32*P*, 1979

**Sodium channel**
The effect of temperature on the asymmetrical charge movement in squid giant axons. **289**, 479, 1979
Characteristics of saxitoxin binding to the sodium channel of sarcolemma isolated from rat skeletal muscle. **295**, 383, 1979
Tetrodotoxin block of cardiac sodium channels during repetitive or steady depolarizations in the rabbit. **296**, 70*P*, 1979

**Sodium conductance**
Slow sodium conductance inactivation in frog skeletal muscle fibres. **291**, 56*P*, 1979

**Sodium current**
A quantitative description of membrane currents in rabbit myelinated nerve. **292**, 149, 1979

**Sodium depletion**
Sodium, potassium and water metabolism in the rabbit: the effect of sodium depletion and repletion. **292**, 407, 1979
Plasma active and inactive renin in the rabbit: effect of dietary sodium depletion and repletion. **292**, 421, 1979

**Sodium efflux**
Stimulation by cyclic GMP of sodium efflux in barnacle muscle fibres. **293**, 135, 1979
Mode of stimulation by injection of cyclic AMP and external acidification of the sodium reflux in barnacle muscle fibres. **296**, 277, 1979

**Sodium flux**
Sodium and calcium fluxes in a clonal nerve cell line. **286**, 525, 1979
Simultaneous comparison of sodium fluxes in different regions of vascularly perfused intestine of *Rana ridibunda*. **296**, 1*P*, 1979

**Sodium metabolism**
The metabolic effects of sodium depletion in calves on salt appetite assessed by operant methods. **295**, 421, 1979

**Sodium permeability**
Uptake of [$^3$H]benzamil at different sodium concentrations. Inferences regarding the regulation of sodium permeability. **295**, 491, 1979

**Sodium pump**
Reversible inhibition of the sodium pump in squid axons by the cardioactive drug AR-L 57. **287**, 22*P*, 1979
Sodium ions, acting at high-affinity extracellular sites, inhibit sodium-ATPase activity of the sodium pump by slowing dephosphorylation. **289**, 17, 1979
Activation of the sodium pump in LK goat red cells by trypsinization. **289**, 29*P*, 1979
The function of the sodium pump during differentiation of amphibian embryonic neurones. **292**, 85, 1979
The role of the sodium pump in the effects of potassium-depleted solutions on mammalian cardiac muscle. **294**, 279, 1979
Activation by sanguinarine of active sodium efflux from frog skeletal muscle in the presence of ouabain. **295**, 1, 1979
A rapid ion-exchange technique used to detect the occlusion of ions within the sodium pump. **295**, 4*P*, 1979
Modulation of transmitter turnover by sodium and the sodium pump. **295**, 51*P*, 1979
The biphasic action of *external* potassium ions in Na, K-ATPase. **295**, 88*P*, 1979
Sodium extrusion from guinea-pig intestinal mucosa. **296**, 34*P*, 1979
Parallel measurement of sodium pump activity and catecholamine release in cells isolated from bovine adrenal medulla. **296**, 102*P*, 1979
Sodium–sodium exchange through the sodium pump: the role of ATP and ADP. **297**, 637, 1979

**Sodium transport**
Sodium transport in the hen lower intestine. Induction of sodium sites in the brush border by a low sodium diet. **288**, 449, 1979
Chloride-dependent sodium transport in the skin of *Ambystoma mexicanum*. **289**, 79*P*, 1979
Activation by sanguinarine of active sodium efflux from frog skeletal muscle in the presence of ouabain. **295**, 1, 1979
Estimation of the density of sodium entry sites in frog skin epithelium from the uptake of [$^3$H]benzamil. **295**, 477, 1979
Uptake of [$^3$H]benzamil at different sodium concentrations. Inferences regarding the regulation of sodium permeability. **295**, 491, 1979
Hormonal influences on the driving force for sodium transport in amphibian epithelia. **295**, 48*P*, 1979
Thyroid hormones and the energetics of active sodium potassium transport in mammalian skeletal muscles. **297**, 47, 1979
Calcium and receptor regulation of radiosodium uptake by dispersed rat parotid acinar cells. **297**, 369, 1979

**Sodium-potassium adenosine triphosphatase (ATPase)**
Sodium–sodium exchange through the sodium pump: the role of ATP and ADP. **297**, 637, 1979

**Somatostatin**
Endogenous prostaglandins and stimulated gastric secretion in the cat: the effect of various secretory inhibitors. **291**, 1, 1979

**Spatial frequency**
Relationship between spatial frequency selectivity and receptive field profile of simple cells. **287**, 163, 1979
Responses of striate cortex cells to grating and checkerboard patterns. **291**, 483, 1979

**Sphincter**
Sympathetic control of lower oesophageal sphincter motility in the cat. **287**, 177, 1979

**Spinal cord**
Field potentials and excitation of primate spinothalamic neurones in response to volleys in muscle afferents. **286**, 197, 1979
Convenient methods for removing and examining the spinal cords of small animals. **289**, 17*P*, 1979
Dorsal root potentials recorded in the isolated spinal cord of the neonate rat. **289**, 84*P*, 1979
Dorsal root potentials and changes in extracellular potassium in the spinal cord of the frog. **290**, 113, 1979
Descending influence on neurones in the substantia gelatinosa Rolandi of the cat. **292**, 39*P*, 1979
Effects of some divalent cations on synaptic transmission in frog spinal neurones. **294**, 387, 1979
The origin of the catecholamine innervation of the sympathetic lateral column. **295**, 57*P*, 1979
The morphology of group Ib afferent fibre collaterals in the spinal cord of the cat. **296**, 215, 1979
Properties of single central Ia afferent fibres projecting to motoneurones. **296**, 315, 1979
Properties of single fibre excitatory post-synaptic potentials in triceps surae motoneurones. **296**, 329, 1979
Estimates of cable parameters in Lamprey spinal cord neurones. **297**, 299, 1979
Localization of synaptic input on dendrites of a lamprey spinal cord neurone from physiological measurements of membrane properties. **297**, 319, 1979

**Spinal pathway**
Segmental and supraspinal input to cells of origin of non-primary fibres in the feline dorsal columns. **290**, 185, 1979

**Spinal reflex**
Reflex connexions of motoneurones of muscles involved in head movement in the cat. **289**, 311, 1979
The mechanism of spinal control of reflex hind limb movements in the terrapin *Pseudemys scripta elegans*. **292**, 19*P*, 1979
Autogenetic inhibition of motoneurones by impulses in group Ia muscle spindle afferents. **293**, 173, 1979
Development of spinal reflexes in the rat fetus studies *in vitro*. **294**, 581, 1979

**Spinocervical tract**
Descending influences on the responses of spinocervical tract neurones to chemical stimulation of fine muscle afferents. **290**, 129, 1979
Segmental and supraspinal input to cells of origin of non-primary fibres in the feline dorsal columns. **290**, 185, 1979

**Spinothalamic tract**
Field potentials and excitation of primate spinothalamic neurones in response to volleys in muscle afferents. **286**, 197, 1979
Effects of mechanical and chemical stimulation of fine muscle afferents upon primate spinothalamic tract cells. **286**, 215, 1979

**Spleen**
Effects of venous pressure elevation on the blood-perfused spleen of the dog. **295**, 37*P*, 1979

**Squid**
The uptake of delta-aminolaevulinic acid into squid giant axons. **287**, 22*P*, 1979
The effect of ouabain on amino acid and orthophosphate influxes in squid giant axons. **289**, 389, 1979
The effect of temperature on the asymmetrical charge movement in squid giant axons. **289**, 479, 1979

**Stapedius muscle**
The dynamic characteristics of the stapedius reflex in humans. **296**, 15*P*, 1979

**Stereotaxic apparatus**
Bi-axial stereotaxic head holder. **295**, 2*P*, 1979

**Steroid hormone**
Radioligand-binding studies on the interaction of sex steroids with hypothalamic adrenergic receptors. **289**, 60*P*, 1979
Effects of oestrous cycle and exogenous ovarian steroids on 5-hydroxytryptamine metabolism in rat lung. **291**, 11, 1979

**Stimulation**
Effects of nerve impulses on threshold of frog sciatic nerve fibres. **290**, 273, 1979

**Stimulus-secretion coupling**
Effect of acetylcholine stimulation on calcium and sodium uptake by the isolated rat pancreas. **290**, 413, 1979
Extracellular calcium control of pancreatic acinar cell membrane conductance during sustained acetylcholine stimulation. **295**, 43*P*, 1979
Calcium and cyclic nucleotide interaction in secretion of amylase from rat pancreas *in vitro*. **296**, 159, 1979

**Stretch receptor**
Mechanics of the trachea and behaviour of its slowly adapting stretch receptors. **286**, 577, 1979
Functional characteristics of slowly adapting pulmonary stretch receptors in the turtle (*Chrysemys picta*). **291**, 37, 1979

**Stretch reflex**
Interactions between the stretch reflex and a 'repeat tendency' of the motoneurone pool in the human. **290**, 21*P*, 1979
Subject instruction and long latency reflex responses to muscle stretch. **292**, 527, 1979
Reflex electromyographic response to random limb displacement. **292**, 2*P*, 1979
Sensitivity, efficacy and disappearance of servo action in human muscle. **292**, 56*P*, 1979
Methods used to compare monosynaptic and mult-

**Stretch reflex** (*cont.*)
isynaptic projection of spindle afferents to jaw elevator motoneurones of different types. **293**, 13*P*, 1979
Long latency stretch reflex of the human thumb can be reversed if the task is changed. **293**, 41*P*, 1979
Ballistic flexion movements of the human thumb. **294**, 33, 1979
Effect of thumb anaesthesia in weight perception, muscle activity and the stretch reflex in man. **294**, 303, 1979
The relationship between early automatic and late voluntary compensatory responses to muscle stretch in the long flexor of the human thumb. **296**, 111*P*, 1979

**Striate cortex**
Responses of striate cortex cells to grating and checkerboard patterns. **291**, 483, 1979

**Striated muscle**
Interpretation of light diffraction by cross-striated muscle as Bragg reflexion of light by the lattice of contractile proteins. **290**, 317, 1979

**Strontium**
Ionic mechanisms of repolarization in the guinea-pig taenia coli as revealed by the actions of strontium. **297**, 443, 1979

**Subfornical organ**
The neuronal organization of the rat subfornical organ *in vitro* and a test of the osmo- and morphine-receptor hypotheses. **291**, 101, 1979
Intracellular recording from neurone of the rat subfornical organ *in vitro*. **294**, 23, 1979

**Submandibular gland**
Vascular innervation in the rat submandibular gland. **289**, 25*P*, 1979

**Substantia nigra**
Projection of nociceptive substantia nigra neurones in the rat. **293**, 62*P*, 1979
Demonstration of monosynaptic input to identified efferent neurones in the basal ganglia by a new morphological procedure. **296**, 17*P*, 1979

**Sugar transport**
Movements of monosaccharides between blood and tissues of vascularly perfused small intestine. **287**, 371, 1979
Internal dialysis as a method for studying sugar transport in large nerve and muscle fibres. **287**, 5*P*, 1979
Sugar transfer from the lumen of the rat small intestine to the vascular bed. **289**, 99, 1979
Active secretion of 2 deoxy-D-galactose by winter flounder intestine. **292**, 58*P*, 1979
Studies on amino acid inhibition of monosaccharide exit from anuran small intestinal epithelium. **294**, 195, 1979
A kinetic study of the interactions between amino acids and monosaccharides at the intestinal brush-border membrane. **295**, 457, 1979
Disaccharide competition with hexose transport in the rat perfused liver. **296**, 31*P*, 1979
Effect of sodium on the absorption of glucose and galactose across the rat jejunum measured *in vivo*. **296**, 52*P*, 1979

**Superior cervical ganglion**
Relation between catecholamine-induced cyclic AMP changes and hyperpolarization in isolated rat sympathetic ganglia. **290**, 441, 1979
On the purpose of selective innervation of guinea-pig superior cervical ganglion cells. **292**, 69, 1979

**Supraoptic nucleus**
Responses of supraoptic neurones to chemoreceptor and baroreceptor stimulation in rats. **287**, 25*P*, 1979
Involvement of the preoptic area in the excitation of phasically discharging supraoptic neurones by chemoreceptor stimulation in the rat. **292**, 15*P*, 1979

**Sural nerve**
Sural nerve effects on medial gastrocnemius motoneurones in the cat. **288**, 401, 1979

**Sympathetic afferent nerve fibre**
Afferent sympathetic unmyelinated fibres with left ventricular endings in cats. **292**, 135, 1979

**Sympathetic ganglion**
[$^3$H]γ-Aminobutyric acid uptake into neuroglial cells of rat superior cervical sympathetic ganglia. **293**, 51, 1979
γ-Aminobutyric acid efflux from sympathetic glial cells: effect of 'depolarizing' agents. With an Appendix by R.R. ADAMS & D.A. BROWN. **293**, 75, 1979
The effects of post-ganglionic axonomy on selective synaptic connexions in the superior cervical ganglion of the guinea-pig. **297**, 95, 1979
Intracellular pH and the distribution of weak acids and bases in isolated rat superior cervical ganglia. **297**, 597, 1979

**Sympathetic innervation**
The physiology, pharmacology, and trophic effectiveness of synapses formed by autonomic preganglionic nerves on frog skeletal muscle. **289**, 219, 1979
Competitive interaction between foreign nerves innervating frog skeletal muscle. **289**, 241, 1979

**Sympathetic nerve activity**
The central control of the lumbar sympathetic pathway to the large intestine of the cat. **289**, 449, 1979

**Sympathetic nerve terminal**
The packeted release of transmitter from the sympathetic nerves of the guinea-pig vas deferens: an electrophysiological study. **296**, 85, 1979

**Sympathetic nervous system**
Selective response of rat peripheral sympathetic nervous system to various stimuli. **293**, 513, 1979

**Sympathetic neurone**
Calcium-dependent potentials in the mammalian sympathetic neurone. **290**, 507, 1979
Reflex pathways in the abdominal prevertebral ganglia: evidence for a colo-colonic inhibitory reflex. **295**, 21, 1979

**Synapse**
Disuse enhances synaptic efficacy in spinal motoneurones. **291**, 191, 1979
On the purpose of selective innervation of guinea-pig superior cervical ganglion cells. **292**, 69, 1979

**Synapse formation**
Synapse formation in intact innervated cutaneous-pectoris muscles of the frog following denervation of the opposite muscle. **292**, 535, 1979

**Synaptic excitation**
Glutamate and synaptic excitation of reticulospinal neurones of lamprey. **293**, 417, 1979

**Synaptic inhibition**
Glycine, GABA and synaptic inhibition of reticulospinal neurones of lamprey. With an Appendix by A.R. MARTIN. **293**, 393, 1979

**Synaptic noise**
Forward and backward correlation of motoneurone synaptic noise and muscle afferent activity. **293**, 12*P*, 1979

**Synaptic potential**
Localization of synaptic input on dendrites of a lamprey spinal cord neurone from physiological measurements of membrane properties. **297**, 319, 1979

**Synaptic transmission**
Some properties of the excitatory junction potentials recorded from saphenous arteries of rabbits. **287**, 337, 1979
The effect of hypoxia on evoked potentials in the *in vitro* hippocampus. **287**, 427, 1979
The actions of excitatory amino acids on motoneurones in the feline spinal cord. **288**, 227, 1979
Depression by manganese and cobalt of monosynaptic Ia excitatory post-synaptic potential in cat spinal cord. **289**, 82*P*, 1979
Effects of some divalent cations on synaptic transmission in frog spinal neurones. **294**, 387, 1979
Selective antagonism of amino acid-induced and synaptic excitation in the cat spinal cord. **297**, 621, 1979

**Synovial fluid**
An investigation into the validity of subatmospheric pressure recordings from synovial fluid and their dependence on joint angle. **289**, 55, 1979
The influence of hydrostatic pressure on transsynovial fluid movement and on capsular expansion in the rabbit knee. **289**, 69, 1979
Pathways for fluid absorption from the synovial cavity of the rabbit knee. **290**, 34*P*, 1979

**Taurine**
Central effect of taurine and its analogues on fever caused by intravenous leukocytic pyrogen in the rabbit. **287**, 535, 1979

**Teaching**
Does the provision of correct answers to multichoice questions improve subsequent student performance? **289**, 6*P*, 1979
A flexible student-orientated approach to physiology practical teaching. **291**, 20*P*, 1979

**Telemetry**
A telemeter for ion selective catheter tipped electrodes. **293**, 14*P*, 1979

**Teleost**
Open-circuit sodium and chloride fluxes across isolated opercular epithelia from the teleost *Fundulus heteroclitus*. **294**, 483, 1979

**Temperature dependence**
Non-electrolyte permeability of trout gills: effect of temperature and adrenaline. **286**, 361, 1979
Comparison of the temperature dependence of rapid axonal transport and microtubules in nerves of the rabbit and bullfrog. **287**, 303, 1979
The effect of temperature on the asymmetrical charge movement in squid giant axons. **289**, 479, 1979
Effects of temperature on tension, tension-dependent heat, and activation heat in twitches of frog skeletal muscle. **291**, 265, 1979
Cooling and wrist compliance. **296**, 47*P*, 1979

**Temperature regulation**
Natural selective cooling of the human brain: evidence of its occurrence and magnitude. **286**, 255, 1979

**Temperature sensitivity**
The relative importance of thermal, osmotic and hypovolaemic factors in the control of drinking in the pig. **293**, 501, 1979

**Tendon**
The effects of tenotomy upon the contraction characteristics of motor units in rabbit soleus muscle. **290**, 1, 1979

**Tendon organ**
Inhibition of gamma motoneurone discharge by contraction of the homonymous muscle in the decerebrated cat. **291**, 425, 1979
The responses of Golgi tendon organs to stimulation of different combinations of motor units. **295**, 251, 1979
The morphology of group Ib afferent fibre collaterals in the spinal cord of the cat. **296**, 215, 1979

**Testis**
The continuous measurement of testicular blood flow in the ram, in relation to the pulsatile secretion of testosterone. **287**, 10*P*, 1979

**Tetanus toxin**
Effect of tetanus toxin on uptake and potassium-evoked release of radio-labelled transmitters from the substantia nigra and striatum of the rat. **287**, 32*P*, 1979
Tetanus toxin and synaptic inhibition in the substantia nigra and striatum of the rat. **290**, 23, 1979

**Tetraethylammonium**
Mouse pancreatic $\beta$-cells: tetraethylammonium blockage of the potassium permeability increase induced by depolarization. **288**, 561, 1979

**Thalamus**
Electrophysiological and sensory properties of the thalamic reticular neurones related to somatic sensation in rats. **290**, 79, 1979

**Thallium**
The electrogenic potential in rat C nerve fibres: some effects of lithium and thallium. **294**, 135, 1979

**Theophylline**
Theophylline inhibition and stimulation of glucose-induced electrical activity in mouse pancreatic $\beta$-cells. **291**, 55*P*, 1979

**Thermogenesis**
Weight maintenance and dietary-induced thermogenesis in the weaning pig. **291**, 60*P*, 1979

**Thermoregulation**
Open loop increase in trunk temperature produced by face cooling in working humans. **289**, 163, 1979
Air humidity and carotid rete function in thermoregulation of the goat. **292**, 469, 1979

**Thermoregulation** (*cont.*)
Effects of dopaminergic antagonist and agonist on thermoregulation in rabbits. **293**, 217, 1979
Review Lecture. '*La Chaleur Animale* and the infant brain'. **294**, 1, 1979
Effect of intraventricular injection of transmitter substances and temperature on autonomic functions of conscious sheep. **294**, 239, 1979
Hypothalamic thermo-responsive neurones in the new-born rat. **294**, 541, 1979
Metabolic, respiratory, vasomotor and body temperature responses to beta-endorphin and morphine in rabbits. **295**, 179, 1979
Protein deprivation: its effects on fever and plasma iron during bacterial infection in rabbits. **295**, 419, 1979
Alternation of contraction and relaxation during profound cooling in canine cutaneous veins. **295**, 74*P*, 1979

**Thiry-Vella loop**
Propagation of electrical spiking activity along the small intestine: intrinsic versus extrinsic neural influences. **292**, 15, 1979

**Thrombin**
Effects of thrombin on isolated canine arteries and veins. **295**, 98*P*, 1979

**Thumb**
Effect of thumb anaesthesia in weight perception, muscle activity and the stretch reflex in man. **294**, 303, 1979

**Thyroid hormone**
Thyroid hormones and the energetics of active sodium potassium transport in mammalian skeletal muscles. **297**, 47, 1979

**Thyrotrophin releasing hormone**
Enzymic inactivation of thryotrophin-releasing hormone by the hypothalamus and other areas of rat brain. **290**, 39*P*, 1979
Hypothalamic inactivation of thyrotophin releasing hormone and one of its metabolites. **296**, 56*P*, 1979

**Tooth**
Quantitative electron microscopy on the pulpal innervation of the rat incisor. **295**, 67*P*, 1979
The effect of applied forces on the movement of continuously erupting rat incisors. **295**, 100*P*, 1979

**Tooth receptor**
Evidence for primary afferent depolarization of single tooth-pulp afferents in the cat. **288**, 437, 1979

**Touch**
Tactile sensibility in the human hand: relative and absolute densities of four types of mechanoreceptive units in glabrous skin. **286**, 283, 1979
Detection of tactile stimuli, thresholds of afferent units related to psychophysical thresholds in the human hand. **297**, 405, 1979

**Trachea**
Mechanics of the trachea and behaviour of its slowly adapting stretch receptors. **286**, 577, 1979
Contraction of the sensitized rat trachea *in vitro*. **296**, 45*P*, 1979

**Transducer**
A capacitance-gauge force transducer for isolated muscle fibres. **292**, 1*P*, 1979

**Transmitter depletion**
Input–output relations in the pathway of recurrent inhibition to motoneurones in the cat. **297**, 267, 1979

**Transmitter quantal release**
Changes in total and quantal release of acetylcholine in the mouse diaphragm during activation and inhibition of membrane ATPase. **286**, 1, 1979
The effect of nutritional state on neuromuscular transmission in the rat. **286**, 375, 1979
The packeted release of transmitter from the sympathetic nerves of the guinea-pig vas deferens: an electrophysiological study. **296**, 85, 1979

**Transmitter release**
Some effects of hypertonic solution on the properties of spontaneous transmitter release in the hypogastric ganglia of guinea-pigs. **290**, 11, 1979
Change of statistical parameters of transmitter release during various kinetic tests in unparalysed voltage-clamped rat diaphragm. **290**, 481, 1979
Moderate hydrostatic pressures reduce the spontaneous release of transmitter in the frog. **292**, 44*P*, 1979
The relationship between end-plate size and transmitter release in normal and dystrophic muscles of the mouse. **296**, 245, 1979

**Transverse tubule**
A voltage-dependent gate in series with the inwardly rectifying potassium channel in frog striated muscle. **293**, 301, 1979

**Tremor**
Tremor in the tension developed isometrically by soleus during the tonic vibration reflex in the decerebrate cat. **292**, 35, 1979
Asynchronous motor unit activities and tremor. **293**, 42*P*, 1979

**Trigeminal nerve**
Mossy and climbing fibre mediated responses evoked in the cerebellar cortex of the cat by trigeminal afferent stimulation. **287**, 1, 1979
The course of post-ganglionic sympathetic fibres to the face and jaws in the cat. **293**, 46*P*, 1979

**Trigeminal nucleus**
Responses of cells in the trigeminal subnucleus caudalis of the rat to noxious stimuli. **287**, 18*P*, 1979
The actions of opiates on the nociceptive responses of neurones in the trigeminal nucleus caudalis of the rat. **293**, 65*P*, 1979

**Triiodothyronine ($T_3$)**
The early metabolic response of lambs to small doses of 3,3′,5-triiodothyronine. **293**, 49*P*, 1979

**Trophic action**
Dependence of motoneurone properties on the length of immobilized muscle. **291**, 179, 1979

**Trophic factor**
Neural control of skeletal muscle cholinesterase: a study using organ-cultured rat muscle. **289**, 501, 1979
The trophic influence of tetrodotoxin-inactive nerves on normal and reinnervated rat skeletal muscles. **297**, 479, 1979

**Trout**
The mechanism of coupled transport of sodium and chloride in isolated urinary bladder of the trout. **294**, 211, 1979

**Tryptophan**
Effect of insulin upon levels of amino acids in the blood and upon the influx of tryptophan into the brain. **289**, 87*P*, 1979
Gastric emptying and secretion in the calf on duodenal infusion of tryptophan, tryptamine and 5-hydroxytryptamine. **291**, 413, 1979
**Tubocurarine**
The actions of tubocurarine at the frog neuromuscular junction. **293**, 247, 1979
The kinetics of tubocurarine action and restricted diffusion within the synaptic cleft. **294**, 365, 1979
**Tubulin**
Effect of visual experience on tubulin synthesis during a critical period of visual cortex development in the hooded rat. **293**, 469, 1979
**Turtle**
Synaptic drive and impulse generation in ganglion cells of turtle retina. **288**, 107, 1979
Electrical coupling between cones in turtle retina **291**, 75, 1979
**Tyrosine**
The effect of footshock on synaptosomal tyrosine hydroxylation in rat brain regions. **296**, 97*P*, 1979
**Tyrosine hydroxylase**
Selective response of rat peripheral sympathetic nervous system to various stimuli. **293**, 513, 1979
**Urethane**
Effects of urethane on the ionic currents in squid giant axons. **287**, 31*P*, 1979
**Urinary bladder**
The mechanism of coupled transport of sodium and chloride in isolated urinary bladder of the trout. **294**, 211, 1979
**Urine**
Renal calcium and magnesium excretion during vasopressin administration into sheep with acid or alkaline urine. **294**, 223, 1979
**Uterus**
Localized inhibition of uterine resorption in rats containing dummy fetuses after parturition. **287**, 20*P*, 1979
Prostacyclin and prostaglandin $E_2$ selectively antagonize responses of human isolated myometrium to excitatory prostaglandins. **292**, 36*P*, 1979
**Vagal mechanoreceptor**
Vagal afferent discharge from tension receptors in the ferret stomach. **291**, 33*P*, 1979
**Vagal neurone**
Preganglionic vagal cardiomotor neurones in the rabbit: location and properties. **296**, 20*P*, 1979
**Vagotomy**
Assessment of the pulmonary origin of bronchoconstrictor vagal tone. **291**, 305, 1979
**Vagus nerve**
The effect of bupivacaine aerosol on the activity of pulmonary stretch and 'irritant' receptors. **288**, 367, 1979
The action of angiotensin II on the baroreflex response of the conscious ewe and the conscious fetus. **288**, 467, 1979
The central projections of single vagal afferent neurones in the rabbit. **289**, 42*P*, 1979
The identification of the cell bodies of vagal efferent fibres of pulmonary and cardiac origin in the cat using horseradish peroxidase. **290**, 9*P*, 1979
The temperature in the vagal core during graded cooling in the dog. **290**, 11*P*, 1979
The nature of the atrial receptors responsible for a reflex increase in heart rate in the dog. **291**, 393, 1979
Summation of phasic lung volume reflexes between the two lungs in dogs. **292**, 66*P*, 1979
Influence of the vagus nerve on release and action of secretin in dog. **293**, 435, 1979
Inhibition by angiotensin II of baroreceptor-evoked activity in cardiac vagal efferent nerves in the dog. **294**, 69, 1979
Microvascular filling pattern in rat liver sinusoids during vagal stimulation. **295**, 191, 1979
**Valve**
A simple, inexpensive two-way fluid valve. **296**, 3*P*, 1979
**Vanadate**
Renal vasoconstriction, hypertension and fall in urinary osmolality produced by arterial vanadate infusion. **296**, 92*P*, 1979
**Vas deferens**
Packeted transmitter release in the mouse vas deferens; an electrophysiological study. **295**, 44*P*, 1979
**Vascular capacity**
A method for determination of vascular capacitance changes in a vascularly isolated region of the dog. **290**, 6*P*, 1979
**Vascular muscle**
Vascular smooth muscle ultrastructure in hypoxia. **293**, 22*P*, 1979
The contraction induced by dithiothreitol in isolated rabbit vascular smooth muscle. **293**, 77*P*, 1979
**Vascular permeability**
The effect of low concentrations of bovine albumin on the vascular transudation coefficient of the isolated perfused rat mesentery. **289**, 63*P*, 1979
**Vasoactive intestinal polypeptide**
Vasoactive intestinal peptide-like immunoreactivity in salivary glands of the rat. **289**, 23*P*, 1979
Release of vasoactive intestinal peptide from the gastrointestinal tract in response to autonomic stimulation in the calf. **289**, 47*P*, 1979
Cerebral circulatory and metabolic effects of vasoactive intestinal polypeptide. **291**, 42*P*, 1979
Potent stimulation of the avian exocrine pancreas by porcine and chicken vasoactive intestinal peptide. **294**, 153, 1979
The relationship between release of vasoactive intestinal peptide in the salivary gland of the cat in response to parasympathetic stimulation and the atropine resistant vasodilatation. **295**, 35*P*, 1979
**Vasodilatation**
The origin of the hind limb vasodilatation evoked by stimulation of the motor cortex in the cat. **287**, 545, 1979
**Vasomotor reflex**
Carotid and cardiopulmonary baroreceptor control of splanchnic and forearm vascular resistance during venous pooling in man. **286**, 173, 1979

**Vasopressin**
GABA and glycine inhibit vasopressin release to carotid occlusion. **289**, 43*P*, 1979
Phasic firing enhances vasopressin release from the rat neurohypophysis. **290**, 433, 1979
Effect of L-dopa on vasopressin secretion in man. **292**, 64*P*, 1979
Renal calcium and magnesium excretion during vasopressin administration into sheep with acid or alkaline urine. **294**, 223, 1979
Evidence supporting a role for endogenous vasopressin in natural suppression of fever in the sheep. **295**, 33, 1979
The role of vasopressin in blood pressure regulation immediately following acute haemorrhage in the rat. **296**, 267, 1979
The cardiovascular responses of the chronically catheterized pig fetus to infused lysine vasopressin and to haemorrhage. **296**, 28*P*, 1979

**Venom**
Effects of envenomation on cardiac cell permeability. **291**, 72*P*, 1979

**Ventilation**
Diffusional inhomogeneity: gas mixing efficiency in the new-born lung. **286**, 447, 1979
Dependence of phrenic motoneurone output on the oscillatory component of arterial blood gas composition. **290**, 163, 1979
The effects of sudden airway hypercapnia on the initiation of exercise hyperpnoea in man. **296**, 203, 1979

**Ventilatory neurone**
Oscillatory potentials in crab ventilatory neurones. **287**, 39*P*, 1979

**Ventricular fibrillation**
Afferent sympathetic unmyelinated fibres with left ventricular endings in cats. **292**, 135, 1979

**Vesicle**
The labelling of vesicles in frog endothelial cells with ferritin. **296**, 97, 1979

**Vestibulo-ocular response**
Vestibulo-ocular function during co-ordinated head and eye movements to acquire visual targets. **287**, 127, 1979

**Vibration**
Effect of the amplitude of muscle vibration on the subjectively experienced illusion of movement. **296**, 14*P*, 1979
Effect of vibration on the mechanical resistance of the human forearm to small imposed sinusoidal movements. **296**, 16*P*, 1979

**Vibration reflex**
Tremor in the tension developed isometrically by soleus during the tonic vibration reflex in the decerebrate cat. **292**, 35, 1979
An attempt to quantify vibration induced movement sensation. **292**, 18*P*, 1979
Reflex action of amplitude-modulated vibration in man. **296**, 5*P*, 1979

**Visceral afferent nerve fibre**
Mechanosensitive afferents in the cat pelvic nerve. **290**, 51*P*, 1979

**Visceral reflex**
A preparation for the investigation of reflex interactions between pelvic viscera in the cat. **290**, 16*P*, 1979
Vesico-sympathetic reflexes mediated by hypogastric nerve afferents in the cat. **290**, 49*P*, 1979
Inhibitory interactions between the colonic and vesical branches of the pelvic nerve in the cat. **290**, 50*P*, 1979

**Vision**
The response characteristics of an inhibitory binocular interaction in human vision. **290**, 37, 1979
On the separability of two mechanisms involved in the detection of grating patterns in humans. **291**, 251, 1979
The visibility of images moving across the stationary retina in man. **292**, 30*P*, 1979
Initial-image and afterimage discrimination in the human rod and cone systems. **294**, 165, 1979
Behavioural evidence for the oblique effect in the cat. **295**, 15*P*, 1979
Balance between pattern and movement channels in human vision. **295**, 17*P*, 1979
Lateral interactions in human cone dark adaptation. **296**, 125, 1979
After-effects of small adapting fields. **296**, 141, 1979

**Visual contrast sensitivity**
Non-linear spatial summation and the contrast gain control of cat retinal ganglion cells. **290**, 141, 1979
On the separability of two mechanisms involved in the detection of grating patterns in humans. **291**, 251, 1979

**Visual cortex**
Relationship between spatial frequency selectivity and receptive field profile of simple cells. **287**, 163, 1979
Responses of striate cortex cells to grating and checkerboard patterns. **291**, 483, 1979
Spatial frequency rows in area 18 of the cat. **292**, 29*P*, 1979
Effect of visual experience on tubulin synthesis during a critical period of visual cortex development in the hooded rat. **293**, 469, 1979
Responses of visual cortical cells to periodic and non-periodic stimuli. **296**, 27, 1979
Preferences for horizontal or vertical orientation in cat visual cortical neurones. **296**, 61*P*, 1979

**Visual cortical neurone**
Inhibitory mechanisms influencing complex cell orientation selectivity and their modification at high resting discharge levels. **289**, 33, 1979

**Visual deprivation**
Responses of cortical neurones of monocularly deprived kittens: a re-examination. **291**, 35*P*, 1979
Physiological and behavioural consequences of monocular deprivation in the golden hamster. **296**, 63*P*, 1979
Rapid changes in ocular dominance produced by 4-aminopyridine in monocularly deprived lambs. **296**, 64*P*, 1979

**Visual development**
Tubulin synthesis in developing cerebral cortex of rat and kitten. **287**, 26*P*, 1979
Effect of visual experience on tubulin synthesis during a critical period of visual cortex development in the hooded rat. **293**, 469, 1979
**Visual illusion**
A new visual illusion involving movement. **289**, 19*P*, 1979
**Visual neurone**
Spatial and temporal properties of X and Y cells in the cat lateral geniculate nucleus. **293**, 347, 1979
Variation in the spatial frequency selectivity of neurones in the cat visual cortex. **295**, 33*P*, 1979
Responses of visual cortical cells to periodic and non-periodic stimuli. **296**, 27, 1979
**Visual pathway**
A method for the determination of fibre organization within the visual pathways of higher vertebrates. **296**, 8*P*, 1979
'Chronotopic' organization of goldfish optic pathway. **296**, 13*P*, 1979
**Visual projection**
Retinotopic architecture in goldfish optic pathway. **289**, 50*P*, 1979
Morphogenetic forces in the development of the avian retina of possible significance for the polarity of central visual projections. **291**, 12*P*, 1979
Stability of retinal positional specificity in disarranged embryonic eyes in *Xenopus*. **293**, 56*P*, 1979
**Visual receptive field**
Relationship between spatial frequency selectivity and receptive field profile of simple cells. **287**, 163, 1979
Inhibitory mechanisms influencing complex cell orientation selectivity and their modifications at high resting discharge levels. **289**, 33, 1979
The mechanism of peripherally evoked responses in retinal ganglion cells. **289**, 299, 1979
Non-linear spatial summation and the contrast gain control of cat retinal ganglion cells. **290**, 141, 1979
Size, scatter and coverage of ganglion cell receptive field centres in the cat retina. **291**, 117, 1979
**Visual sensitivity**
Recovery of cat retinal ganglion cell sensitivity following pigment bleaching. **295**, 47, 1979
**Vitamin $B_{12}$**
*In vivo* effect of pancreatic and hypothalamic extract on ileal absorption of vitamin B12 and its distribution in tissues in guinea-pig. **292**, 59*P*, 1979
**Vitamin $B_{12}$**
Antagonistic effects of pentagastrin and cortisol on plasma level, urinary excretion and hepatic and renal uptake of vitamin $B_{12}$ after intravenous injection in the cat. **296**, 88*P*, 1979
**Voltage clamp**
Calcium current in molluscan neurones: measurement under conditions which maximize its visibility. **286**, 41, 1979
Measurement of calcium influx under voltage clamp in molluscan neurones using the metallochromic dye arsenazo III. **286**, 61, 1979
Extracellular potassium accumulation in voltage-clamped frog ventricular muscle. **286**, 83, 1979
Potassium currents in frog ventricular muscle: evidence from voltage clamp currents and extracellular potassium accumulation. **286**, 113, 1979
Three-micro-electrode voltage clamp experiments in calf cardiac Purkinje fibres: is slow inward current adequately measured? **290**, 201, 1979
Electrical properties associated with wide intercellular clefts in rabbit Purkinje fibres. **290**, 227, 1979
Voltage clamping of unparalysed cut rat diaphragm for study of transmitter release. **290**, 467, 1979
Change of statistical parameters of transmitter release during various kinetic tests in unparalysed voltage-clamped rat diaphragm. **290**, 481, 1979
Inactivation of delayed outward current in molluscan neurone somata. **291**, 507, 1979
Voltage clamp and data acquisition method for single myelinated nerve fibre work. **291**, 14*P*, 1979
A voltage clamp study of the light response in solitary rods of the tiger salamander. **296**, 1, 1979
Saturation of the response to light in *Limulus* ventral photoreceptor. **296**, 373, 1979
Ionic mechanisms of repolarization in the guinea-pig taenia coli as revealed by the actions of strontium. **297**, 443, 1979
**Voltage-clamp**
Presynaptic action of curare. **290**, 499, 1979
**Voluntary contraction**
Motor unit organization of human medial gastrocnemius. **287**, 33, 1979
Voluntary activation of spindle endings in human muscles temporarily paralysed by nerve pressure. **287**, 329, 1979
The regularity of muscle spindle discharge in man. **291**, 277, 1979
Changes in muscle activation during prolonged maximal voluntary contractions. **292**, 14*P*, 1979
**Voluntary movement**
Functional relationships between the hippocampus and the cerebellum: an electrophysiological study of the cat. **287**, 405, 1979
The responses of afferent fibres from the glabrous skin of the hand during voluntary finger movements in man. **291**, 233, 1979
Afferent discharge during voluntary movement. **293**, 10*P*, 1979
Ballistic flexion movements of the human thumb. **294**, 33, 1979
Changes in recurrent inhibition during voluntary soleus contractions in man studied by an H-reflex technique. **297**, 229, 1979
**Vomeronasal organ**
Efferent control of stimulus access to the hamster vomeronasal organ. **286**, 301, 1979
**Walking**
Potential implications of heel strike transients. **292**, 31*P*, 1979
**Water absorption**
The choice of models relating tritiated water absorption to subepithelial blood flow in rumen of sheep. **297**, 111, 1979

**Water deprivation**
Renin, antidiuretic hormone and the kidney in water restriction and rehydration. **294**, 181, 1979
**Water metabolism**
Sodium, potassium and water metabolism in the rabbit: the effect of sodium depletion and repletion. **292**, 407, 1979
Plasma active and inactive renin in the rabbit: effect of dietary sodium depletion and repletion. **292**, 421, 1979
**Water transport**
Numerical solution of coupled transport equations applied to corneal hydration dynamics. **292**, 107, 1979
**Wrist**
Torque-resonance relationship in the wrist: sex difference. **289**, 86*P*, 1979
**Zinc**
Prevention of dietary effects of zinc deficiency by administration of essential fatty acids. **296**, 83*P*, 1979
